This and Back-field Speed
Will Feature Football—
Yale Uses Open Play

(By Associated Press to Coos Bay Times.)
NEW YORK, Oct. 3.—Reports from the training fields during the last week indicate that in the football games to be played today the forward pass, together with speed in the backfield, will be relied on by the majority. For the first time in several years Yale is using the open formations and the game with the University of Virginia today is expected to bring out the extent to which the team will depend on this style.

**DEFECTIVE VISION
AMONG SCHOOL
CHILDREN**

An examination of the eyes of 50,000 pupils in the Buffalo schools revealed the fact that of this number the eyes of from 20 to 25 per cent needed thorough attention.

Many times the eyes of children are apparently normal, but as a matter of fact, are not. If the eyes are not perfect they are a great handicap in school work.

The Optical Department of the Red Cross Drug Store is in charge of an expert optometrist, who has exceptional facilities for telling you if glasses will improve your child's eyesight. There is no charge for this service, and they are always glad to do it for you.

The Student

Students of political economy—students of domestic science—students in every line of research—thinkers—prefer Ghirardelli's Ground Chocolate, not alone on account of the physical good it does them, but because it tastes better and is more easily assimilated than any other brand. Get a can to-morrow and note how good it is.

In hermetically sealed tins.

Ghirardelli's Ground Chocolate is the only original ground chocolate. It has been used in Western homes for over a third of a century and its popularity is growing day by day.
