WATCH THIS PAPER FOR THE TRUTH ABOUT PROHIBITION

Here is the exact issue that confronts you

The prohibitionists ask you to adopt an amendment to the State Constitution to prohibit the manufacture and sale of alcoholic beverages, except for medical, mechanical and sacramental uses.

The adoption of this amendment means the entire wiping out of the present splendid home rule and local option laws.

Thereafter the regulation and control of the liquor traffic in Oregon would pass from cities and towns and be retained exclusively by the state.

Note carefully there is no mention of prohibiting "distribution," "transportation" or "use" of alcoholic beverages. Only of manufacture and sale. Distribution, transportation and use intentionally were left out by the prohibitionists. Shipment of liquors into the state, or through the state, or drinking of liquors within the state would not be prohibited by the amendment.

Washington, Idaho and California naturally would immediately begin shipping liquor into Oregon and throughout Oregon. The saloon, where it now exists, would merely have given away to the "blind pigger," "bootlegger" or "moonshiner." All cities and towns now either wet or dry would be at the mercy of the state police authorities and state law makers.

Present "dry" cities and towns would realize that they had come nearer to voting themselves "wet" than they now are under the splendid home rule and local option laws.

If the state authorities were derelict or failed to enforce the law, as they are in Kansas and Maine, the cities and towns would realize that they had voted away their present direct control and regulation of the liquor traffic. These articles will show later that Kansas and Maine authorities are derelict and do fail to enforce the law. To undo the mistake Oregon would have to repeal a constitutional amendment and not a mere law—a very difficult undertaking. Deceit and perjury in securing liquor illegally would have been substituted for what today is a steadily improving, healthier public opinion regarding true temperance, and true temperance would have been done an irreparable injury requiring many years to recover from.

Kansas is pointed to by prohibitionists as the model prohibition state. They want Oregon to become a Kansas. Watch these articles with a fair, open mind and learn what thirty-three years of prohibition law has done for Kansas without prohibiting or advancing true temperance.

All figures will be taken from latest United States Government Reports

N. B.—Prohibitionists are spreading the opinion that, if the proposed amendment is defeated, the present dry towns and cities will become wet again. This POSITIVELY IS NOT SO. The present home rule and local option laws would remain just as they now are.

NEWS OF SCHOFIELD.

(Special to The Times.) SCHOFIELD, Or., Sept. 10.—With all shifts full-handed and only 150 feet of rock to be taken from the north portal, Supt. Nelson thinks November 1st will see work suspended at this end. Many of the men have been here for months and plan to stay to the end, realizing that work will be scarce during the winter.

C. T. Elmore has returned to take his old place as chef, and the men wear "the smel that won't come off." Prof. Gilbert Sprague expects to leave for Mill City in a few days, where he has been elected superintendent. Miss Ella Sprague will teach in the newly consolidated school at the Coos forks.

Anyone who doubts that this is a hunters' paradise should have seen the Walker boys the other day as they passed the camp carrying a huge buck. Oliver Walker shot one in the same vicinity a year ago.

CULLINGS OF COQUILLE

Coos County Seat Events as Told by The Herald.

At the home of the bride's parents, Mr. and Mrs. W. W. Sanders, at 3 p. m. Sunday, Cecil Elwood and Miss Elsie Sanders were joined in matrimony. Rev. A. Thomas of the M. E. Church South, officiating.

Joe L. Harry, of Sitka, and Goldie Devault, of Myrtle Point, were married Saturday evening at the M. E. Farconage. Rev. C. H. Bryan officiating.

Mrs. Clyde Gage has gone to San Diego for a visit, accompanying her sister, Mrs. Geo. Hartly, who came here a couple of months ago during Mrs. Gage's illness.

Mr. and Mrs. Steve Galiger and daughters Edna and Gladys and Miss Alice Gallier—who have been visiting friends here for the past week returned to their home in Bandon today.

Frank Morse has just returned from his trip to California and says he visited every part of the state from the Oregon line to Mexico. He will now pack his effects and move his family to Besunout, Cal., about 80 miles east of Los Angeles, where he has property interests and where he will open a drug store.

GOLD BEACH CHURCH.

(Special to The Times.) GOLD BEACH, Or., Sept. 11.—The Gold Beach Presbyterian church will be dedicated on Sunday, September 13, 1914, at 7:45 p. m. The exercises will be conducted by Rev. J. V. Milligan, D. D., of Portland, and Rev. John W. Hoyt, pastor of the church. This is the first church building that Gold Beach has ever had and is distant many miles from any other church building. The church was organized July 28, 1912, and incorporated July 14, 1913. Meetings have been held in the building since last February.

MEET AT BANDON.

(Special to The Times.) BANDON, Or., Sept. 11.—The Coos Bay Presbytery will meet in the Bandon Presbyterian church on Wednesday, September 23, at 1 p. m. This is a newly organized Presbytery which comprises all of Coos and Curry counties and it was formerly a part of the Presbytery of Southern Oregon.

HELLO GIRL A HEROINE. Stuck to Post Until Shell Burst in the Office.

PARIS, Sept. 11.—According to information which has reached Paris, the little village of Etain, near Longwy, France, has been subjected to two bombardments by the Germans, one on Monday of last week, the other Tuesday.

The second bombardment set the town on fire, and many people are said to have perished in the flames. The telephone service of Etain was left in the hands of a young girl, who stuck to her post while shells were bursting all around the telephone office and called up Verdun every fifteen minutes to give an account of what was going on.

