Announce That This Country Will Simply Insist on New Reign in Place of Huerta

NO NAMES AGREED UPON FOR PLACES

Rebel Forces Refuse to Consider Armistice—Mediators Insist Upon It.

NIAGARA FALLS, June 9.—Mexico will not be asked by the United States to pay a war indemnity. The Huerta government learned through American delegates that the Wilson government will be content to have set up in Mexico a stable government to succeed the Huerta rule.

Within a day or two the Mexican and American plan will have been dove-tailed and the full conference of all parties will be called. The final approval is not expected immediately, as the mediators will ask the Americans to ascertain the attitude of the Constitutionalists. The mediators are insistent on their original terms; a declaration of an armistice and broadening discussions from the international to the internal question.

The Carranza incident is not entirely closed, but it has passed the danger stage and cannot disrupt the proceedings. What is the exact nature of Carranza's attitude toward the recent communication from the mediators is not disclosed. It was learned that a partial reply to the mediators' proposals was received by confidential agent Rafael Cubaran, but not all the information desired has been received. Further information from Carranza is expected today.

The mediators submitted to the Mexican delegates the counter proposition to the United States for the pacification of Mexico, and the American plan, which is, with a few modifications, the same as that which the mediators agreed upon and which Huerta approved. It provides for a method of transferring the executive power in Mexico City from the present regime to a new provisional government which shall in a few months conduct elections for President, vice president and Congress. Should there be any suggestions from the Constitutionalists, the United States will endeavor to arrive at a compromise with them.

TO SAFEGUARD CROWDS HERE. Fourth of July Committee Given Control of Streets and Concessions. The Marshfield City Council practically turned over the streets of the city to the Fourth of July Committee for July 3 and 4. The action followed considerable discussion and the street committee of the Council was requested to act with the Fourth of July committee on all questions.

F. G. Horton and Dr. Straw brought the matter up. Mr. Horton explained that the funds derived from street concessions would be needed to defray the expense of the big celebration. Mr. Horton explained that no concessions or booths would be allowed on Front street or Central avenue but that they would be placed on the side streets and these not blocked up.

To eliminate danger and confusion Mr. Horton said that the auto traffic would be kept off Front street from Alder south and off the side streets between Front and Broadway, the streets being roped off.

The question about delivery rigs, etc., was raised and it was finally agreed that watchmen should be stationed at the intersections to permit business conveyances to pass.

The motor car will operate on Front street, but with no autos blocking the street, it was said that there would be little danger from it.

Mr. Horton said that a free show would be provided at the Royal.

The band concert will be on the old Tabernacle site and the fireworks will be sent up from the east side of the channel.

Councilman Coppel said that no concessions should be granted for streets except where the tenants or property owners were willing. The councilmen also objected against fairies being allowed to ply their operations.
