

# BIG SUPPLY OF WHITE CEDAR IN NEW TIMBER NETS \$2500 DAILY

### C. A. Smith Company's Output Will Run About One-third White Cedar Henceforth.

### BETTER MARKET AND BETTER PRICE FOR IT

### New Logging Camps Yield A New Source of Profit—Pulp Mill Now Starting Up.

The Eastside mill of the C. A. Smith company has started in cutting white cedar exclusively for a time until a big supply of cedar logs on hand is cut up. Some of the finest Port Orford White Cedar that has ever been turned out is now being cut there, mill men say.

The starting of logging operations south of Myrtle Point has opened a new source of revenue for the C. A. Smith company which will prove a regular mint. It is estimated that the timber along Baker Creek, where the two new camps have been opened and in the adjacent territory will run from twenty-five per cent to thirty-five per cent, and in some areas even more, white cedar.

Even at the present dull stage of the lumber market white cedar brings \$10 per thousand more than the best fir and the demand for it is much better than the other classes of lumber. Under favorable conditions in the lumber market, the margin between White Cedar and fir is even greater than \$10 per thousand feet.

However on the basis of \$10 per thousand and the cut of the two mills henceforth running about one-third White Cedar, the company's income will jump up \$2500 per day with no added expense. This item alone will defray much of the expense of logging operations and handling the lumber, leaving a net margin of considerable.

The White Cedar is especially desirable for finishing and boat building on account of its durability, etc.

### Pulp Mill Starting.

Manager Nerdrum has started some of the pulp machinery, now working the chip room. It is expected that a sufficient supply of chips will be in readiness to start the whole mill Monday morning. Arrangements have been made for a steady run as a number of small orders have been secured from the Orient and negotiations are on for closing a big con-

tract with some Japanese paper mills that will take the entire output for a long time. This will probably be closed soon.

The pulp they are to turn out is for making a high grade paper and consequently brings a better price than the pulp used for making print paper or wrapping paper.

# POWELL GONE FINDING NO TRACE

### Marshfield Negro Restaurant Man Disappears in Curry—Many Rumors.

Proprietor Powell, of the Blanco Cafe, who disappeared mysteriously in The Sixes country in Curry county last month, is still missing and no trace of him has been found. It was stated today that Mrs. Powell had appealed to local officers, to Sheriff Gage and to the sheriff of Curry county. It was also stated that she sent a man there but that he had not found out anything except that Powell was last seen July 16 in The Sixes River district, to which place he went on a hunt and for an outing. Powell had made quite a success of business here, having made considerable money in the little dining car on North Front street and later buying the Blanco Cafe.

### Many Wild Rumors.

A rumor was afloat last week that a man who had been looking for Powell in Curry county had been notified to leave there within six hours. At the Blanco today this was denied.

According to a rumor here, Powell was quite an expert with cards and had made a big winning from Curry county card players in or near Brookings just prior to his disappearance. This rumor caused some of his friends to fear Powell had met with foul play, the winning at cards being the motive.

### REHEARING IS REFUSED.

The Supreme Court, meeting in Salem on Monday, handed down its decision denying the petition of the plaintiff for a rehearing in the case of F. A. Smith vs. L. D. Kinney. About ten days ago the Supreme Court reversed the decision of the lower court, which had decided in favor of the defendant and the plaintiff then appealed for a rehearing on the grounds that certain matters, upon which the case was hoped to be sustained had been overlooked. Action now will probably result in the case again being brought back into the circuit court for a retrial. This is the case in which the payment on the old steamboat Liberty was in question.

### NORTH BEND NEWS

Mrs. Harry Truman has gone to Portland for a months visit with relatives.

A. H. Derbyshire returned yesterday from Gardiner where he won the suit which Messrs Fredrickson and Olson begun against the Umpqua packing Co.

L. F. Pickens of the North Bend News Company will leave in a few days for Portland to continue his course in dentistry and Fred Sass man will take his place here.

Alexander Neilson of the Everett pharmacy will leave soon for Portland to take a course in dentistry.

Arvid Johnson and family, old residents here, will leave on the next Nann Smith for California where they will locate.

Florence Laird, Ruth Laird, Mary Kjellmn, Evelyn Clarke and Ruth Halsted are among the North Bend school girls sending fancy work to the Myrtle Point fair contests.

Herman Anderson, a young boy, is recuperating from an injury to his eye caused by a splinter of steel.

