SAYS LAW IS VIOLATED HERE

DEPUTY LABOR COMMISSIONER STATES HE MAY PROSECUTE MARSHFIELD OFFENDERS—48 HOURS' TIME GIVEN.

Marshfield, Or., July 14, 1914. Editor Times:

I would consider it a great favor to me, and I believe it would be of some interest to your readers if you would publish the following statement in your valuable paper:

The Industrial Welfare Commission of Oregon on August 5th, 1913, made the following ruling:

1. No girl under the age of 18 years shall be employed in any manufacturing or mercantile establishment, millinery, dressmaking, or hair dressing shop, laundry, hotel or restaurant, telephone or telegraph establishment, or office, in the State of Oregon, more than eight hours and twenty minutes during any one day, or more than fifty hours in any one week.

2. No girl under the age of 18 shall be employed in any one of the above named occupations after the hour of 6:00 o'clock p. m.

3. A minimum wage of \$1.00 per day shall be established for girls between the ages of 16 and 18 years, working in the above mentioned occupations.

And again on December 9th, 1913, the Industrial Welfare Commission made the following ruling:

1. No person, firm or corporation, shall employ any experienced adult woman in any industry in the state of Oregon, paid by time rate of payment, at a weekly wage rate of less than \$8.25 per week, any lesser amount being hereby declared inadequate to the necessary cost of living to such woman workers and maintain them in health.

2. Nor shall any such person, firm or corporation employ women in any industry in the State of Oregon for more than 54 hours a week.

3. Nor shall any such person, firm or corporation pay inexperienced adult women workers employed by the time rate of payment, at a rate of wages less than \$6.00 per week. And the maximum length of time such workers may be considered inexperienced in any industry shall not exceed one year.

The above are the rulings made by the Commission, which makes it a state law, and from investigations that I have made while in your city, I know that several of the above mentioned industries are violating the law. I also know that some doctors are not complying with the law in regard to their office help, and this is notice to all parties concerned that unless the law is obeyed, both as to the number of hours of employment, and as to the rate of pay per week, after this notice appears, I will proceed to prosecute them.

Yours respectfully, C. H. GRAM, Deputy Labor Commissioner.

CANADIAN CITIES ARE LAYING BITULITHIC

Revelstoke and South Vancouver, British Columbia, are both laying bitulithic. Revelstoke 25,000 square yards and Vancouver 12,000 square yards.

Canadian cities, though their growth has been most rapid, have shown marked conservatism and care in the selection of their public service utilities and the choosing of bitulithic by these cities may be taken as an indication that bitulithic proved its worth over all competing paving materials.

M. G. SPERRY IS IN AGAIN

Man Who Had Joyride to Hotel De Carter June 5 Can Stay 3 Days This Time.

A fine of \$5 and two and one-half days in jail was the sentence imposed on M. G. Sperry, engineer at the Smith-Powers mine at Henryville, Myrtle Point route, when Sperry was called yesterday afternoon to answer to a charge of being on the streets in a drunken condition.

Sperry was found on the sidewalk in front of the Record office by Marshal Carter at noon yesterday. He was so drunk that Marshal Carter could not handle him alone and he called Officer Richardson. The officers then removed him to the Hotel De Carter, where he was allowed to sleep for a while.

At 4 o'clock Sperry was brought before Recorder Butler and while he was still feeling a little bit dizzy he tried to explain matters. Sperry declared that Marshal Carter makes it a point to arrest him every time he comes to town, so he decided to get drunk and take the consequences.

"Ain't you ashamed of me, Mr. Butler?" asked Sperry. "I am really ashamed of myself. This is the third time I've been up here, and I owe you \$10 now, that is the worst of it."

City Attorney Goss questioned Sperry as to why he persisted in getting drunk every time he came to town. Sperry said that he did not intend to get drunk but that every time he took a drink it went to his head.

"There is no use going into details," said Sperry. "Your newspaper fraternity will print the whole thing anyway."

City Attorney Goss reprimanded Sperry. He said that in view of his repeated offenses he would recommend that the sentence be more severe.

"It is not that the city cares anything about your \$5," said Goss. "But we do want to puncture your hide deep enough so that you will be reminded of the sentence that may be imposed in the event you are brought up here again."

Sperry arrived in town Saturday evening and managed to keep sober until noon yesterday. He intended to leave on the morning train for Henryville, but arrived at the station three minutes too late.

Sperry is the fellow who was given a joy ride by Officers Richardson and Carter on June 5, when he was so far gone that he could not stand on his feet. At that time Marshal Carter found Sperry in the doorway of the Central Hotel, and when he found that he could not handle Sperry he called Richardson by phone and told him to bring the wheelbarrow.

Pedestrians were amused when the officers placed Sperry in the barrow and started in the direction of the hotel. Sperry will have a hearing tomorrow morning before the Recorder and it is likely that his fine will be more than customary, as this is his third offense.

MYRTLE POINT ROUTE OPPOSED

North Bend Chamber of Commerce Would Have Mail Brought by Gardiner.

According to A. G. Raab, the North Bend Chamber of Commerce does not favor the plan to have the United States mail continue by the Myrtle Point route. He says that the Chamber of Commerce and other organizations in North Bend prefer to have the mail carried by rail to Gardiner and from there down the coast by the Gorst & King auto service.

The North Bend Chamber holds that the railroad will be completed as far as tidewater this fall and that the mail could be handled by rail and auto, via Gardiner, thereby facilitating its delivery. In view of that situation the Chamber will not circulate petitions endorsing the Myrtle Point route.

At the last meeting of the Marshfield Chamber of Commerce, that body decided to endorse the Myrtle Point route and went on record as being opposed to the steamboat route.

It is only a matter of 18 months before the mail will be handled by rail exclusively. But in the meantime the Myrtle Point route is the most desirable, according to Assistant Postmaster Sumner.

Salem Relief Fund.

Secretary Motley, of the Marshfield Chamber of Commerce, is in receipt of a letter from the Salem (Maine) Fire Relief Committee, asking for money for the relief of the sufferers. The letter states that the fire of Thursday, June 25, rendered homeless and destitute between 15,000 and 20,000 people, mostly wage-earners, representing between 3000 and 4000 families.

The relief committee is making a general appeal for money to various organizations throughout the country. Action will be taken on the matter by the Chamber of Commerce at its next regular meeting, which will be held Friday night.

Lord, formerly of Cincinnati, now of Oregon, G. W. Muckley, of Kansas City, and W. R. Warren, of Indianapolis, are among the leading speakers. The statistical report shows an increase of about twenty per cent in membership during the year. The convention goes on record favoring state and national prohibition.
