

FINED \$100 FOR THEFT OF CALF

Lewis Petromoulx, of Allegany, Sentenced in Circuit Court By Judge Coke Today

Louis Petromoulx was fined \$100 in the circuit court yesterday afternoon on the charge of stealing a yearling heifer from C. A. Rodine at Allegany. The judge declared that on payment of \$50 the remainder of the fine would be remitted. Petromoulx immediately paid \$35 and was given five days in which to secure the other \$15.

According to the evidence produced, Judge Coke declared there was no room for doubt as to the intent of shooting the calf and that several of the jurors had come to him asking that he show leniency for Petromoulx.

A divorce suit was filed by Katrina Weber, who seeks to loose the matrimonial bonds from Nicholas Weber, a miner of Henryville, whom she declares drove her out of their home last Friday night and has at various times treated her in a cruel and inhuman manner. Judge Coke ordered Weber to pay \$75 suit money and \$25 a month as temporary alimony until the suit is decided. In addition he is to allow his wife the use of all their property and is restrained from interfering with her in any way.

The couple were married in 1894 and to them have been born ten children, seven of whom are still living and all of whom are under age, although one daughter, aged 17 years, is now married.

Judge Coke leaves in the morning for Lakeview, where he goes to hold court for Judge Benson. Although Lakeview is but 75 miles east of Klamath Falls, the judge must either go down to San Francisco and take the train by way of Reno, Nevada, or must travel the same road by way of Sacramento. These two routes are not only cheaper, but much faster, than to go by the stage.

Motion to allow Mrs. Fannie O'Donnell a new trial was argued by Attorney H. G. Hoy, but was refused by the court. Mrs. O'Donnell was convicted a few days ago on the charge of selling liquor on Sunday.

The argument raised by Mr. Hoy was that Prosecuting Attorney Lillqvist had gone outside the evidence in the case and had attacked the character of the accused, which Hoy contended was apart from the charge. He also declared that under the Home Rule law any violation of the liquor laws should be punished by the municipality of Empire and not by the state.

COQUILLE CULLINGS.

News of the Coquille Valley As Told by the Herald.

Clarence M. Ayres, of San Jose, Cal., who has been visiting his sister, Mrs. H. W. Young, in this city, died last Tuesday evening. His trouble was organic disease of the heart, and his trip here had been made partly in the hope that a sea voyage and a change of climate would do him good.

Katherine Terris, who was painfully hurt a few weeks ago by being dragged by her saddle horse, has almost entirely recovered from her injuries.

Articles of incorporation for the Gallier Hotel Company were filed this morning, indicating that Bandon is to have its new hotel.

D. R. Hedges, a man along in years and a newcomer here, died Friday at Arago, where he was employed in a camp. He was buried here Saturday.

SETTLE TITLE IN U. S. COURT

Eastside Property Involves in Suit of Herman Estate Settled in San Francisco

A verdict for the defendants in the case of Christian Herman versus Henry Sengstacken, John Hall, L. D. Smith, Taylor Siglin and the Title Guarantee and Abstract Company, which involved the ownership of about 280 acres of land in Eastside, was handed down yesterday afternoon in the United States Circuit Court of Appeals in San Francisco. Since last May the case has been there awaiting the decision of the court.

This definitely settles a case begun in the United States district court in Portland a year ago, when members of the Herman estate declared the land had been secured fraudulently from Herman and they asked the setting aside of some conveyances for the tract involved.

Tried in the United States District Court in Portland a year ago, in December a verdict was rendered in favor of the defendants. The plaintiffs then appealed it to the Court of Appeals in San Francisco, the law firm of St. Raynor and Upton appearing for them and Attorneys C. A. Sehlbrede and Peck & Peck for the defendants.

NORTH BEND COUNCIL MEETS

Bids for Street Improvements Opened—Warren Construction Company Will Pave

Bids for planking and paving of several streets in North Bend were opened at the council meeting there last evening and the work awarded to the lowest contractors. The Warren Construction Company quoted the lowest figures for the paving on Sherman Avenue and Moughman and Roop secured the contract for the planking on Montana Avenue.

Improvement on California Street will be run from California Street 400 feet north of Florida Street. The cost according to the bid of the Warren Construction Company will be \$26,914.52, this price including the concrete curbs at 85 cents a yard.

The work will be commenced as soon as the contract is signed was the substance of a communication to the members of the council and 120 days is the date set for the finishing of the work, though by agreement the council may extend this time or, if they believe it is warranted, may collect a fine of \$25 for every day taken over this time.

