Henry E. Lee Charges "Gum-shoe Work" and Blames J. H. Somers for It.

The San Francisco billetin contains a lengthy article as to how toe Foreign Mines Development Company of South America has been following and embarrassing Harry E. Lee, well known in Bandon, and who was prominently connected with the proposed rairoad between Bandon Port Orford and the Rogue River Valley at Grants Pass and Medford. This large corporation claims pri-

ority rights to some large potash deposits in San Bernadino county, Cal-ifornia, but according to everything that is right and just they were in no way entitled to them. Mr. Lee had made proper filings on the land and had done his regular assessment work, but nothwithstanding, for five years the South Africa Co., through the Burns detective agency, has been shadowing him and even with armed forces at times have prevented or attempted to prevent him from doing of trumped-up charges have several times succeeded in having Lee arrest-

ing all he c o tdluo...,wey.g-su.m ing all he could to make trouble for Mr. Lee, but he was now under arrest on a charge of embezzlement preferred by C. W. Lake and others connected with the West Coast Development Company of Bandon, and is now under bonds. His preliminary hearing has been held and the case taken under advisement. The evidence against him is very strong.

A man by the name of Boyce, who had been in the detective service against Lee, was discharged because a disagreement over wages, and efterwards was employed by Lee, and thus many of the underhanded plans the Foreign Mines Development Company were unearthed .- Banden

MYRTLE POINT

The Coos County high school track meet will be 'held at Myrtle Point next Saturday.

So far as is known all the high schools of the county will be repre-sented, and an excellent meet is expected, and with the present weather holding good for the remainder of the week, it is expected that some new records will be set.

So many of the old point winners are lost to the different schools, that the winning will be more or less an encertainty, but Marshfield is putting its hopes in Clark, Lecocq and Pach of last years' team, and with the addition of a few new men, who have shown well in training. More men have turned out for

track work this year, and it is going to be possible to enter three men in each event, which wil materially aid the possibilities of victory for Marsh-Even the shot put and pole vault, which have always been weak events are to be entered with a fair 627,000 pessibility of points. Chandler says that he will start the ball rolling just as soon as he can make the necessary arrangements which will bring the Coquiller Bandon and North Bend teams into the ring. Players for each team will be selected soon and a schedule of bames formulated.

As a sten in that direction Chandler has obtained permission to use bar. e ground in front of the Bradley Candy company factory as a prac-tive field. A case will be erected and the ground will be roued, making it suitable for such a purpose There will also be practice games on the North Bend diamond.

Chandler has not had time as yet to select his star players. However, .. is known that the following are considered: Burke, Sater, Johnson, Freeman, Landers, Woods, Smith, Abbott, Crawford and Magary, Other players who have made a good saowing in the recent games are also likely to be chosen.

The Elks and Firemen will play

another game at North Bend next Senday if plans now under way materialize. There seems to be some difficulty on both sides in completing the line-ups and arranging other
