that there is a vast difference (In Quality.) It goes farther, works better, lasts longer and is better for the same price that is asked by other dealers. We claim that it will cover 25 per cent more surface than any paint on the market. Let us show you why.

Every householder in this city should be well informed on paint questions—WHY? Because there is hardly one article in your house that is not finished with a paint, varnish, enamel or stain.

The kind of paint
Pro- condition of the surface
The weather conditions
The cost per years of wear

are important features to know before the time comes to do the work. Get our booklets and pamphlets and "read up" on these subjects. You will agree with us—that "High Standard" Paint Products are the best for every need—after a trial you will use no other. "High Standard" Paint Products are made to "GIVE BEST RESULTS."
