Claim That Curry County Stockholders Are Burning Large Areas to Get Grass.

That a number of forest fires that have broken out in Curry county have have broken out in Curry county have been deliberately set by some of the residents is the belief expressed to L. F. Denning and others by some of the forest rangers patrolling that section. It is stated that a number of ranchers there are anxious to increase their pasturage area. The brush is growing so rapidly that The the range area through the big timber holdings and the government re-serve is rapidly being depleted. When a fire sweeps a district it af-

fords good pasturage later. While they were in camp. Mr. Den-ning and his party saw several fires break out. They broke in the after-noon when the wind was at its worst. Mr. Denning says that the forest rangers assured him that the fires were not set by campers.

There was only one had fire raging in that section yesterday and that was in the Smith company's holdings east of Langlois. A terrific fire was sweeping that section. The rapidity with which the fire

wardens circumvent the forest fires is a wonder, Mr. Denning says.
