GAME FOR TOMORROW

Marshfield and North Bend to Play Again Tomorrow, Weather Permitting

Weather permitting, there will be a baseball game tomorrow afternoon between Marshfield and North Bend. With few exceptions, the lineup will be the same as last Sunday.

The Marks brothers played with the Tri-State League at North Yakima during the early part of the season and are said to have won a reputation for themselves in their respective positions.

The Elks are also planning a game for tomorrow forenoon. They have formed a first and second team and played their first game last Sunday morning.

The lineup of the Marshfield and North Bend teams follows: Marshfield: Horn, Krause, Kissam, Gaffney, Sater, Dinsmore, Murphy, Hyde, Kelly.

DECISION IS HELD UNFAIR

Jimmy Clabby Given Worst of Unpopular Judgment in Boxing Match

SYDNEY, N. S. W., June 6.—Jimmy Clabby, the Indiana middleweight, was given the worst of an unpopular decision here tonight in a twenty round boxing match with Jeff Smith, a Philadelphia fighter who has been appearing in Australia for several years.

VOTING TODAY ON GYMNASIUM

Automobiles Induce People to Take Interest in School Election—Close at 7

Voters have been assembling at the Central School Building since 2 o'clock to vote for or against the Marshfield school gymnasium bonds. Fifty-five had cast their vote at 3 o'clock, one hour after the polling place was opened.

DEFIANCE IS LAUNCHED

Third Yacht Cup Defender Is Ready for Trial Races

NEW YORK, June 6.—The Defiance, the third candidate for cup defense honors, was launched at City Island in Long Island Sound after having her spars remodeled.

Fight in Auto.—According to reports today, the main event of last night's boxing bouts in North Bend was staged in an auto after the scheduled bouts had finished.

Farmers' Union Meets.—Farmers' Union No. 66 held its regular meeting in the I. O. O. F. Hall this morning. Several matters pertaining to the work of the organization were discussed.

THREE FIGHTS IN NORTH BEND

Two Fairly Clever Boxing Bouts and One is Poor Exhibit—One Pug Missing

Three fast six-round bouts were staged last night in Eckhoff Hall, North Bend, under the auspices of the North Bend Boxing School, resulting in two draws and one rendered decision.

Owing to the failure of Johnny Spillane, of California, to put in an appearance, the principal event of the evening was somewhat of a flizzle.

The first bout was between Warren Weatherby, of Bandon, and Harry Lockwood, of North Bend. Every round was full of ginger, the fighters working in close and indulging in frequent clinches and rapid exchanges of telling blows.

The second bout, between Billy Hancock, of North Bend, and Frank Holbrook, of Bandon, was the star event on the program.

The three last rounds were more gruelling. North Bend rooters edged Hancock into a couple of tight places, out of which he cleverly extricated himself.

Not a single clinch occurred during the entire six rounds, fast foot work and rapid repartee with the gloves resulting in a scientific exhibit.

Mason spent a goodly portion of his time hiding behind his gloves, peering through to see what Sax was doing or about to do.

By stretching a point or two, or several, in favor of Mason, the referee called the bout a draw, which suited everybody—with the possible exception of Sax.

DANCE EAGLE'S HALL TONIGHT. KEYSER'S ORCHESTRA. RID DANCE JUNE 10TH. See Page 2, Times Monday

Justice C. L. Pennock is judge of the election. Officer Doane and J. W. Watts are first and second clerks respectively.

Seeing the Difference BETWEEN THE DE LAVAL AND OTHER Cream Separators. It doesn't take an expert knowledge of mechanics or a long working test to tell the difference between the De Laval and other cream separators. On the contrary, with a 1914 De Laval machine placed beside any other separator the difference is apparent at first sight to the man who never saw a separator before. If he will then take five minutes to compare the separating bowl construction; the size, material and finish of the working parts, particularly those subject to wear and requiring to be occasionally taken apart and put together; the manner of oiling, and everything which enters into the design and construction of a separator as a simple durable machine, he will still further SEE THE DIFFERENCE. If he will go a step farther and turn the cranks of the two machines side by side for half an hour, particularly running milk or water through the bowl, he will see still more difference. The comparatively few buyers of other separators are those who merely read printed matter claims or listen to the argument of some dealer working for a commission, and who do not think it worth while to SEE THE DIFFERENCE for themselves. The wise buyer of a cream separator today does see this difference when buying his FIRST separator, while the unwise or careless one usually finds it worth while to do so when he comes to buy a SECOND separator a year or two later.
