## IF KIDNEYS AND BLADDER BOTHER

Take a Glass of Salts to Flush Out Your Kidneys and Neutralize Irritating Acids.

Kidney and Bladder weakness result from Uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and the urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

## Convenience and Safeguard

If you have ever stumbled on the dark basement steps, you can realize what a convenience it is to have an Electric Light Switch at the head of the stairs.

When planning your new home or the remodeling of your present home, don't forget the switch on the basement stairs, or the switch to light the second floor lights from the first floor.

Remember to include closet lights, porch lights, baseboard sockets for the flat irons and other appliances.

It's simpler and less expensive to plan these things before the actual work is started.
