

PERKIN'S VIEW OF RAILROAD

Announces at Roseburg That Coos County Will Contribute Large Amount.

ROSEBURG, Or., July 22.—That the people of Coos county are enthused over the prospects of a railroad from Roseburg to the coast and are only awaiting definite action on the part of the citizens of this locality, was the statement of J. W. Perkins, who returned from Marshfield.

"I talked with many of the leading citizens of Coos county during my visit there," said Mr. Perkins, "and I was surprised to find the sentiment almost unanimously in favor of the proposed road. The people there fully realize the benefits to be derived from an east and west line and have promised to do everything possible to bring about a materialization of the project. At Marshfield the people are especially anxious to have the road constructed in accordance with the plans outlined by the local railroad committee. And to show their good faith I have no doubt but what they will issue bonds in the sum of at least \$300,000 as soon as similar bonds are authorized by the residents of this locality. With \$600,000 in cash to turn over to some legitimate railroad builder, I have little doubt but what the road will be constructed at an early date. Coquille City is also evincing considerable interest in the proposed road and the people there may issue bonds in a nominal sum. I feel that I am well repaid for my trip, and I am almost certain that our present plans will materialize."

FARMERS MEET ON COOS RIVER

Dairymen's Convention at Eugene's Grove Attended by 35 With Families.

About thirty-five farmers and their families attended the dairymen's convention at Eugene's Grove on South Coos River yesterday. Lectures dealing with the raising of the standard of cows and dairy products were delivered by Professor Graves, head of the state dairy department of the Oregon Agricultural College, and J. L. Smith, county agriculturist.

Professor Graves declared that the cows of this county are just as good as the cows of Tillamook county, which have the reputation of being the best in the state. He said that Coos county has five cow raising associations, which is more than in any other county in the United States, with the exception of Oniada county, New York.

In the afternoon the farmers went to the farm owned by James Landrith, where they saw some fine specimens of Holstein cows. Five of the cows were judged on points by experts and the analysis showed that they rank as high as any cows in the state.

Smith told of the importance of gaining a reputation for Coos county butter and cheese. He urged the co-operation of all the farmers to that end.

Smith is planning to hold similar conventions in other counties in the southwestern part of Oregon.

LOGGIE PLANS TO BUILD NOW

North Bend Man Has Plans Prepared for a \$45,000 Apartment House.

Peter Loggie of North Bend was here last evening and stated that he was having plans completed for the erection of a four-story apartment house on his corner on Sherman avenue, near the site of "The Simpson" Hotel there. The building is to be four stories high and of concrete, faced with brick. He estimates that it will cost over \$45,000.

He plans to put in an elevator and make it one of the most modern apartment houses. Nothing will be spared in completing it. Mr. Loggie expects to go ahead with the structure and have it completed about the same time that the new Simpson Hotel is finished.

Mr. Loggie said that about \$60,000 of the funds needed for the new hotel had been subscribed. L. J. Simpson subscribed \$10,000, Chas. Thom, \$10,000 and Mr. and Mrs. Hammel another \$10,000. The other subscriptions are in smaller amounts.

The site for the fine depot which the Southern Pacific will build is just two blocks east of the corner where Mr. Loggie's block and the hotel will be built. It is also a little south.

NORTH BEND CITY COUNCIL

Absence of Councilmen Causes Suspension of Work—Petition Is Circulated.

Councilman Hollister, City Recorder Maybee and City Attorney Derbyshire were the only officials of North Bend who reported for the regular meeting of the City Council last night, and as that number did not constitute a quorum the meeting was adjourned. Councilman Falkenstein is nursing an injured foot. Peter Loggie and E. B. Curtis did not account for their absence.

A large number of citizens gathered in the Council rooms expecting to hear some heated arguments relative to street improvements. It is understood that a petition has been circulated opposing the granting of any bids to the Warren Construction Company. The petitioners claim that that company is being favored by the Councilmen. Those who signed the petition favor paving with a five-inch concrete base and asphalt top, in preference to bitulith.

L. E. Millidge, proprietor of The Fountain, on Sherman avenue, intended to present a matter of some moment to the Council last night. At the next meeting he will point out the danger of carelessly throwing cigars and cigarettes on the plank sidewalks. He says that four small fires have started in front of his place within the last few days. Two of the fires occurred on the same day, he says.

BASEBALL LAST WEEK.

(By Associated Press to Coast Bay Times.)

NEW YORK, July 22.—Neither of the major league baseball races figured appreciably during last week. On the contrary, the beginning of the new playing period found the situation in each circuit less tense and with fewer probable chances of notable changes in the immediate future than seemed the case a week ago.

If New York in the National and Philadelphia in the American League are not to repeat their pennant winning performances, the clubs behind them will have to show more consistent winning power than any of them displayed last week.

In the Ban Johnson circuit, the Athletics gained a full game on Detroit, the next club in ranking, the tigers being three and one-half games behind the leaders. Washington took a far worse tumble, dropping back to a point five games from the front.

It remained, however, for Chicago to come the worst cropper. The White Sox won only two of seven games played and are more than six games behind the pace makers. Thus it will be seen that the first six clubs are not nearly so closely bunched as they were a week ago.

Brooklyn's spurt and its resultant advance to the first division was the feature of the race in the Federal League.

Chicago maintained its leadership, substantial differences in percentage existing when the Tinker men wound up its series with Indianapolis.

New officers have been elected as follows: C. R. Moore, president; W. D. Button, vice-president; M. J. McKenna, secretary-treasurer, and D. C. Haworth, manager.—Bandon Recorder.

PORT ORFORD CARNIVAL.

A. J. Marsh of Elk River was in Bandon and stated that the big Agate Carnival at Port Orford this year would be held on August 6, 7 and 8, and instead of being held up town, as heretofore, it will be held on Agate Beach. A large dancing pavilion will be erected and a tent 60x50 has been secured for covering so that dancing will go on, rain or shine. Last year the rain drove the dancers from the pavilion. The display of agates will be greater than ever before and more and better amusements have been arranged.—Bandon Recorder.

A finger on his left hand was also hurt.

NELSON IS SOUGHT.

Roseburg Man Thought to Have Come to Marshfield.

The Roseburg Review says: Although the officers have made every effort to locate "Slim" Nelson, formerly employed at the Grand Grill, their efforts have failed. Nelson is wanted here on a charge of non-support, preferred by his wife. Nelson left here a few weeks ago and it was generally supposed that he went to Marshfield. When the warrant for his arrest was issued, Sheriff Geo. Quine conferred with the officers of the coast city and was notified that Nelson was not there, neither had he been on the coast. Nelson has a wife and baby, who are at present living at the home of D. P. Fisher. The officers will continue their search, but have little hope of apprehending the much wanted man.

LARGE AUDIENCE IS REACHED BY DAILY COOS BAY TIMES

Number of Readers of The Daily Times More Than Five Times as Great as the Combined Seating Capacity of All Theatres on Coos Bay.

Many merchants regard the readers they reach through a daily paper as an audience to which they appeal with the most interesting facts they have at command regarding their merchandise and service.

Dealers who advertise in *The Daily Times* reach by far the largest audience it is possible to influence in Coos County.

For the first five months of 1914 *The Daily Times* had an average of more than 1900 subscribers, or approximately 10,000 readers. This audience of newspaper readers is more than five times as great as the combined seating capacity of all the theatres on Coos Bay. It is an audience whose applause and approval are well worth gaining, because it is composed entirely of the thrifty, permanent, earning element of the population.
