COOS BAY TIMES BAND LEAVES

Official Paper of Coos County. Entered at the Postoffice at Marshfield, Oregon, for transmission through the mails as second-class mail matter.

SHOOTING NEAR

(Special to The Times.) MYRTLE POINT, Ore. Sept. 24 Henry Volkman, a well known Myr-

tle Point man, was taken to Coquille night in which Marsaal James Brown lin narrowly escaped being shot.

The affair has created quite a stir here and aroused much sympathy for Volkman. Volkman has long Hved here, is in the hardware bustness and a fine citizen except at great intervals he goes on a spree. Last night the officers found him near the fairgrounds badly intoxicated and took him home. He had an ord' mary spree on and made threats but they thought that he would be all right. However he went in and got a gun and beat them down town They found him near the band of Myrtle Point and in the mixup that followed, he fired three times. Brown says that one of the bullets passed between his knees and Summerlin's hat was scorched by another bullet and a hole shot through his coat. When Volkman started shooting, the officers quit trying to persuade him and used their clubs, having to beat him severely before he could be disarmed.

Volkman is a bachelor and has been caring for the children of his sister whose father and mother are both dead. The affair has arroused much sympathy for him.

ELG CROWD AT FAIR.

(Special to The Times.) MYRTLE POINT, Ore. Sept. 24J Myrtle Point today is entertaining one of the largest crowds in its history. While there was quite a throng here yesterday, the real program started today and as usual the races

were the center of interest. Last night every hotel and rooming house was crowded and many had to find rooms at private homes.

In the wrestling match last night, Mr. King, of Myrtle Point was comparatively easy victor over Reid, a half breed champion.

TRY TO ROB

ALBANY, Or., Sept. 24 .- Fired upon after they ha fdblown of the outer door of the safe and before they had penetrated to the money drawers, three men who attempted to rob the store of Dennis & McKercher at Crawfordsville early today, fled without securing any booty. The explosion, which tore off the outer door awakened a man living near the store who fired on the robbers.

The Speedwell arrived yesterday morning at Bandon coming there from the south.

"OUR FIGHT" FOR THE OREGON LEGISLATURE Second Lesson in Practical Politics

"Our lesson today, children, is 'Our Fight for the Oregon Leg-

"I promised you that this would be a bigger joke than our first lesson.

"After our big 'hurrah meeting' in Pittaburg, the Political Department of the Millionaires called us Field Agitators in and gave us our Program. They said that the Tide of Commerce would begin shifting when the Panama Canal was completed and that they would have to get Busy and begin getting a grip on the Legislatures of the Pacific Coast. I never knew that there were such Shrewd Politicians in the whole world until they got us into that room. They explained to us that, through the different Millionaires in the Anti-Saloon League, they could Pull Strings on a lot of Rich Men in all three Pacific Coast states. You see they owned a lot of Natural Resources out here already or were Silent Partners in a lot of Corporations whose officers and Active Heads they could Twist around their Thumb. There were great Iron and other Mineral Deposits in these states; the timber resources of these three states were the gratest in the whole country; the Power Possibilities were Immense and these Millionaires Wanted Them.

"But, you see, children, they could steal most of these Resources by merely stealing the Legislatures. They wouldn't have to pay a Cent for them. Isn't that the Simplest Thing in High Financing ,children, you ever saw? Willie, I shall send you home if you don't stop laughing.

But when they handed us our Program, with the Three Different Prohibition Issues for the Three Different Pacific Coast states all nicely typewritten, I could hardly keep my own face straight. But I thought of my new Job of Fooling the People and that sobered me up.

These politicians explained to us that we should remember that we were not working for True Temperance but for Votes, because it takes Votes to Get Legislatures.

They told us they did not expect to Get the California and Washington Legislatures this First year, but that Oregon Voters Possibly might be Fooled. The people of Oregon, they told us, had swallowed about every brand of Freak Legislature, if enough Hysteria and Emotion had been put into it.

Of course, children, we are forced to admit that if we were working for True Temperance in Oregon we would have to prohibit the "Manufacture," "Sale," "Distribution," "Use" and "Giving Away" of Alcholic Beverages for "All Purposes." But we felt that we could fool Enough of the Voters of Oregon by Prohibiting the "Manufacture" and "Sale" of Alcoholic Beverages to capture the Legislature. So you see we crossed out the words "Distribution," "Use and Giving Away in the Oregon Issue. As you think this over, children, you will see how this Clever Little Piece of Politics may get us Enough Votes to Get the Legislature. We didn't have a ghost of show of Getting the Legislature without doing I as I wanted they

The people didn't generally know it, but we already have quite a number of Members of the Legislature now in all three states, including Oregon. So, even though we didn't carry the Prohibition Amendment here in Oregon this fall, if we elect enough "Prohi" members to give us a majority, we don't care a whoop whether our Brand of Prohibition- succeeds or not.

The Politicians told us that they didn't have a chance within Two Hundred Thousand Votes. of carrying California, but they wanted to use the Issue in that state for Campaign Purposes in states to the Eastward. You see their grip on the Legislature has been slipping in Colorado, Ohio, and Virginia, where they have been doing some rotten work with their workingmen. These are the only other states where they are making a FIGHT FOR TEMPERANCE this year and they are trying to save their face in those states by pointing out WHAT WE ARE FIGHTING FOR niaetashrd shrd shrd shrdishrd IN CALIFORNIA, So in the California Issue they left the word "Distribution" in. Even at that, they Figure on capturing some more members in the California Legislature this fall.

We all had a good laugh when the Washington Issue was decided on. The politicians explained that the Washington Voters wouldn't wouldn't hegin to vote for what the Oregon Voters would, so they Figured out that they would make the County Audi tors the Official Barkeepers of that state.

So they scratched out everything that would mean True Tem-

terance except the word "Matefacture" and arranged for the Washington Voters, Man or We man, that they may ship is a HALF GALLON OF ALCOHOLE a DOZEN BOTTLES OF BETS EVERY TWENTY DAYS by being a twenty-five cent perall You see Washington would cottinue to get the Saloon Licess money in another way, but is 0er gon they decided they could fee the Voters so as to take shot NINE HUNDRED THOUSAND DOLLARS away from them h license money. The people is Oregon, you see, children, have voted for any Freak Legislatus that came along, if enough Hyteria could be put into the less to Fool them. They're beginning to holler, I understand, now that they find that their Taxes are Go ing Up like a Skyrocket, but we hope to have them Overlook tall side of the Issue this year if Fooling them.

We laughed and laughed when one Politician told us that the People of Washington could sur Drunk All the Time on the Gib lon of Whiskey which Each Veter could Make out of his Ball Gallon of Alcohol. That, 198 know, children, is more than the average individual consumption in the whole United States today. But as long as we are not werk ing for True Temperance in these three Pacific Coast states, but only want the Legislatures, 98 were told that we Should Worrs.

I think its the Funniest This in Practical Politics I have ess seen. Don't you, children! (Paid Advertisement,) Taspar ers and Wage Earners' League & Oregon, Portland, Oregon, ...