L. N. Gilnet and wife left this week for Portland in response to a message announcing the death of her father.

James Mott who has attained considerable fame as an actor is here to visit his brother, Dr. L. H. Mott. He will probably arrange to put on some performances here under the auspices of local lodges.

The LOYAL ORDER OF MOOSE will hold a LADIES' NIGHT next Tuesday evening. All wives, sisters, daughters and sweethearts are invited to a social evening and banquet.

# COUNCIL JURY MEN TRAIN FOR FOOTBALL

Acting as a jury the street committee of the city council last evening met and heard the testimony submitted in the Sneddon-Hansen controversy in which Mrs. Charles Sneddon, 993 Seventh Street South, contended the right of E. J. Hansen 993 Seventh Street South, to receive a rebate of \$231.20 on street improvements on Johnson Avenue which Hansen claimed was due him for work done in connection with the making of a fill on that thoroughfare. Mrs. Sneddon testified that the work was undertaken only after her suggestion and that hence she was instrumental in having the dirt hauled to the fill and should receive a share of the rebate granted. The street committee took the matter under advisement and will report at the next Monday meeting of the council.

The question at one time was supposed to have been settled. City Engineer Buckingham made a report to the council a year ago last July in which he recommended that a rebate be granted to Hansen. Upon this recommendation the council allowed the claim and not until then did the counter claim of Mrs. Sneddon appear. The matter has since that time has been unsettled.

Mrs. Sneddon who is a neighbor to E. J. Hansen and with property in close proximity to the ravine which has been filled, testified that contractors near her place were at work leveling several lots and hauling the dirt off far down Fifth Street to be dumped. Johnson Avenue at that time was unimproved. The grade of the city engineer called for a raising of the street and subsequently more than 5000 cubic yards of dirt were moved from Seventh Street onto the Johnson thoroughfare.

Seeing the dirt being thrown away Mrs. Sneddon declared that she went to Hansen and broached the proposition of having the dirt dumped in for the fill.

Hansen declared this testimony was correct but that following this he went to the excavating contractors and showed them they could dump it in close with no need of sending their teams far out. This was agreed to and Hansen testified that he superintended the placing of the dirt, that he worked for many days, often had his son to help him and several times paid for the services of a third man. Their work was mainly the spreading of the wagon loads of dirt as they were brought to the ravine. In this manner 650 cubic yards of dirt were placed on Johnson Avenue. Figuring this at 34 cents per cubic yard, the amount later paid for more dirt on the same street, the total was \$231.20 allowed Hansen by the council.

Mrs. Sneddon declared that part of the dirt removed was used by Hansen on his own lot. The committee decided that this had no bearing on the case. At one time stated Hansen, the contractors asked 25 cents a load and thinking the property owners would have to pay for the dirt asked Mrs. Sneddon if she was willing to contribute. "She would not," said Hansen. "I never heard of the proposition before," reiterated Mrs. Sneddon.

### PLAN FOR RECITAL.

Mr. Hugh A. Kelso of Chicago, who has been traveling through Coos county, will give a recital at the home of Dr. and Mrs. Wm. Horsfall next Saturday evening. The recital will be given for the benefit of the Baptist Mission boat Life-Line, in which Mr. Kelso has become interested during his visit in Marshfield. Mr. Kelso desires to assist the Rev. G. LeRoy Hall in this splendid missionary work. While the affair will be invitational, any who desire will be given an opportunity to contribute. Mr. Kelso's ability and attainments have already been commented upon in The Times and that the affair will be an unalloyed pleasure to Marshfield music lovers need not be mentioned.

### FISHING AT FLORENCE

The first salmon received at the Florence cannery by Kyle & Sons this year were delivered on September 10, and the canning operations were commenced next day. The company has made an agreement with the fishermen's union to purchase all their salmon at the cannery, thus giving the men a market for their catches. The launch Restless is making daily trips between Mapleton and Florence to pick up the fish from the boats and take them to the cannery. —Florence West.

With a squad of two complete teams, numbering at least 22 men, the football athletics of the Marshfield High School, working under the war eagle eye of Royal Niles, former Whitman College and All-Northwest fullback, are rapidly coming into their own. Since the opening of the school year the men have met for practice steadily and enthusiastically on the grounds on Broadway Street South, priming themselves for the heavy schedule of eight games that is listed for the season.

