## A Convenience and Safeguard

If you have ever stumbled on the dark basement steps, you can realize what a convenience it is to have an Electric Light Switch at the head of the stairs.  
When planning your new home or the remodeling of your present home, don't forget the switch on the basement stairs, or the switch to light the second floor lights from the first floor.

Remember to include closet lights, porch lights, baseboard sockets for the flat irons and other appliances.  
It's simpler and less expensive to plan these things before the actual work is started.
