

L. M'DONALD DEAD IN IDAHO

Local Man Missing After Canoe Trip on d'Orville Lake, Near Sand Point.

A letter has been received here from F. P. Llewellyn, at Sand Point, Idaho, telling of the possible drowning of Lester McDonald, recently employed as a driver on the Foote and Gorat & King auto lines. The letter was dated August 6th and relates the disappearance of Mr. McDonald, five days previously.

Few details of the affair were given. Mr. McDonald left about the time mentioned for a canoe trip, and since then nothing has been heard from him. His coat, containing the addresses of friends and relatives in Marshfield, was found, and through these the information was sent here. Several bodies have lately been found in d'Orville Lake, in the northern part of the state, on the shores of which Sand Point is located, but none has been identified as the body of Mr. McDonald, but there is a question in the minds of his friends that he was drowned at that time. His personal effects remain unclaimed in his room at Sand Point.

Mr. McDonald left Marshfield about three months ago and went from here to Washington and from that state to Idaho. He was married about seven months ago to Miss Lydia Holm, daughter of Mr. and Mrs. John Holm, of Coos River, and a sister of Mrs. Ross Smith. Mrs. McDonald still resides here and is employed at the Chandler Hotel cigar stand. The couple has been separated for several months.

MORRISON TRIAL AGAIN DELAYED

City Official Begins Campaign Against Houses of Ill-Fame Reported in City.

The trial of Ruby Morrison, one of the first prosecutions of the city against persons complained of for conducting houses of ill fame, will be held before Recorder Butler this evening at 7 o'clock. The trial was postponed from yesterday morning until last evening, but owing to the inability to secure jurors, it was again postponed until this evening. Attorney C. I. Reigard is conducting the case for the defense and Assistant City Attorney Kendall is prosecuting it.

The jury was sworn in last night before postponement, and the case will be completed this evening. The jurors are George Rotner, F. K. Gettins, F. E. Wilson, M. D. Mulloy, R. H. Corey and Otto Schetter.

The complaint, sworn to by Chief of Police Carter, accuses the defendant of running a bawdy house in the James Conroy building on North Front street.

ITALIAN INJURED.

Workman on Railroad Hit by Falling Rock.

Toney Titani, an Italian working on the railroad at tunnel 7, was struck by a large rock and his leg was badly crushed yesterday. He was brought in on the North Star this morning and taken to Mercy Hospital at North Bend. It is not thought that he will lose his limb. He has no family.

EUGENE MEN MAKE INQUIRY

Asks if Lot Would Be Donated for Their Plant in Marshfield.

A communication has been received by the Marshfield Chamber of Commerce from the Valley Heating & Plumbing Company of Eugene, relative to the removal of their plant from that city to Marshfield. The manager of the company, Mr. C. E. Sweeney, was recently in Marshfield on business connected with the company and a tour of inspection of this district as a possible field for the manufacturing end of the works. The company engages in the manufacture and sale of metal and asbestos roofing, sheet metal and cement. The do not ask for stock subscription or the advance of money to build the enterprise, stating that the company is fully organized and doing a running business with a monthly payroll of from \$1000 to \$15000, but they do ask that the Chamber of Commerce provide a lot and deed it to the company, to be located near the center of the city.

Owing to the fact that the company does a retail business and its establishment here would mean added competition to local dealers, who keep up the Chamber of Commerce, the organization feels it would be hardly fair to advance means for aiding the company, but would be glad to have the company locate on the Bay, and were it not for the fact that they would come in competition with present industries, the Chamber of Commerce could render assistance.

RECEIVES PRAISE.

Secretary J. W. Motley of the Marshfield Chamber of Commerce, has received the following self-explanatory letter from the National Rivers and Harbors Congress, relative to the recent visit of Capt. Davenny to Coos Bay:

"Captain Davenny has written me that the Chamber of Commerce of Marshfield not only cooperated in securing a large attendance of your business men at the meeting which he addressed, but that many courtesies were shown him personally, and that the Chamber paid his bill at the hotel.

