TEAM WORK IN BIG LEAGUES

INTERESTING FACTS CONCERNING FIRST TWO MONTHS PLAY—WORK ON DIAMOND—COMPARISON OF TEAMS.

(By Associated Press to Coos Bay Times.)

NEW YORK, July 23.—Interesting insight relative to the work of the big league baseball clubs is furnished by the figures compiled for the first half of the present pennant season. The data, while not official, is collected from the daily box scores and for the purpose of comparison is sufficient to show the strength and weakness of the sixteen clubs composing the National and American league circuits. Eliminating the games won and lost, as shown in the daily standing of the leagues, the total number of runs, hits, errors and left on bases are indicated for the first three months of the season and the resultant averages give a clear idea of the reason for the respective standing of the teams.

In the National League the New York Giants have scored 320 runs in 79 games, the average of hits being a trifle under two per run, while the error column shows a percentage of about 1 3/4 per game. With the exception of Cincinnati, the Giants have had fewer players left on base than any other club in the senior organization. The Chicago club, playing eight more games than New York, has scored but one more run, eight hits less and made fifty more errors, in addition to having almost 100 more players left stranded on the bases. The St. Louis Cardinals' figures indicate that while winning close to 50 per cent of their games they failed to score within fifty runs of the leaders, although credited with an equal number of hits. Next to Pittsburgh and Boston the club is charged with the least errors in the league ranks, while but two other teams have fewer base runners left. Cincinnati scored runs at the rate of one for every 1.93 hits in addition to averaging but 1.92 errors per game. In men left on bases the club has the best record in the league, the figures being 428 in 76 games.

In the second division Philadelphia scored 312 runs and 612 hits in 76 games, made 161 errors and had 479 players stranded. Brooklyn in an equal number of games made 625 hits, 284 runs, 123 errors and 462 players got on the paths to be left there. The Pittsburgh record for 73 games is 237 runs, 553 hits, 104 errors and 491 base runners left, while Boston in an equal number of contests made 263 runs, 591 hits, 106 errors and had 503 players left between first base and the home plate.
