

LOCAL BREVITIES

AUGUST TIDES.
Below is given the time and height of high and low water at Marshfield.

The tides are placed in the order of occurrence, with their times on the first line and heights on the second line of each day; a comparison of consecutive heights will indicate whether it is high or low water. For high water on the bar subtract two hours 34 minutes.

Maximum 63
Minimum 53
At 4:43 a. m. 54
Precipitation 0.0
Precipitation since Sept. 1, 1913 66.54
Precipitation same period last year 64.81
Wind: northwest; cloudy.

Did Not Leave.—Through a confusion of names it was erroneously stated yesterday that Dr. D. A. Vaughan had gone to Portland.

Catching Inlet Arrivals.—People from Catching Inlet who are in town today are Mrs. George Ross, John Tower, Charles Spooner.

Will Give Lecture.—J. C. Ghormley will deliver a free lecture on "India, the Land of Mystery and Wonder" at the Christian Church tomorrow evening.

Jetty Work Stopped.—Fred Getty of Empire has returned from Eureka, where he has been engaged on the jetty project. Work on the Eureka jetty has been postponed because of delay in passing the River and Harbor bill.

Traveling Man Married.—Mr. and Mrs. Reginald S. Wright, of San Francisco, are guests at the Chandler Hotel. Mr. Wright is the well known and popular traveling representative of the Moore-Watson Dry Goods Co., and since his last trip has joined the ranks of the benedicts just to

prove that being a trade winner is not the sole accomplishment by which he is to be given a place among the laurel crowned. Mr. and Mrs. Wright are the recipients of hearty congratulations from many friends.

Goos to Logging Congress.—A. H. Powers left today for Portland and from there he will go to Hellingham to attend the annual Loggers' congress August 27, 28 and 29. He will be absent about two weeks.

Fires Under Control.—Forester W. J. Conrad states that the forest fires are now all under control, though still burning on the new road to Empire, but a force of men is engaged in keeping the conflagration from spreading.

Installs Milking Machine.—John Matson, a rancher of Coos River, has installed a milking machine, the only one on Catching Inlet. It is said that the latest model machines which have been installed about the Bay are a success in every way.

Return in September.—Carl W. Evertsen came down yesterday from Goodwill's, where he is spending a few weeks. He received a telegram from Mrs. Evertsen, who is visiting relatives in Michigan that she would arrive in Portland September 8. He will meet her at Portland.

Roseburg Trip.—George Haines and Will Goodrum motored to Myrtle Point Saturday night to a dance and later went on through to Roseburg. They made the trip in the Goodrum repair auto and met with only one accident, in which both were tossed out of the car by a bad bump.

Will Build Home.—Mrs. George Wulff of Ferndale is arranging to build a fine new home there. She has selected a site on a knoll which will give them a fine view. Mr. and Mrs. Peters and family will make their home with her, Mrs. Peters being a relative. Mrs. Peters is now in California, but will return soon.

WM. KARDELL and family returned last night from an outing at Bridge and along Baker Creek on the new Smith-Powers line. Mr. Kardell says there is some fine land in that vicinity. He says that the Smith-Powers road will be completed in about six weeks.

Move Offices.—Dr. Wm. Horsfall is arranging to move his offices into the Irving Block, where he has secured a fine suite of three rooms which will be finely fitted up. He took the last vacant rooms in the building and this makes the second floor practically taken up with medical and dental offices.

Doubted Governor's Authority.—Local sportsmen rather doubted the authority of the Governor to close the hunting season as he did by proclamation last week. A query was addressed to Attorney General Crawford at Salem for citation of the authority or law giving such right to the Governor. An answer was received today quoting a paragraph of the laws of General Sessions, Laws of 1911, Section 7, Chapter 278, which fully covers the point. The local men are satisfied that the Governor was well within his rights.

Hard Trip.—The picnic party of the Christian Church Sunday School to Sunset Bay yesterday was marked by disaster on their way home. The auto truck which had been engaged to return to the beach for the party broke down on its trip down and did not reach the beach until after dark. On their way to town the lights of the machine went out and with the exception of a small coal-oil lamp, which served as a signal, the party was completely in the dark. The male portion of the party was compelled to push the car over the grades and rough places. They did not reach Marshfield until after 10 o'clock.

Has Appendicitis.—W. N. Ekblad was taken ill with appendicitis yesterday but is reported to be getting along better today and it is not likely that he will undergo an operation at this time. He is the fourth member of his family to suffer from the disease, one sister having died of it in Minnesota a few years ago and two other sisters having undergone operations here for it within the last couple of years. Yesterday when Mrs. Ekblad called Dr. Dix to attend him, Dr. Dix was busy dressing a severe injury which Neis Ekblad, father of W. N. Ekblad, had sustained to his hand by getting it caught in a scraper.