"This action is very highly appreciated and I beg that you will convey to the officers and members of the Marshfield Chamber of Commerce the cordial thanks of Senator Ransdell and myself for their courtesy and co-operation.

"Unless Marshfield is different from most communities, the secretary usually does the most of the work, so you are personally entitled to a special word of appreciation, which I am very glad to give.

"Very truly yours,
S. A. THOMPSON,
Secretary."

CAN GIVE INFORMATION.

The Marshfield Chamber of Commerce has received advice from the Chamber of Commerce of the United States, that the latter body is now prepared to furnish immediate information relative to what the belligerent nations of Europe will consider as contraband goods, or what can be shipped to or from those countries.

PRACTICAL AID FOR INDUSTRIES

Chamber of Commerce Adopts Plan to Boost Local Enterprises.

A plan, for which Dr. E. Mings is largely responsible, is being worked out by the Marshfield Chamber of Commerce, whereby local enterprises will be brought to the attention of local consumers. The work is being developed systematically, and month to month efforts will be concentrated on one particular industry. This month the product of the Coos Bay Soap company is receiving the attention of the committee in charge, and next month either the broom, cigar or bed and mattress business will be boosted. This is the first work of the kind, and detail of the plan will be developed as the work progresses. One of the practical features of the plan is the distribution of printed circulars through various avenues, preferably by being wrapped with customers' orders in bills of goods sent out by merchants in the city. The merchants have adopted the plan and are co-operating in every way to forward the success of the work.

The circular this month reads as follows:

Dear Madam or Sir:
Patronize Home Industry. It helps your business. The Coos Bay Soap Company uses boxes made from Coos county lumber, tallow from Coos county beehives, wrappers printed by Coos county printers, and makes a good quality of domestic and laundry soap and sells it for a less price than the imported article of the same grade.

Ask your dealer for it—"Coos Bay White."

Marshfield Chamber of Commerce, by Committee on Manufactories and Location of Enterprises.

Dr. E. Mings, Chairman; C. R. Peck, W. S. Chandler.

The initial efforts of the committee will be confined for a while strictly to the local field, but later will be developed to reach into all the South-western Oregon counties.

PUBLICITY ISSUE.

San Francisco Chamber of Commerce Edits Bulletin.

The Marshfield Chamber of Commerce has received a copy of the San Francisco Bulletin for August 1, which was edited and published by the San Francisco Chamber of Commerce. The issue was devoted to many things of importance to the community, particularly to changes in freight rates effected by the Panama Canal competition on many commodities being as high as twenty cents per 100 pounds.

DON'T DIG GOLD RAISE CELERY

On a half-acre of bottom-land south of the city and on the west side of Coal Bank Inlet there are 12,000 celery plants growing. Each plant represents a bunch of celery like the grocer sold you this morning for ten cents. The gardener who owns this half-acre (which half-acre, by the way, is part of a two and one-half acre tract) gets \$1 for each dozen bunches of celery. It is easy to figure the value of this gardener's crop of celery. A school boy of ten can solve the problem:

12 plants are worth \$1.
120 plants are worth \$10.
1,200 plants are worth \$100.
12,000 plants are worth \$1,000

One thousand dollars, therefore, is the value of the celery crop on one-half acre of bottom-land near Eastport.

What is an acre of land that will grow a \$2000 crop of celery worth? However conservatively you figure, you will say it is worth far more than acreage can be bought for in First Addition, where the half-acre described above is located.

There are many acres of choice bottom-land in First Addition which can be bought for \$700 per acre. The terms of sale do not call for all cash or even one-half cash. The Reynolds Development Company is selling this acreage on the same sensible plan that this company is selling lots in First Addition, finding the person who can use the land and adapting the terms of purchase to his individual requirements.
