Speaking of the Vera Cruz situation, the President reverently declared: "I pray God that the boys there will not have to fight any more." SHEEP THIEF IN CURRY.

Guy Johns Arrested for Stealing Mutton from White Ranch.

The Port Orford Tribune says: Guy Johns, who is living as a renter on the Ana Carey place near Corbin, had some experience last week suggestive of the "high cost of living" that he will probably remember for some time. Carl White was out on his father's sheep range, adjoining the Carey place, about dusk last Wednesday evening when he heard a shot and noticed a band of sheep running. Upon investigation he found where one of the number had been killed and next morning in company with a neighbor, he followed the track of the intruder until satisfied of his identity. A search warrant was sworn to and placed in the hands of Deputy Sheriff Dean, who found the mutton, which had been thrown out of a back window of Mr. John's house upon his approach, and covered up with an old coat. Johns was brought to Port Orford and tried before Justice Wright on Friday, when he confessed to the crime and threw himself upon the mercy of the court. He was sentenced to a fine of \$100 or fifty days in jail, but owing to the fact that a wife and six children are dependent upon him the sentence was suspended pending his good behavior and promise to settle up his business and leave the country by July 15th.

Miss Mary Blomfield, Daughter of Lady Blomfield, Causes Scene at Court

ALL LONDON AROUSED BY SENSATIONAL SCENE

Public Highly Inflamed Over Indignities to Rulers and Burning of Churches

(By Associated Press to Coos Bay Times.)

LONDON, June 5.—Miss Mary Blomfield, daughter of Lady Sarah Louisa Blomfield, widow of Sir Arthur Blomfield, was the woman who created a sensational scene at Buckingham Palace last night, when she threw herself on her knees before King George and Queen Mary. Miss Blomfield alone was concerned in the incident, although her sister, who also attended court, was requested to leave the Palace after the occurrence, despite the fact that she took no part. She left without protest. Officials of the palace are on the verge of nervous prostration as a result of last night's scene and the Lord Chamberlain's department has taken every precaution to circumvent any attempt to repeat the performance tonight when another function takes place at the palace. Persons in the immediate vicinity at the time say the scene lasted less than ten seconds and the woman had only time to ejaculate "Your Majesties, for God's sake," when she was seized and hustled out of the throne room. She added, "Do not use force," as she went out. King George was the coolest member in the company. It is understood no action will be taken against Miss Blomfield. Recent discourtesies shown by militants to the King and the burning down of many churches have inflamed public opinion to a remarkable degree.
