

# ALL OVER OREGON

**ALBANY.**—Laurel Lodge No. 7, Knights of Pythias, installed its officers recently, the ceremonies taking place in the new \$50,000 lodge building for the first time.

**EUGENE.**—A duck story is afloat to the effect that an examination of the gizzards of some of the birds slaughtered to make an Eugenic holiday were found to contain gold and this led to the discovery of a placer mine on a farm thirteen miles west of Eugene.

**WHEELER.**—The business men of this city have taken steps to have a market day each week.

**COQUILLE.**—Under the mother's pension law the Coos County Court dispenses aid to fifty families. There have been seventy-five applicants.

**PORT ORFORD.**—Preparations for the Agate Carnival on August 6, 7 and 8 are moving along nicely and the Tribune says the celebration will be a banner one.

**ASTORIA.**—Dick Grant of Portland dived twenty feet into the river one day last week. The dive was a good one and would have been all right only at that particular point the bottom of the river was not far enough from the surface of the water, being only three feet away, and Dick ran his head in the mud so far he was even unable to swear. He will be all right in a few days, but the next time he dives he will take deep sea soundings.

**ALBANY.**—A. D. Helms, a prominent fruitgrower of Jackson County, is in Lebanon last Saturday and closed a deal for the old Lebanon planing mill property, trading a 50-acre place in Looking Glass Valley near Roseburg, to A. W. Dockstead, of Albany for the property. Helms is thinking of converting the building into a cannery.

**MEDFORD.**—Last Friday was the hottest day ever recorded by the local weather office and perhaps the hottest ever known in the valley. At 3:30 in the afternoon the thermometer recorded 105.4 degrees, over three degrees hotter than the day before and two degrees hotter than any official record ever kept in the valley.

**SALEM.**—Willamette University workers have sent out 2500 University catalogues to students and prospective students in all parts of Oregon, Idaho and Eastern Washington. This is the largest number of catalogues ever sent out by the University.

**SALEM.**—George Rosenblum, a 20-year-old youth, who states that he hails from New York City, arrived in Salem last night. He alleges that he left New York City on February 9, 1909, and that he has been walking from state to state ever since that time.

**EUGENE.**—That there will be a large number of bids on the work of erecting Eugene's new high school building is evident from the fact that six sets of plans have been sent to Portland, one to Roseburg and several Eugene contractors each has a copy of them.

**INDEPENDENCE.**—A fire yesterday in the old building on Second and C streets caused a loss of about \$2500. The cause of the fire is not known. It started in the back of the cigar factory of A. W. Kibler & Co.

**EUGENE.**—That there is a spring of ice-cold water rising abruptly from Lava near Clear Lake and with a flow sufficient to supply a city of several million inhabitants with the

**DOUBLE TRAGEDY IN LOS ANGELES**  
(See Associated Press in Coos Bay Times)  
LOS ANGELES, July 21.—Mrs. Edna Fikes, a widow, was shot dead at her home here today by Charles Haag, a contractor. Haag then shot and killed himself. Mrs. Fikes had refused to marry him. Her six-year-old son witnessed the double tragedy.

purest of drinking water, is the statement of M. J. Duryea, manager of the promotion department of the Eugene Commercial Club, who returned from a ten days' trip to the summit of the Cascade Mountains last week.

**PENDLETON.**—Pendleton will get a swimming pool at the Round-Up Park if plans that have been formulated by the Commercial Club committee can be carried out. The plan as outlined calls for an expenditure of \$6000 and it is expected to raise this money partly from the Round-Up Association, partly from the city and partly by public subscription.

### NATURE MAN IN OREGON.

**Will Enter Southern Oregon Woods for Experiment.**

**GRANTS PASS, Or., July 21.**—Joseph Knowles, nature man and artist, accompanied by his party, arrived in the city ready to take his plunge into the Siskiyou wilderness, where he will combat with Dame Nature for the next 60 days in an attempt to prove that he can live as primitive man lived. Naked and alone, he will leave civilization behind, and without clothing, without arms or aid of any kind, he will call upon the forests and the streams to supply both sustenance and raiment.

This party, piloted by C. L. Hobart, representing the Grants Pass Commercial Club, left in two automobiles for Camp Three Creeks, the camp established by the Caves Camp Company, just above Holland, on Sucker Creek, and will make a preliminary investigation of the country there. It is now considered probable that Knowles will make the start on his trip into the wilds either from that camp or from the caves themselves, and that he will operate in the wilderness to the west and the south, crossing the line into California, probably in the Preston Peak district. After determining the country which he is to enter, the party will return to this city, and later in the week the official start will be made. How long Knowles will remain in the wilds has not yet been decided, depending largely upon the length of time necessary to demonstrate the success of his claim. Daily reports will come from him, as Prof. Waterman and others of the party will remain in the vicinity, though they will offer no assistance, either by word of advice or otherwise. The daily reports of Knowles will be given his associates upon bark or by other methods that employ none of the aids of civilization.

Last summer Knowles entered the woods of Maine as naked as the day he was born to prove that he could live without aid for 60 days upon such as nature had to offer. He entered the Maine woods on August 4 and emerged on October 4. His story of having lived without assistance was doubted by some, while others said that it was only his intimate knowledge of the Maine woods life that made the accomplishment possible. The present plunge into the unknown wilds of Southern Oregon and Northern California is made by Knowles to prove that he can do the thing again under conditions unknown to him.

### NEWS OF SIUSLAW.

Events There as Told by the Florence Pilot.

Traffic over the stage line to the end of the railroad track has been pretty good this week, some 40 passengers having come in on the stage and 24 going out the same way, while over 100 have made the trip by walking over the W. P. R. right-of-way and over the mountain.

The steamer Roamer made its regular weekly trip to Mapleton Friday, with merchandise for the Mapleton merchants, bringing freight from San Francisco and Coos Bay.

The people of Mapleton are very enthusiastic over the daily reports that come of the progress made each day in track-laying by the W. P. R. crew, the end of the line being over a mile below Meadow at present, and will reach Beacher Rock within four days.

C. H. Jillett of Coos Bay was registered at the Bay View Wednesday.

### OUTING PARTY.

Sunday a jolly crowd of North Bend young men enjoyed an outing at Silver Falls. All of them make their home at Miss Lucy Williams' boarding house in North Bend and they have named it "Miss Williams' Finishing School for Young Men." The day was fine and all enjoyed it immensely. This is the way they gave in their names: Masters Eddie Bryson, Johnny Olson, Sidney Street, Russle Flukinger, Wardie McGill, Harry Wray, Les Hyde and Ralphie Rounds.

## A Convenience and Safeguard

If you have ever stumbled on the dark basement steps, you can realize what a convenience it is to have an Electric Light Switch at the head of the stairs.

When planning your new home or the remodeling of your present home, don't forget the switch on the basement stairs, or the switch to light the second floor lights from the first floor.

Remember to include closet lights, porch lights, baseboard sockets for the flat irons and other appliances.

It's simpler and less expensive to plan these things before the actual work is started.

### IF KIDNEYS AND BLADDER BOTHER

Take a Glass of Salts to Flush Out Your Kidneys and Neutralize Irritating Acids.

Kidney and Bladder weakness result from Uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and the urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.