Formally the football season will be opened on October 2 in Marshfield when the local warriors are listed for a tilt with the alumni team of the North Bend High School, a squad now working industriously under the tutelage of Coach McGill, an old Nebraska football star. The North Bend High School will have no team from the regular enrollment this year. Two games will be played with the Alumni from there; two games will be played with the Coquille High School; Myrtle Point will be met twice in the season and the Bandon School is listed for two contests.

About the field on Broadway St. South heavy planks will be laid for the use of the spectators thus eliminating one of the disagreeable features of former games, that of standing in the mud. With a sandy field the men suffer little from bruises and are enabled to get in good stiff practice of between two and three hours every evening.

The backfield combination last night lined up with McDonald and Seaman in the halfback positions and Bolt as fullback. Burrows on end is gaining speed and carried the ball well on end runs despite the tendency of himself and many others to carry the pigskin tucked loosely away under the wrong arm in a manner to invite fumbles when tackled. Coach Niles is drilling the men sternly on this point and on every mistake immediately called the men back and repented the signal.

No definite lineup of the team has been made and probably will not be, declared the coach, until a few days previous to the game with the North Bend Alumni. The men when reporting on the field are first given a short punting practice, later followed by scrimmage of the first and second teams. Before finishing up for the evening the first team men are given a stiff drill on the running of signals, working out various plays and putting them into operation.

With a team averaging in a neighborhood of 155 pounds the outlook is encouraging, according to the statement of Coach Niles who believes that the men are doing good work for the time they have been out.

### ALONG the WATERFRONT

A big new 40 candlepower searchlight has been placed aboard of the Millicoma, which is at present taking the Allegany run in the place of the Alert which is laid up, having her engine overhauled. The Tillamook left Bandon yesterday morning for the north carrying a miscellaneous cargo.

The steam schooner Mayfair has arrived from San Francisco and will take aboard about 436,000 feet of lumber that was brought down on two scows from the Tidewater Lumber Company on the Siuslaw two days ago.

The gasoline schooner Roamer arrived yesterday from Florence bringing a miscellaneous cargo. The Paraiso sailed Tuesday for San Francisco and Agent Tom James states that she had a capacity list of outgoing passengers, in addition to a good miscellaneous freight.

The steam schooner Speedwell came up from North Bend this morning and took aboard a large number of ties from the Southern Pacific docks. Tomorrow afternoon at 3 o'clock the Speedwell will sail from the city dock at North Bend for San Francisco, San Pedro and San Diego with passengers and a miscellaneous cargo.

The gasoline schooner Roamer came up to the Smith Terminal dock this morning and loaded a miscellaneous cargo, expecting to sail for Florence some time this evening.

### MISS TWO CLUBS.

Looking over the social columns of the Coos Bay paper we notice that the Narcissus Club, the Priscilla Club, Minne-Wis Club and the Past Matrons' Club are still on the boards, but that the Newlyweds' and Young Matrons' Clubs appear to have gone out of business.—Umpqua Courier.

### CHICKEN PIE SUPPER.

Chicken pie supper by Baptist Young Ladies' Class at Lutheran Hall, Third and Commercial, Saturday evening, Sept. 26, from 5 to 8. 50 cents.

# GRAND JURY TO REPORT SOON

## EXPECT LARGE NUMBER OF TRUE BILLS TO BE REPORTED TOMORROW—BRUNER MURDER AND EMPIRE ROBBERY UP.

(Special to The Times.)  
COQUILLE, Or., Sept. 25.—The grand jury adjourned this morning until tomorrow morning when they will probably make their final report to Judge Coke, who arrived here this afternoon.

Indictments in the Empire robbery case are a little uncertain. John Wasson was here yesterday and gave some strong evidence, it is said. Rumors are rife that a true bill may be returned in the Bruner murder case, in which an old resident of the Coos Bay section is suspected of being implicated.

No new arrests have been reported on the secret indictments returned the first of the week. Sheriff Gage and Deputy Clyde Gage both went to the Myrtle Point fair today.

### NOTICE TO CONTRACTORS.

Proposals will be received at the offices of George P. Laird, Bandon, at noon, Saturday, October 6, for the general contract for a two-story concrete and face brick building. Separate proposals for heating and plumbing. \$500 certified check to accompany each proposal.

\$5 deposit required for the return of the plans.

Plans may be secured now from George P. Laird, Bandon, Ore. Bids will be opened at 12 o'clock noon, October 6, 1914. Right to reject any and all bids is reserved.

GEORGE P. LAIRD, Bandon.
