## HOUSE OF COMMONS PASSES IRISH HOME RULE BILL TODAY

Measure Passes Third Reading by Majority of 77—Will Become Law Soon.

### HOUSE OF LORDS CANNOT PREVENT ITS ENACTMENT

Ulster Opponents of Home Rule Still Hope to Secure An Amendment to Measure.

LONDON, May 25.—The Irish Home Rule Bill passed the third reading of the House of Commons by a majority of 78. The closing scene in the fight for home rule brought together a crowd of members and spectators which filled the chamber to its utmost capacity. Outside great crowds gathered to await the result of the debate on the third reading of the bill. The bill which passed the House for the third time and which will become a law whether the House of Lords assents or not, provides for an Irish parliament which cannot legislate on peace or war, navy, army, foreign relations, trade outside of Ireland, coinage of legal tender or religion. Numerous other minor restrictions are also made. Ulster Amendments. Speaker Louth appealed to the Premier to give the House some information regarding the bill to be introduced after the passage of the home rule bill for the amendment of that measure so as to meet some of the objections of the people of Ulster. Asquith replied that amending the bill would give effect to any agreement which the government was still hopeful might be reached before the bill was made a law.

## W. W. CARDWELL VISITING HERE

Prominent Roseburg Man Says Railroad Will Be Built to Cooos Bay Soon.

W. W. Cardwell of Roseburg arrived yesterday via Myrtle Point to spend a week or so here looking after circuit matters and other business. It has been two or three years since he visited here before as since he quit the race horse game, there has been no particular inducement for him to come to this section. He is the same "Bill Cardwell" as in days of King Kohr, his noted race horse, however. "No I didn't come over the Myrtle Point road for there isn't any road" remarked Mr. Cardwell last night. "I came via Myrtle Point but road is a misnomer when applied to that route. It isn't a road, it's a wawl." "Of course the Roseburg-Cooos Bay road is going to be built. We have got to amend our charter to permit us to vote bonds for it but we are going to do it. And we feel sure that Cooos county will help us. It will be the greatest stroke of development for southern Oregon that has ever occurred. The railroad can and will be built soon." "The suggestion that a fine wagon road or thoroughfare be built along side the railroad is a good one. It will not cost much additional for the wagon road, built at the same time, and part of the money that they have been talking of raising to build a wagon road can be contributed towards the railroad." "I am also in with Mr. Perkins and Mr. Andrews on the oil drilling project. We have a \$35,000 drilling out fit and we are going to get oil if it is here." "Wants Ranch Here." Mr. Cardwell is looking for a large tract here which he wishes for a hog ranch. He is negotiating with Henry Sengstacken for the latter's 1800 acre farm on South Slough and may get it. He says that the shells that the dredge Seattle is pumping out of the Bay here could be sold at Roseburg for \$25 per ton as it is just the kind of fertilizer they need for their orchard lands there. Mr. Cardwell is sorely tempted to reenter the race horse game as he has a four-year old colt of King Kohr which he thinks will be a wonder. Mr. Cardwell received the highest vote of any of the Douglas county candidates for the nomination for the legislature last week. He reports that the Strawberry carnival which closed at Roseburg Saturday was a big success.

## MEXICAN PEACE MEDIATORS MAKE PROGRESS IN NEGOTIATIONS

### INDIANS ARE ON WARPATH

Genboat Ordered from Santa Rosalia to Yaqui River on French Appeal.

ON BOARD U. S. S. CALIFORNIA, Mazatlan, (By Wireless), May 25.—The gunboat Annapolis was ordered from Santa Rosalia to the Yaqui River today in response to an appeal from the French colony at Santa Rosalia for warship protection for the French and American residents of the valley from a reported uprising of the Yaqui Indians, who are reported to be on the warpath generally without any effort by the Federals to control them. There are 62 Americans in the Yaqui Valley. The Mexican Federals seem to have adopted an apathetic attitude toward the Indians and there are reports that discontent is rife among the Huertista troops. In asking for a warship the French colony expressed the fear that an uprising of the Huertistas against their officers would occur. Yesterday a 21-minute salute fired by American and Japanese warships at Mazatlan and by the Federal fortifications was misinterpreted by the besieging Constitutionalists as an attack on the city instead of a tribute to the late Dowager Empress of Japan. General Obregon's batteries promptly opened up a spirited fire on the city.

