GERMANY SET ON HOSPITALS NOT TAKING PARIS

All Energies Bent on This Objective Which Kaiser is Determined Will Be Done

(By W. E. Von Wiegand.) ROTTERDAM, Aug. 31.—"Germany is prepared to fight until every man capable of bearing arms is siain before surrendering."

That was the last word I received when I left the German foreign of-

fice in Berlin.

The fighting to date has cost Germany many men, just how many the war office alone knows, but the losses have only had the effect of mak-ing the kaiser and his advisers the more determined that the German cause shall prevail. The nation itself Is calm and reports of anti-war demonstrations are untrue.

When I left Berlin to accompany the first installment of American refugees only brief stories from the front were being printed. Some of these were denied by the general staff, chiefly one that the Germans had taken the French fortress of Beifort. It was stated, however, that in the fighting in Alsace the German army had driven the French back toward the frontier and was holding them in check.

Belgium Surprised Germany. The fighting in Belgium came as a surprise to the German general stall, which did not expect any serjous opposition. The German imper-ial chancelor had promised Belgium that any damage caused by the movethrough Belgian territory would be paid for by Germany, and that Belgium's territorial integrity would be respected. But when Belgium resisted the kaiser, the general staff agreed that she must be conquered at any cost,

The very fact that French troops entered Belgium almost simul-taneously with the Germans shows an understanding in advance between the two countries.

The German plan of campaign is naturally hidden, but such officers of the staff as I saw maintained that there could be but one outcome. The German army is going to Paris, these officers say, and in such an undertaking gerat losses must be expected.

The emperor is in almost constant consultation with his chief military advisers. He had aged greatly in the last fortuight. The deep lines in his face seem even more accentuated like." and the customary smile has disappeared. But his household insists that he continues determined to sacrifice everything for the national

20,000 Americans in Germany. Although deeply grieved over the loss of German soldiers, there is no disposition on his part to recede from the war. The kaiser's position is that this war was forced on Germany and that she must continue to fight.

There are 20,000 Americans Germany, and the government is doing everything possible to get them to neutral territory, Ambassador Ger-ard and Mrs. Gerard, aided by the entire embassy staff, are doing everything possible for their countrymen and countrywomen. But they are already short of funds and their resources are taxed to the utmost.

The State Department has been informed that the German government will rush these Americans across the northern frontier (travel to the south is entirely suspended) as rapidly as possible, but that they must be cared for as soon as the boundary is crossed. Many private residences have been thrown open, and some of the hotels patronized by Americans are keeping their guests in funds on their promise to pay when they can.

Mr. Von Wiegand, although an American citizen and an American trained newspaper man, is a German by birth. He was permitted to re-main in Berlin after others were compelled to depart. He was arrested as a spy, but was quickly released after Amhassador Gerard interfered in his behalf. The German Foreign Office then formally apologized for his arrest.

Mr. Von Wiegand accidentally suffered a very severe injury to one foot and was quite lame when he reached Rotterdam. The injury, however, has improved. He left Berlin when confronted with the utter hopelessness of trying to get any news directly from that capital to America.

GOLD BEACH NUGGETS.

Curry County Seat Events as Told By the Globe,

F. S. Monroe and daughter, of Idaho, are now enjoying a visit with his daughter, Mrs. Fred Sorber. Mr. Monroe is very favorably impressed with Gold Beach and its surroundings and expects to spend his entire vacation here next summer. The people of this vicinity would be siled if he could make this his permanent future home.

The many friends of Mrs. Wm. Cauntiett will be pained to learn that she will leave tomorrow for her home in Seattle. Aunt Anna, as she is familiarly known, is highly esteemed by all and her presence

will be greatly missed in Gold Beach. Edmond Croft, of Tacoma, Wash., has been spending last week here enjoying himself trolling for salmon. Mr. Croft is one of the few men who is so proficient in the art of angling that he lands the largest Chinook with an ordinary trout line and reel. He says the Rogue is the best fishing stream on the Coast, and is now listed as a regular summer visitor to this place.

FOR WEALTHY

(By Associated Press to Coos Bay Times.) LONDON, Aug. 31. — England's lack of hospitals for people in moderate circumstances is the thing that most impressed the members of the Clinical Congress of Surgeons of North America, who just met in Lon-All of London's wonderful hospitals, where the visitors have been watching operations by the great British surgeons, are charity hospitals. People who can afford to pay are barred, and must either go to the inadequately equipped private nursing homes or be operated upon in their residences.

