## Celebrate the Fourth At Marshfield

The entire business section of the city will be turned into a playground for her guests. Front street and Central avenue will be reserved for visitors and pedestrians almost exclusively. The city already owns a liberal amount of decorative material, but this year \$500 more has been allowed for a still more liberal supply. With flags and bunting, and evergreen, the city will present a gala appearance surpassing anything ever attempted. For the evening lights and artistic effects will be secured by special electric lighting. On the night of the Fourth a grand display of fireworks will be set off across the bay from the city. The effect works will be displayed in most satisfactory. They are then seen at the best advantage. The "across-the-water" effect adds greatly to the pleasure derived from them.