The director of posts at Verdun was listening to a message being sent by the girl, when suddenly she interrupted her communication to say: "A bomb has just fallen into 'tis office." This ended the conversation.

GOOD RUN OF SALMON.

The run of Chinook salmon in the Coquille River this fall has been better than for any previous season in a long time. Yesterday the Coquille River Co-operative Cannery Company put up 150 cases of Chinook and will have about the same pack tomorrow.—Bandon Recorder.

ALLEGANY ITEMS.

(Special to The Times.) The road camp has moved back to Allegany and there are four teams hauling gravel on the road of both forks near here. It will be a fine road after it is gravelled.

Gould's camp shut down last Saturday on account of lack of water. The late rain raised the river a foot or more, but it is falling fast.

There are a good many parties of hunters out now. Some are getting plenty of game and some are not. Most of them have gone to the big burn.

There was an auto came out the morning after the rain and got off place and they were obliged to come down through Mr. Larson's field to the landing. The stage cars have stopped running till the road dries up. Mr. Foote thinks he will be able to get through by Friday next if it stays clear.

Mr. Sargent's family is moving back to town.

BANDON SALOON CASE.

Joe Coach Fined \$200 and John Herron \$50.

In the case of the City of Bandon vs. Joseph W. Coach for giving liquor to minors, which was tried in municipal court, Coach was found guilty and fined \$200 and costs by Municipal Judge Kausrud. John Herron, who was tried later on the same charge, was given a fine of \$50 and costs. These two men are operating the Club Saloon and now claim that they will appeal the cases to the Superior court. Should they do this it is probable that the city council will revoke their license at once, as they have the right to do at any time it is shown that a saloon is not being conducted according to the ordinance governing saloons.

City Attorney Treadgold says he will see to it that the law and the ordinance are enforced and that any saloon caught violating them will be dealt with accordingly.

A number of the councilmen have stated that they will stand back of him, and unless the law is complied with there will be something doing.—Bandon Recorder.

RUN TWO MILLS.

Geo. W. Moore Plans to Operate at Bandon and Toledo.

Since the Geo. W. Moore Lumber Company of this city has taken over the Toledo Lumber Company's mill at Toledo there has been much speculation as to what would be done with the Bandon mill. In conversation with Mr. Geo. W. Moore, a representative of The Recorder was informed that there was nothing to any of the rumors and the fact that the company had taken over the Toledo mill would have no effect on the Bandon mill whatsoever. The mill at Toledo has a capacity of about 75,000 feet a day and Mr. Moore says there is no occasion for increasing its capacity at present, as it is amply able to cut all the lumber that is required at present.

Mr. Moore stated that just as soon as the lumber market picked up sufficiently to justify it, the Bandon mill would start up again and be operated offtimber to the extent of the mill's capacity for a number of years and this will be procured and operations started as soon as operations can be commenced at a profit.—Bandon Recorder.

PROSINESS.

OMETIMES we need to forget just how essential daily prosiness of life. If we don't we become commonplace and hum-drum. We need to remember the soft veil that lies over the world, to flutter a bit with the butterflies, to sing a little with the birds.

Once in a while we do well to wander away from the set tasks of our lives, to watch the glitter of water in the sunshine, to listen to wind in the tree-tops, to idle along some old roadway, to forget the prosiness of life, to dare to be foolish, to defy the set and sensible.

FIRE AT BANDON.

The house occupied by B. L. Tracy, on the old County Road between Bandon and Oregon avenues, caught fire through some unknown cause early Monday morning and considerable damage was done to the interior. The fire boys arrived on the scene in time to save the building.—Bandon Recorder.

CLOSE TAB ON NEWS.

British and French Censors Hard on Each Other.

PARIS, Sept. 11.—The English and French censors appear to be as busy on news passed by one or the other or the allies' official news bureau as on the dispatches of the newspaper correspondents. The British censors stop parts of official communications issued by the war office in Paris, and the French censors appear to have delayed, on two or three occasions, announcements made in the House of Commons regarding the situation of the armies. The French censorship, however, seems less severe than that in England on news originating in France.

MRS. CARMAN IS INDICTED

Physician's Wife Held for Mysterious Assassination of Mrs. Bailey

(By Associated Press to Coos Bay Times.)

MINEOLA, N. Y., Sept. 11.—Mrs. Florence Carman, indicted yesterday on the charge of murder in the first degree for killing Mrs. Louise Bailey, was today under the care of the Nassau county jail physician. Mrs. Carman collapsed last night soon after being locked up. Mrs. Bailey was shot while calling at Dr. Carman's office for medical treatment during the evening a few months ago.

EUROPE'S ARMY UNIT LARGER THAN IN U. S.

Americans are likely to underestimate the number of men engaged in the European battle by giving the army units mentioned the same strength as those of the United States troops. The continental divisions are universally larger. The Scientific American points out. The American regiment has about 1000—the average European regiment 3300. The following statement is applicable, broadly, to all of the continental armies engaged in the present conflict. Three regiments form a brigade of 10,000 men, commanded by a Major-General. Two brigades form a division of 20,000 men, under the command of a Lieutenant General. Two divisions constitute an army corps of 40,000 men, commanded by a General, and three army corps form an independent field army (fully equipped with cavalry, artillery, commissary, engineers, and medical department) of a total strength of 120,000 men.