PEOPLE YOU KNOW ABOUT

TOM NICOLS is in Myrtle Point today.

J. H. RAHSKOPF is transacting business in Coquille today.

G. N. BINKEY and wife went to Coquille today on business.

JOHN ALLEN left for Portland this morning on a short business trip.

J. J. CLINKENBEARD and family of Coos River, are trading in town today.

E. R. HODSON and family are in town today from their Coos River ranch.

MRS. CARL WALKER went to Coquille today to visit friends for a few days.

J. H. GRIFFITH of the Red Cross Drug Co., went to Bandon today for a short stay.

H. B. STEWARD, the postmaster at Myrtle Point, is here on business. He is at the Blanco.

MRS. M. A. SEVERN departed for Sacramento today after a visit with friends in Marshfield.

MISS LULU MILLER, a teacher of Empire, went to Myrtle Point today to attend the institute.

MRS. SELMA THOMAS and daughter left this morning for Myrtle Point to attend the teachers' institute.

MISS NOAH, of Coos River, who has been visiting with Mrs. Harvey Russell on Catching Inlet, came in today on her way home.

W. A. LINDBLAD and family of Grandfield, Okla., are recent arrivals on the Bay. Mr. Lindblad is an attorney and is locating here.

MISS MARY COX left for her home in California yesterday after a visit with her aunt, Mrs. W. S. Chandler.

H. J. M'KEOWN has returned from a week's outing at Wagner ranch and vicinity. He did not bring back any venison, but then he says that he was not hunting.

MISS C. M. WESTFALL left for San Francisco this morning after spending some time at the home of Mr. and Mrs. Frank Gillespie in this city.

J. GILLESPIE, of San Francisco, who has been visiting at the home of Frank Gillespie in Marshfield, left this morning on the Marshfield-Roseburg auto stage for San Francisco.

JOHN DONALDSON, assistant city engineer, will leave next week for Champagne, Ill., to take the last year of his engineering course at the University of Illinois. He will probably return to the Bay when he finishes next year, or at any rate the many friends he has made during his residence here are hoping that he will.

BURGLARY IN LOCAL HOTEL

Man Caught and Convicted After Rifling Two Rooms in Central Hotel.

The rooms of J. A. Baker and Robert Campbell at the Central Hotel were burglarized this morning by a man named F. Pederson, who was caught a few moments later and convicted before Justice Pennock this morning and fined \$25. In lieu of paying the fine, Pederson will sojourn a while in jail. Baker heard the man in his room and grappled with him, but became entangled in the bed clothes and was forced to loosen his hold. The man rushed out of the room and tried to leave the building, but took the wrong turn at the head of the stairs and wandered around the halls. He was later heard to enter a room he had rented some time during the night, and when the officers arrived, he was found lying on his bed partly dressed.

Losses were small, Baker losing \$2.75 and Campbell \$3.00. Baker claimed to have been robbed a few months ago by two men drugging him in a rather sensational manner near the high school building in South Marshfield.

The Royal TONIGHT

THE HOUSE OF BIG FEATURES
THE CONWAY SISTERS in an act that is sure to make you say: "Oh, you Lassies!" Yes, they sure do please, so just you see them for yourself.

IF YOU LIKE GOOD PICTURES, DON'T FAIL TO SEE "THE SEA WOLF."
Here Thursday night—"CONSPIRACY" in four reels, also "FATHER JOHN, OR THE RAG PICKER OF PARIS," in three reels.
Friday night, the tenth chapter of "LUCILLE LOVE."

WAR CONTINUES ADVANCE PRICES

Coos Bay Feels the Pressure of Higher Prices in Every Line of Business.

Every day presents fresh and direct evidence that the people of Coos Bay are feeling the effects of the European war.

The paint dealers in Marshfield received letters Saturday from the wholesale houses that brushes were greatly advanced in price and even at the higher figures they would receive only small orders for immediate shipment.

Hardware.
"The European war has had but little effect on our prices," remarked a Marshfield hardware man today. "We have felt the effect of prices of a few articles and will probably feel the effect of other articles if the war continues."

Imported tin has already been affected by the war.

Print Paper Higher.
F. E. Allen, Coos Bay representative of Blake, McFall Co., announced Saturday that he had received a notice that all paper had been advanced 30 cents per hundred pounds.

Cheese It. You imported cheese must pay the price these days. With nearly every European power engaged in war, the price of cheese made in these countries has taken a decided increase.