A contract drawn up by the company to cover the paving work was also submitted and read before the council. The clause asking for the payment of 80 per cent of the contract price before the opening of the work was rejected. City Attorney Derbyshire declaring this clause contrary to the charter of the city and that nothing could be paid until the paving was accepted. All assessments for this work will be made on the property owners directly concerned.

Further the contract of the paving company declared that the work will be done within an eight hour day except in cases of emergency when double pay will be given for the overtime work.

For the planking of Sherman Avenue the bid of the Moughman and Roop company was \$2,537.80 being \$40.90 lower than the second bid, that of the Anderson-Klockers company for \$2,578.70. The planking will extend on Montana Avenue from Sherman to the Pony Slough Bridge.

A petition of the Port Commission was read in which that body asked permission to make drain boxes or spillways across Railroad Avenue where the Commission is expecting to make a fill. This was unanimously granted them.

Bids on bonds to the amount of \$10,894.62 submitted by Perham and Gidley were accepted by the council.

Bradford Wheeler, assistant engineer of the Southern Pacific brought up with the council the matter of extending the harbor line, near the end of Railroad Avenue which will add materially in straightening the North Bend harbor line by cutting off the sharp angle at this point and extending the channel to correspond. The Southern Pacific company asks the franchise on the probable extension. No action was taken in this matter.

Twenty-nine charter amendments were read and passed by the council and will be submitted to the people at the city election in December. These proposed amendments are principally for the purpose of correcting small errors which have hitherto existed in the charter and will make little difference in their reading. It is important that they be passed declared Derbyshire and that the voters may be well acquainted with their substance he was empowered to draw the resolutions into pamphlet form for distribution.

For the second time Mayor L. J. Simpson brought up the question of setting fire limits declaring the time has come when new buildings which are to be erected must be protected from danger of fire by wooden buildings placed alongside of them. Assurance of safety must be given capital if new structures are looked for.

To bring the matter before the council in a correct form City Attorney Derbyshire was instructed to draw up a series of proposed ordinances for consideration and they cover not only the fire limits, but also provide for electric wiring, building and plumbing restrictions. These will be brought up at the next meeting of the council next Tuesday evening.

TOY SITUATION IN YEAR 1914

Coos Bay Importer Gives Views on Conditions Created By War

Much has been said and written about the shortage of Christmas toys and presents for the coming holiday season since the European war broke out. It is conceded that ninety per cent of the holiday goods sold in the United States are of European manufacture coming from Germany and Austria.

On the holiday goods situation, F. E. Westerberg of the Peoples' 5-10-15c Stores, who have stores at Bandon, Myrtle Point and Marshfield, and who import their goods direct from the manufacturers, says that the youngsters as well as the grown-ups of Coos county, need not worry about Santa Claus not being able to get an abundant supply for each one. Of course those firms who depend on local jobbers will be forced to pay higher prices, but toys will be abundant.

We anticipated our needs early in February and placed our orders with the American and European factories for this fall delivery and we feel tickled that during the last week we have received thirty-five large cases of European holiday goods and have notice of more on the way which came through the Panama Canal. From the present outlook we will receive at least ninety per cent of our import orders.

Of course the shipping from the war zone is badly crippled, but we are informed by the factory representative of New York that German factories are continuing activity and it is only a question of getting the goods through, but that even now some goods are being brought through.

The people of Coos county will be able to buy holiday goods just as cheaply as last year and we can even promise better values in many cases. In addition to our regular line, we will have a fine line of higher grade holiday goods which were bought right.

"Well, for our 1915 supply let us look for a 'Made in U. S. A.' stamp on our holiday goods."

NORTH BEND NEWS

Mr. E. R. Nelson of South Coos River was a visitor in town today. A large number of the members of the Eastern Star and W. C. T. U. of North Bend will attend the funeral of Mrs. Geo. Reynolds, who was a member of both organizations.

184 MARKET ST. W. MRS. OLIVE K. BROWN

is now prepared to do first-class dressmaking at reasonable rates. Street and house gowns, skirts, and blouses, dancing frocks, lingerie dresses. A trial order is requested. See our new fall books of Paris fashions.

STYLE and QUALITY

Correct dresses naturally consider style first, as this feature is noticed and admired before others; but important style is—Quality is the basis of hat making.

STETSON HATS

excel for style and quality.

Never Questioned

Royal Baking Powder is absolutely pure and wholesome. It is made from highly refined, pure, cream of tartar, an ingredient of grapes. Not an atom of unwholesomeness goes into it; not an unwholesome influence comes from it. It perfectly leavens the food, makes it finer in appearance, more delicious to the taste, more healthful.

Its superiority in all the qualities that make the perfect baking powder is never questioned.
