The affair will be public and a general invitation has been extended to all to attend. The ball marks the opening of Marshfield's social season and bids fair to be quite an event in social circles.

NORTH BEND LIBRARY

The North Bend Library Association met at the library Friday afternoon. In addition to the general routine of business the committee appointed last month on Constitution and By-Laws reported in part and asked for another month's time. The object of the Library Association, as set forth in the proposed Constitution is:

First, to establish, or cause to be established, in North Bend a free public library and such branch libraries reading rooms and educational centers as the city may from time to time need.

Second, to provide, or cause to be provided, a class of amusements, entertainment and recreation in the city that will be conducive to the reading of good books.

The playground movement is a part of the library extension work, was heartily endorsed by everyone present. The idea is that the children are the readers, both today and tomorrow and that the right play gives an appetite for right reading.

and right living. The committee on Constitution and By-Laws further recommended that the association ask the city council to appoint a library board of three persons to act in conjunction with the association in carrying out the purpose of the library association. This recommendation was discussed at considerable length and left to be decided at the next meeting. The librarian reported a constantly growing patronage of the library and that the demand for current magazines is much larger than the supply. Individuals and organizations are asked to contribute magazines so the reading table may be of larger usefulness. The Association was adjourned to meet the third Thursday in November.

Celebrate Edison Day in your own home

The most fitting tribute any of us could possibly pay to the genius of Edison on October 24, would be to place in our homes the highest development of his greatest invention--

EDISON MAZDA LAMPS

Electric light is now an inexpensive luxury that all may enjoy--for EDISON MAZDAS have taken electric light out of the high-cost-of-living list and placed it among the economies. EDISON MAZDAS give from 3 to 6 times as much light as the ordinary carbon lamp give--without using any more electricity. That means more light without any increase in your lighting bill.

If your house isn't wired--let us tell you how easily and cheaply the work can be done.
