Why Don't You Go In Debt?

Remember there are two kinds of debt. Owing the grocer and butcher and dry goods merchant won't get you anywhere. But owing a debt for the purchase of a home-site and another debt for the purchase of lumber to build a home will get you ahead faster and more surely than any other system of saving ever devised for fallible man.

In large cities a man must have a lot of ready cash to undertake a debt of this kind. But in First Addition to Marshfield you can secure a fine 50-foot lot facing on a graded street for \$25 cash. The balance you can pay in monthly installments. Why not make use of your credit?
