PORT ORFORD OFFERINGS.

Northern Curry County News As Told by the Tribune.

Postmaster Johnston and son, Lowell, returned Monday evening from a visit to North Bend, where Mrs. Johnston is now staying with her mother, Mrs. Chandler. Mr. Johnston left here Saturday morning, and was in North Bend that night, and left there on his return Monday morning and was at home that evening. He says that Coos county can beat Curry on steamboats and railroads, but when it comes to wagon roads they are not in it. He reports the roads from here to the county line in splendid condition.

We are glad to be able to announce that ex-County Judge E. A. Bailey, who at present is living at Portland, is much improved in health. Mr. Bailey's health has not been good for the past year, and his friends will be pleased to know that he is now much improved and promises to soon be as well as ever.

There will be many vacancies on the primary ballot in Curry county this year. Sheriff is the only county office that the Democrats have named a candidate for, while there will be but two precinct officers for nomination on that ticket. The Republican party offers but one candidate for sheriff, one for county clerk, one for surveyor, and none for coroner, while but one Republican in the county seeks a precinct office.

Forester W. B. Milbury made a trip to Myrtle Point a few days ago to take away the supplies that were left at the Ranger Station at Alder Springs. This station is on the mountain between Hare and Myrtle Point and is embraced in land that was recently restored to entry. The house had been broken into and ransacked, and Mr. Milbury had to content himself with what was left.

NEWS OF GARDINER.

Events Along the Lower Umpqua As Told by the Courier.

During the month of April the Gardiner Mill Co. made the following shipments of lumber: April 9th, on the Lily to S. F., 196,000 feet; April 16, on the San Gabriel to S. F., 474,000 feet; April 23, on the Caroline to S. F., 392,000 feet. This is a pretty good showing, considering that the vessels were barbound a great part of the month so that the vessels could not pass out.

The Copenhagen Bros. have moved the steam shovel across the Scofield Creek to Reedsport and will begin active grading to the Umpqua River, which will take about two months to complete. They have moved all their camps and equipment to the Sherbondy ranch.

Work will begin at once at the Jack France slough, grading up to the tunnel site of No. 6 on the south end. This work will be completed by fall. Work will be resumed on tunnel 6 at once, or as soon as timber can be hauled to it.

Work on the right of way between tunnel 6 and Mapleton is being rushed. The Porter Bros. are building a tramway to the lakes so as to get supplies in without interruption on account of poor roads.

Messrs. H. P. Hoey and W. R. Fountaine were in Gardiner this week looking over the work and routes. They say that work on this division of the railroad will be crowded this summer and fall. It is expected that the putting in of the piers of the bridges across the Umpqua and Smith Rivers will begin at an early date.

CULLINGS OF COQUILLE.

News of the County Seat As Told by the Sentinel.

Last Tuesday Elizabeth Flood, of Bandon, and Gus Wahl, from the county farm, were brought in here to be examined as to their sanity.

The first three days of this week the air here was quite blue, being heavily laden with the smoke which drifted down with the northerly airs from the Smith-Powers camp on Isthmus Slough, where they appear to have been making a wholesale job of burning slushing.

Coquille's per capita of automobiles still remains the highest of any town in Oregon of no greater population—and a large per cent of them were on the roads last Sunday.

On Wednesday Arthur Thurman and Lizzie Brandon of Marshfield, were made man and wife here by Rev. C. H. Bryan.

COOS COUNTY MAIL BIDS.

Government to Make New Contracts for Carrying It.

The Roseburg Review says: New bids are being advertised for by the U. S. Postoffice Department for carrying the mails for four years between Roseburg and Myrtle Point, and between Roseburg and Marshfield. No parcel post matter is now being carried between these terminals, except to the way stations, the through parcel post packages being taken by steamers from Portland and San Francisco. The bonds required from contractors on each of these routes has also been decreased to \$20,000 on each. Formerly the requirement was \$20,000 on the Myrtle Point route and \$30,000 to Marshfield. The bids must be filed with the department at Washington on or before May 26, and the contract, if awarded, will become effective on July 1, 1914.

The postoffices are again busy for six weeks weighing all mails, to help to fix a basis for the new four year contracts on star routes all over the country.

After May 4 Dr. R. W. Morrow, Dentist, will occupy rooms 1 and 2, Eldorado Building over Red Cross Drug Store.

EAT LESS MEAT IF BACK HURTS

Take a Glass of Salts to Flush Kidneys if Bladder Bothers You—Drink Lots of Water.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked, get sluggish, clog up and cause all sorts of distress, particularly backache and misery in the kidney region, rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the urinary organs clean, thus avoiding serious kidney disease.