Representatives of Huerta and United States Said to Be Most Cordial Now.

### SLIGHT DIFFICULTIES ARE BEING OVERCOME

South American Mediator Says Prospects Are Bright for Adjustment of Trouble.

NIAGARA FALLS, May 25.—After a conference between the mediators and the Mexican representatives, it was announced that the progress of the mediation had reached a most satisfactory stage. The difficulties over the manner of introducing any question into the discussion were being overcome and this point will be included in the scope of the mediation program. This was stated on authority of one of the South American envoys. The diplomats pointed especially to the good feeling that has prevailed between the Mexican and American delegates which is constantly growing stronger.

### TAP LINE CASE DECIDED.

C., May 25.—The Supreme Court has annulled the Interstate Commerce Commission's order in the tap line cases and upheld the commerce court, which annulled the commission's order on the ground that it acted arbitrarily in holding that allowances could not be granted on the freight of interests owning both lumber and tap lines but could be granted on the freight of other interests shipping over the tap lines.

## ROOSEVELT TO TALK POLITICS

Colonel Will Meet Leaders of Progressive Party at National Capital.

OYSTER BAY, May 25.—The trip Colonel Roosevelt will take to Washington tomorrow took on a new significance today when it became known that he would hold an important conference with Progressive leaders. On his arrival in Washington he will go direct to Progressive headquarters, where he expects to see all the Progressives in Congress. It is considered probable that he will jump into the political fray at once as it has been suggested that by remaining silent he will be permitting the Republicans to steal a march on the Progressives by getting first into the field with a criticism of the Wilson policies. Plans Hard Campaign. He said a few days ago that he wanted to keep out of politics as much as possible until after his return from Spain, but recent events have caused him to reconsider. It is not impossible that before he sails for Europe at the end of the week that he will fire the opening gun in what is expected to be the hardest fight of his career. Another possible outcome of his Washington trip is a meeting between Roosevelt and Republican leaders. Reports that such a meeting might take place reached Oyster Bay today.

## LESS WATER ON BURNED AREAS

Wallace, Idaho, Suffers Severely from Effects of Forest Fire There in 1910.

WASHINGTON, D. C., May 25.—Residents of Wallace, Idaho, now claim that results of the disastrous forest fires in northern Idaho in 1910 are being made evident in the changed flow from a watershed then burned over, which furnishes the water supply for the city. This basin included an area of approximately two thousand acres and was formerly well timbered with trees from 50 to 200 years old. These were almost wholly destroyed by the fire of 1910. From this watershed the city gets its supply not only for domestic purposes, but also for the development of electricity for power and light, so that the maintenance of a considerable flow is essential to the city.

It is stated that before the fires the flow of the stream at its lowest stages was never below one thousand miners' inches, the unit of measurement which has been used. But since the fire, the records show that the minimum flow has fallen to about 250 miners' inches and it is now necessary for the company which furnishes water, light, and power to expend a considerable amount of money each year in developing power from steam and to use a considerable part of this power in pumping water. Records of the weather bureau at Wallace show that the precipitation for the three years since the fire has been about normal for the region. This seems to demonstrate to the townspeople that the unevenness in the flow must be due to the destruction of the forest cover of the watershed and not to any change in climate or precipitation. In view of the situation, the forest service has undertaken to reforest the denuded watershed.

## MINIMUM PAY FOR PREACHER

Presbyterians May Fix \$1000 Per Annum As Lowest Salary for Ministers.

New York Leader Says Party Has No Sympathy with Destructive Methods.

NEW YORK, May 25.—Morris Hillquit, Socialist, took the stand as a witness before the federal commission investigating industrial relations to answer statements made by President Gompers of the American Federation of Labor. ### ASQUITH TURNS FRISCO DOWN.

He has returned and was out at the shooting grounds today making small blue rocks out of large ones.