According to one local grocer this morning, imported cheese had increased eight cents a pound since the war. Further increase is still looked for.

"This is just because of the war news," said a traveling salesman whose specialty was imported cheese, this morning. "There is still a good supply and the demand is no greater but it is feared that if the war continues, our supply will be cut off."

Hats and Hooks and Eyes, Too.
NEW YORK, Aug. 25.—Prices of hats, slippers, shoes and hooks and eyes, the bulk of which, or of the raw materials for their manufacture, comes from Europe, have advanced in price. It is reported that the entire supply of hooks and eyes has been bought up.

Local hat manufacturers declare that they were being approached by buyers who for years have purchased all their stock abroad. Austria, Germany and England are the largest foreign makers of men's headgear.

Practically all of the chemical dyes used in this country in hat making are produced in Germany, and unless American chemists come to the rescue within three months our supply of hat dyes is likely to become exhausted.

The local manufacture in question predicts an immediate advance of from 15 to 20 per cent in the whole sale price of men's hats.

A number of shoe manufacturers of Rochester dependent upon Europe for leather, reported today that unless raw materials is obtained within a few weeks they would have to shut down. Shoe manufacturers are predicting higher prices.

The 5 and 10 cent store report a rise in the price of notions, manufactured in enormous quantities in Germany. Hair nets have gone up 100 per cent in price for the available stock in this country, while the entire supply of hooks and eyes has been bought up, according to Dow, Jones & Co.'s bulletin.

War Cuts the Supply of News Print Paper.
WATERTOWN, N. Y., Aug. 25.—At the present time there is only about twelve days supply of newsprint paper on hand in all the news mills of this country, according to Frank L. Moore, of this city, president of the American Paper & Pulp Association.

Seventy-five per cent of the chemical pulp used in this country comes from the war zone in Germany and from Norway and Sweden and all shipments to this country have been stopped, according to Mr. Moore. Some mills, however, manufacture their own sulphite.

HAVE TO MOVE LOGGING CAMPS

Smith-Powers Co. Changes Five From Coaledo and One on South Coos.

The Smith-Powers Company this week is moving two of its camps, Camp Five being taken from Coaledo out on the new railroad south of Myrtle Point and Camp One being moved from South Coos River about a mile back up into the timber where it will be close to the work.

The removal of Camp Five from Coaledo will leave only one more camp at that point, and it will be moved later in the fall. Its removal will leave only Camp One on South Coos River in this section.

Work started last week on the construction of the new cook house of Camp One in the new location and the buildings on Camp One will be torn down and moved up this week. Some time this fall or winter another half mile or so of logging road will have to be built for Camp One, extending the line back up far enough to take out the remaining sixty million feet of logs there. It will take about two years to cut out this timber.

Last week Camp One made a new record, delivering about 500,000 feet of logs. The logs now being taken out are of a much better qual-

ity than have hitherto been delivered from there. Had it not been for the boom being filled in a couple of times and low tides in the daytime preventing the dumping of logs, Foreman Garrett would have got out a couple of hundred thousand more feet of logs, far eclipsing the record of the camp.

Lowest Priced Logs.
During the month of June, the Smith-Powers Company is said to have secured the cheapest logs it has got out during its operations on the Bay. Conditions were favorable, moving and construction expenses to handle them were low and other factors were responsible. It will probably be a long time before they get down to anywhere near the June figure again.

Big Supply on Hand.
That A. H. Powers' determination that the big mills, despite the increased cut, will not be held back by a shortage of logs is well anchored is shown by the fact that the company has about 40,000,000 feet of logs in its booms for emergencies. In addition to this, Henry Hoekes has about 8,000,000 feet of logs cut at Smith Basin ready to get out on the first freshet. There are also several million feet in Dasthney's old camp on the headwaters of the Coquille waiting for a freshet.

The company is now sending in about thirty cars a day from the new line south of Myrtle Point. The cars average from 6500 to 7000 feet.

SUES FOR DAMAGES.
Hugh Byrnes Wants \$150 from H. J. McKeown of Chandler Hotel.

Hugh Byrnes has begun suit in Justice Shuster's court at North Bend against H. J. McKeown for \$150 damages. He claims that he was engaged by a Portland agency to become chef at the Chandler and that McKeown fired him without much of a chance.

AMONG THE SICK
City Attorney Buckingham is suffering from a prolonged attack of whooping cough. He thought that he was too old for it but says that it is harder on the grown-ups than the younger ones. C. R. Peck also suffered a similar attack and has not fully recovered from it yet.