Dr. Franklin H. Martin, of Chicago, general secretary of the Congress, felt this condition keenly, as he had a touch of appendicitis during his visit to London and then learned that the hospitals he had been admiring would not have received him had he been forced to go under the knife.

"This method of conducting hospitals amazes us from North America," said Dr. Martin, "Palatial buildings, occupying acres of the most valuable land in the capital of the world, are devoted solely to non-paying patients, excluding from their advantages the patient of moderate means and made prohibitive to patients of wealth. This works injustice both ways. With their large endowments, these bospitals can afford the most elaborate equipment of operating rooms and laboratory diagnostic facilities. patients of means are compelled to go to the imperfectly equipped private hospitals or to nursing homes with their makeshift arrangements. This must in turn have a pauperizing effect on people of small means who enter the hospitals as charity patients, when they would gladly pay a small sum.

"The injustice worked on the paying patient may be serious, as nursing and private homes cannot afford expensive apparatus such as the latest X-ray machines and the

Dr. Martin has only praise for the British surgeons. He believes them to be fundamentally better equipped for their profession than the American. By this he means preliminary training and the necessity of each English surgeon being a fellow of the Royal College of Surgeons, which standardizes requirements.

"The average English surgeon is more deliberate in the technical performance of his work than the average American or Frenchman," Br. Martin declared.

GOOD AND POOR COWS.

In telling about the work of the Myrtle Point Cow Testing Association in the Enterprise, Robert J. Dryden, who has in hand the work of that association, says:

"At the close of the first month's work it was found that the thirty best individuals produced 1680 pounds of butterfat, worth about \$580, figuring fat at thirty-five cents per pound. In comparison with this result, note that the thirty poorest cows produced the same month 330 pounds of fat, worth \$116, or a difference of \$463. To go still further, the association records show a production of 14,250 pounds of butter fat from the 570 cows in the association during the month of May or an average of twenty-five pounds of butter fat to the cow. Should the same number of cows be replaced with cows as good as the two best individuals in the association, it would mean a production of some 45,-522 pounds of fat for the month and would draw a check for \$14,882.70. Compare this with the present production and we find that there would be \$8495.20 more to be divided between the twenty-seven members of the association.

"Someone told me that these wonderful producers were 'freaks,' etc. Just the same, A. B. Hermann, owner of the best animal, would have chosen several others in his herd, previous to the testing, as better cows. The next best produced is a cow in the herd of C. H. Butler, she having produced 73.4 pounds of butter fat in May compared with 74.6 pounds from Mr. Harmann's cow. It is of interest to note that the Butler cow could have been bought at beef prices before being placed on the test. To show how little her value was realized, we find that she has produced several helfer calves, all of which were disposed of for veal."

NEWS OF NEARBY TOWNS

PIONEER VISITS ROSEBURG

Lawson Lawhorn, a prominent resident of Coos county, arrived here last evening to visit with friends. This is Mr. Lawhorn's first visit to Roseburg in 25 years and he notices many substantial improvements. "I would hardly have known Roseburg," said Mr. Lawhorn today. "When I last visited here the streets were unclean and business structures were few. Roseburg has certainly forged ahead during the past few years, and is now one of the best towns in this section of the state."-Roseburg Review.

PORT ORFORD TO HAVE BAND.

At a meeting held in town Monday evening it was decided to organize a brass band. An order for thirteen instruments was placed with a music house and in addition to this there are several who will furnish their own instruments, so that the band will start off with a membership of fifteen or twenty. N. F. Woodcock was elected manager and J. H. Zumwalt secretary and treasurer. The meeting adjourned to meet again on Saturday evening, when further details of the organization will be completed. For a small place Port Orford has much musical talent and the band will no doubt be a credit to the town.-Port Orford Tribune.

PORT ORFORD OFFERINGS.

Northern Curry County News as Told by The Tribune.

Lorrin Forty, who is stationed as a forest guard at Dry Creek, spent a day in town the first of the week. He says that there has not been any bad fires in that section during the summer, and that following Governor West's order closing the game season he warned eleven hunters to leave the woods. Born, to Mr. and Mrs. W. H. Mere-

dith, at Wedderburn, Or., August 25, 1914, a fine boy. As the little fellow is the first boy among three girls, his proud parents are kept busy receiving the congratulations of their friends. Judge John S. Coke and party them.
