WED IN SUMMER.

On Saturday afternoon at the home of the bride's parents, Mr. and Mrs. Chas. Selander on Catching Inlet, Miss Elma Mae E. Selander and Mr. Elias M. Richardson were united in marriage by Rev. B. G. Bengtson. Promptly at 1:45 the bridal party, led by Estella Grant and Ellis Selander entered the parlors of the Selander home to the strains of Mendelssohn's wedding march. Followed then Hildur and George Selander, then came the little flower girl, Verla Wilson and the ring bearer, Owen Selander, and lastly the bride, who was met by the groom and proceeded to the altar, where the Rev. B. P. Bengtson, performed the sacred marriage ceremony according to the rites of the Swedish Lutheran church. After the blessing relatives and friends showered the young couple with congratulations and good wishes.

The bride was handsomely gowned in white satin and gold thread lace. She wore a veil reaching to the end of the long train. This veil was arranged on her head in the prevailing mode and was held in place by a wreath of orange blossoms which enhanced the blend beauty of the bride and made a beautiful picture.

The maids of honor were gowned in blue and yellow and the little flower girl made a picture in white and pink, while the ring bearer was "every inch a man" in white.

The groom wore the conventional wedding garb.

The spacious parlors of the Selander home were profusely decorated in white and green and in the main room an altar was formed in the corner where the ceremony was performed. This was overhung and festooned with greens and white roses.

The bride is the charming daughter of Mr. and Mrs. Charles Selander and the groom, who is a son of Mr. and Mrs. Jesse Richardson of Medford is a machinist in the employ of Gorst & King and is well and favorably known. The young couple will reside in North Bend after a short visit to Mr. Richardson's old home. Many costly and useful gifts were received in cut glass, china, silver and linen.

In the large and spacious dining room covers were laid for fifty guests and everything was there that could tempt the appetite of the most fastidious and certainly did honor to the head of the house.

An interesting feature of the afternoon was the christening of the month old son of Mr. and Mrs. Orville Wilson, who was christened Carl Norman, Mr. and Mrs. Chas. Selander, the grandparents, were God father and God mother.

BUNKER HILL SCHOOL CLUB

TWENTY PATRONS JOIN NEW PARENT-TEACHERS' ORGANIZATION—FINE PROGRAM RENDERED AT MEETING.

On last Friday afternoon some twenty patrons of the Bunker Hill school met at the school in accordance with invitations issued by the pupils for a social afternoon. After observing the work of the different departments, all assembled in the primary department room, where two pupils from each of the sixth, seventh and eighth grades debated the question: "Resolved, That the Panama Canal Will Make Better Times on the Pacific Coast of the U. S." The affirmative side was led by Violet Robinson, who was assisted by George Rourke and Marie Schwartz. The negative was argued by Geneva Archer, assisted by Francis Holmes and Spencer Carlson. Both sides did well, the decision being a majority of one for the affirmative.

Violet Robinson and Doris Galbraith sang a pretty duet, Marie Schwartz accompanying on the piano. Pupils were then dismissed and the patrons and teachers proceeded to organize a Parent-Teachers' Club. Mr. Drillette was elected president for the first three meetings, after which a new president will serve three and so on. Mrs. W. H. Phillips was elected vice-president and Mrs. S. A. Simonsen secretary-treasurer. Marie Schwartz then gave an excellent piano solo from Chopin, after which Mr. Drillette talked upon "The Health of the Child." The meeting adjourned to meet the first Friday in November.

Ruby Carlson of the eight grade, (Bunker Hill school), last year won a prize of \$2.50 on fancy work, and Doris Phillips of the sixth grade won one of \$3 at the Myrtle Point Fair in September. The school has recently added the fourth teacher, Miss Bessie Flanagan of Marshfield.

A PRAYER FOR PEACE

The following prayers were offered by Rev. Robt. E. Browning at the devotional meeting of the A. N. W. on the subject of peace.

In the name of the Father and the Son and the Holy Spirit. Amen. O God, our Father, Who hast made of one blood all nations of men for to dwell upon the face of the whole earth, and didst send Thy blessed Son to preach peace to them that are far off and to them that are nigh; Grant that all men everywhere may seek after thee and find Thee. Bring the nations into Thy fold and add the heathen to Thine inheritance. Give us a vision of permanent world-wide peace and the seal earnestly to strive for it. And we pray Thee shortly to accomplish the number of Thine elect and to hasten Thy kingdom, we ask through Him who is the Prince of Peace, Thy Son, our Savior Jesus Christ, Amen.

O God, Who art the author of peace and the lover of concord, in knowledge of Whom standeth our eternal life, by whose sovereignty all emperors, kings and presidents hold sway, give, we beseech Thee, to those charged with the government of nations the grace seriously to lay to heart the dangers of their unhappy divisions and the realization of the dreadful sacrifice of human life in time of war. Look down with infinite mercy upon all

STEAMER ELDER SAILS SOUTH IMPROVEMENTS ASKED OF PORT

With a heavy passenger list of seventy-six, the George W. Elder arrived yesterday at 2 o'clock from Portland and left at 5 o'clock for Eureka. Lateness in reaching here was occasioned by the taking aboard of cannery supplies at Astoria.

Records Since the First of the Year Show Collections of \$1289.50.

With a monthly average of \$167.27 as fines paid into the city treasury, City Recorder Butler considers that he has done a fairly good business since January 1. For September \$153 was collected by fines and for the past nine months, or since the first of this year, exactly \$1289.50 has slipped into the city's coffers.

