JAMES J. HILL, in a talk before the National Foreign Trade convention in Washington yesterday, as reported by Associated Press in The Times last evening, gave utterance to some truths on the business situation that should be heeded by the country.

There is a limit to the burdens business will bear and when that limit is passed labor and capital go down together to disaster and distress. This condition may be avoided by a spirit of fair play.

"HOWDY" AND "FAREWELL." Life is sunshine through an' through When you're sayin' "howdy-do," Welcomin' friends of long ago, Meetin' folks it's good to know.

Life is darkened with regret As we lose the friends we've met. Time, the tyrant, we obey When he signals "On your way!"

Roses bloom and swiftly fade, Winter strips the autumn shade. All too fast the seasons fly, Every welcome means "good-by."

When a Coos Bay girl is engaged to a fellow she has an irresistible impulse to boss him around.

Coos Bay single men have con- sciences to tell them when they have done wrong but the married men have wives.

There Are Stores on Coos Bay so Good That They Could Use Twice as Much Advertising Space AND MAKE IT PAY!

THE BETTER THE STORE THE BETTER THE ADVERTISING PAYS. Your own observations in the store-world will confirm this truth. PUBLICITY is bad only for a bad proposition. It is just as surely good for a good one. What is a "good store"? One that really SERVES THE PUBLIC, protecting its patrons as to VALUES, not merely as to PRICES.

There are many stores in this city answering to that definition completely. In every city there are always some stores that do not.

An important phase of a GOOD STORE'S SERVICE TO ITS PATRONS is its newspaper advertising. This should be complete, frank, informing. It should tell the store news as fully as a good newspaper tells the news of the day.

Perhaps the best possible NEW POLICY for the GOOD stores of this city to adopt would be that of DOUBLING THE ADVERTISING SPACE THAT THEY USE—thus giving them "elbow room;" giving them bigger opportunities for telling their patrons, in detail, about every selling event, about every bargain offering; about every dollar's worth of new stocks. Of course, even HALF ENOUGH ADVERTISING pays the really good store; but ADEQUATE ADVERTISING would pay much better.

KILL FLIES NOW. THE time to kill flies is before they become flies. One fly killed now will prevent the growth of thousands later on. A fly is capable of depositing 150 eggs at one time and of producing five or six batches during its short life. Just what this means when extended to later generations may be guessed from the statement that "the progeny of a single pair of flies, assuming that all live, if pressed together at the end of the summer would occupy a space of over 14,000,000 cubic feet." Glory be, they all don't live! Too many do, however, so get busy now. Destroy both flies and breeding places, such as manure and refuse of all kinds.

NOTICE TO THE PUBLIC Marshfield High School will graduate a class of twenty this year from its literary department. About six of these are certain to continue their education next year. The rest are planning to work. Now the need may come in the regular channels of business for employing persons of their age and experience. If so this school will appreciate if consideration be given our graduates and employment thrown their way when possible if their qualifications suit. We have begun this year to file written estimates of all our graduates and will gladly furnish the same on request. Further,

The commercial department will have no graduates this year but we have some students who are qualified to take positions as stenographers and bookkeepers. Firms expecting to employ such help will confer a favor by getting our estimate before employing. We will gladly furnish the same for by so doing both of us are benefitted. P. A. Tiedens, Superintendent of Schools.
