

# MUST HURRY TO REGISTER

Registration for County and State Election can Not be Done After Oct. 15.

No matter what your politics may be October 15 is the date set for the closing of the voters' registration books. Failing to sign your name before that date will mean that your vote at the county and state election this fall must be sworn in at the polls with six free holders as signers. The books are now open in the office of the Justice of the Peace C. L. Pennock or any notary in the city.

Since the last primaries Judge Pennock has registered 74 voters. Inspection of their political creeds shows that the Republicans have the precedence of five over the Democrats, the former numbering 27 to the latter's 22. The Socialists have signed up 12 votes, to the Prohibitionists with six, the Independents with seven and the Progressives are "also rans" holding the fort at the end of the list with one name registered.

# HOW TO FIND DELAVAN COMET

If Night is Clear, It Can Be Easily Located in Angle of Big Dipper.

A Portland paper says: If your eyes are good, you don't have to crawl out of a warm bed at 3 a. m. to see Delavan's comet.

The comet was plainly visible at 7:45 o'clock Thursday evening from dozens of points in Portland. Of course, it sounds better for a fellow to explain that he is getting up at 3 in the morning to squint at the sky tramp, but such matutinal devotion to astronomy is unnecessary.

After dinner, if it is clear and darkness has descended, take a look at the Big Dipper in the northern sky. Having located it, use the two stars at the bottom of the cup as a base and draw an inverted triangle. The apex will be a luminous object, which is Delavan's comet. The darker the night, the brighter the comet will appear, which is one reason why people have been advised to view it at 3 or 4 a. m.

Now that you know just where to find the comet, the rest is easy. Find some point in your yard, or some dark street, and look. If there are no street arc lights in the road, and no glare, the comet is readily seen. From the suburbs it is easier to see the wanderer than down town, for where street lights are few the conditions for sky gazing are best.

### CINDERS BURN WHARF.

Timely Discovery Prevents Fire Near Alder Avenue Dock.

Hot ashes dumped onto the dock a short distance north of the foot of Alder street were discovered at 4:20 Sunday morning by Officer Doane after fire had already started and had gained a hold on the decayed piling of the wharf. But for the timely discovery it is believed that the entire wharf would have been a mass of flames a short time later.

The ashes were raked from a stove and a careless attempt had been made to dump them into the Bay. Officer Doane declared that there are at least four places along the docks where ashes and garbage are being thrown into the Bay, which is against the law, and parties concerned in this are amenable to the law. Action in regard to restricting such practices has been taken by the Port Commission and drafted in the form of a law.

# "PROHI" TEACHER STUMPED RELIGION AGAINST "PRACTICAL POLITICS"

Now Mr. Prohi we'll run this school today.

We don't intend to hurt you, but we had to tie you up so you couldn't run away, while we asked you a few questions.

Us kids talked this thing over last night and decided we had heard about all we wanted to do and he gave me a lot of questions which he said Mr. Prohi wouldn't answer. He said the Prohis always made a lot of claims they never could back up and never tell us about their Prohibition Failures.

Now, Mr. Prohi, why is it you never have told us that at the last election Maine came within 758 votes of rejecting its prohibition law, after trying prohibition for sixty-four years; why don't you tell the people that New Hampshire tried it forty-eight years and rejected it; that Vermont rejected it, after fifty-three years; that Massachusetts, Rhode Island, Connecticut, Michigan, Illinois,

Nebraska, Alabama, Ohio, New York, Indiana, Wisconsin and South Dakota have all "tried" prohibition and all rejected it. Why are you trying to make us adopt a law to make men good when it has been so generally exploded as a False Theory by these Splendid States in the East?

Why is it, Mr. Prohi, that Tennessee, one of your latest "Victories," is trying right now, with the aid of the United States Secretary of the Treasurer, to float \$1,400,000 bonds and has Fallen Down?

Why is it that in your "Model Prohibition" state of Kansas they are legally shipping in a million and a half quarts of whiskey every year?

Why is it that we have \$145 for every individual here in Oregon to every \$100 in Kansas?

Why is it that Kansas ranks as the thirty-second state in per capita banking resources? As the forty-third state in savings bank deposits?

Why is it that Kansas has more penitentiary inmates per population than twenty-four other states

if Prohibition Prohibits?

Why is it that Kansas has more Juvenile Delinquents per population than twenty-six other states?

Why is it that Kansas has more Feeble Minded per population than thirty-one other states?

Why is it that Kansas has more Homicides per population than twenty-two other states?

We want an answer to these questions about Kansas Mr. Prohi, because Kansas is the Only Prohibition State you Dare to Brag About.

Why is it that Practically Every President of the United States from Washington to Wilson and including Lincoln, Taft and Roosevelt has publicly declared against a Prohibition Law?

Why is it that you keep telling Us People in Oregon that Half of the United States is in "Dry territory," when the internal revenue paid on whiskey, beers and wines is increasing over Ten Million Dollars a Year and the Consumption of Whiskey, Wines and Beers has Doubled in the Last 13 Years?

Why is it that Taxes Begin Soaring the Moment that Prohibition is Adopted and why is it that Realty Values Begin Tumbling, Thousands of Men and Women are Thrown out of Employment, Incomes Begin Falling Off and General Stagnation Sets In? Why is it that Governors and Mayors in Prohibition States and Cities always talk against Prohibition after they have got it? Why is it that you never say any thing about the Blind Pigger and the Bootlegger, who skulks through dark alleys in plying his Traffic? Why is it you never tell us any of these things, but only Appeal to the Emotional Side of Men and Women? If Prohibition is practical, if it will Actually Work Out and is Entitled to the Dignity of being put on the Law Books of Oregon, why don't you ever tell us about these things that aren't practical and that don't Work Out? Do you think that we adopt All Freak Legislation that Comes Along? Do you think you can make a Goat out of Us Oregon People?