Glancing down the columns of the big recording book in the office of the recorder it is plainly shown that it is the "little things that count," for the great total has been built up, for the most part, at \$5 a clip, the usual fee for the first appearance after having been picked up by the police officers when "four sheets in the wind."

For January only \$85 was collected, a fact attributed to the first month of the year coming directly after the holidays, but during the next month a heavy recuperation took place and the fines went up to \$254, the record for this year. In March \$120 was taken in, \$160 in April, \$247 in May, and June with only \$75 went to the lowest ebb. July came back with a total of \$142.50 into the city treasury and August netted \$174.

PORT OF COOS BAY. By Henry Sengstacken, Secy.

STOP THOSE EARLY BRONCHIAL COUGHS. They hang on all winter if not checked and pave the way for serious throat and lung diseases. Get a bottle of Foley's Honey and Tar Compound, and take it freely. Stops coughs and colds, heals raw inflamed throat, loosens the phlegm and is mildly laxative. Chas. T. Miller, Ed. Equizer, Cannelton, Ind., had bronchial trouble, got very hoarse, coughed constantly from a tickling throat. He used only Foley's Honey and Tar Compound. Was entirely relieved. Wants others to know of Foley's Honey and Tar. Sold by Owl Prescription Pharmacy, Frank D. Cohan, Opposite Chandler Hotel, Phone 74.

ALONG the WATERFRONT. The Daisy Putnam arrived in early yesterday from San Francisco bringing a miscellaneous cargo of freight.

The Hardy arrived in Sunday from San Francisco and after discharging her freight left for the Simpson mills to take on cargo.

The gasoline schooner Randolph arrived in this morning from Rogus River. She left there yesterday morning, having been harbored for three days. This afternoon she sailed for Portland having in her hold a cargo of salmon.

NORTH BEND MANAGER. Harold Simpson has been elected manager of the North Bend High School Athletic Association for the coming year.

REVERSING A PHONOGRAPH RECORD. A remarkable curious experiment may be performed with any ordinary phonograph. The sound box is reversed so that the needle slopes the other way, enabling the disc to be turned backwards by the finger being placed near the center. The effect produced is extremely astonishing. You hear the human voice singing songs backwards; you hear the harmony of Wagner backwards; plain English sounds like a Chinese language. The most remarkable effect is perhaps to play a chime of bells in this reversed manner. The sound rushes up and up—but there is never a single strike or clash of a bell; the strike on the ear is reversed, and is nothing but a sharp "cessation of sound."

Statewide prohibition became effective in West Virginia July 1, 1914. On that date there were 100 prisoners in the workhouse of Wheeling. On August 1, just one month later, the city workhouse was empty. The guards and cooks were released until the monthly payroll was decreased from \$48,400 to \$7400. Even the poorhouse feels the effect of prohibition.

THE SALOON AND TAXATION.

The following is an editorial taken from Collier's Weekly of May 16, 1914: "It is often asserted that saloon taxes are essential in paying our governmental bills. The fact is that the saloon wastes time, incapacitates people for work, turns into liquor production money which should have been saved and invested, and, above all, is a main factor in creating the social cancer of crime. The commission that has exhaustively studied drunkenness in Massachusetts lately presented its report to the State Legislature and stated: 'AT LEAST ONE-THIRD OF ALL CRIME (aside from public drunkenness) IS DIRECTLY OCCASIONED BY THE USE OF ALCOHOL. Massachusetts prison statistics show that 96 per cent of all criminals in our prisons in 1912 were INTEMPERATE BY HABIT.' The saloon stands in the same relation to the community as the gambler who lends him a dollar so he can get to his next job. That dollar is not benevolent or necessary; neither are saloon taxes.

RUM AND RUI.

The following is the first municipal poster in the United States against alcoholism. As such it has a unique interest. It was placed by the authority of the mayor and park commissioners of Cambridge, Mass., in all parks and public buildings. It helped to put Cambridge dry and is now being used by Salem and other eastern cities:

ALCOHOL! THE PUBLIC THINKS—It is only heavy drinking that harms. EXPERIMENTS SHOW—that even moderate drinking hurts health, lessens efficiency.

THE PUBLIC THINKS—Alcohol braces us for hard work and against fatigue.

EXPERIMENTS SHOW—that alcohol in no way increases muscular strength or endurance.

ALCOHOL LOWERS VITALITY; ALCOHOL OPENS THE DOOR TO DISEASE.

Resolved, at the International Congress on Tuberculosis, 1905, to combine the fight against alcohol with the struggle against tuberculosis.

At the Massachusetts General Hospital, Boston, the use of alcohol as a medicine declined 77 per cent in eight years.

Most modern hospitals show the same tendency.

Alcoholism is responsible for much of our insanity, much of our poverty, much of our crime. Our prison commissioners reported that 95 per cent of those who went to prison in 1911 had intemperate habits.

Yet the public says: "We need the revenue from liquor."

The public should know how small is the revenue compared with the costs of carrying the wreckage.

YOUR MONEY SUPPORTS THIS WRECKAGE. YOUR WILL ALLOWS IT.

Your indifference endangers your nation.

Commercialized vice is prompted through alcohol.

Arrayed against alcohol are economy, science, efficiency, health, morality—the very assets of a nation, the very soul of a people. THINK IT OVER.

Who is the first man to be laid off, and the last man to be taken off? THE MAN WHO DRINKS.
