BETTER SPUDS SMITH'S HOPE

A free selling service for seed potatoes and seed corn is being organized for Coos County farmers by J. L. Smith, County Agriculturist. The aim is to raise the standard of these crops in the county by encouraging more careful grading of the seed and by bringing together farmers who have reputable seed to sell and those who wish to buy. If farmers who have seed to sell will send in to Mr. Smith, at Coquille, the number of bushels for sale, name of the variety, stating whether early or late, grown on upland or bottom land, when planted and when harvested, this information will be placed in suitable form for sending to prospective buyers of seed. Likewise, farmers desiring to buy seed should send in their names, specifying the amount and kind of seed needed. This information will be furnished to buyers and sellers without charge.

Mr. Smith believes it would be to the advantage of sellers to send in a guaranteed sample of three or four potatoes or ears with their information. These samples will be placed on exhibition in the office of the agriculturist in order that prospective buyers visiting the office, may get an idea of the quality of the seed each man has for sale. Mr. Smith will not handle money or make agreements for contracting parties; he will simply act as a go-between in bringing buyers and sellers together, thereby aiding in the distribution of good seed throughout the county.

Farmers are urged to send in the information requested as soon as possible so that their names may appear on the lists to be issued. Growers desiring information regarding the selection of seed potatoes and seed corn and a knowledge of the most desirable types may obtain this information by addressing Mr. Smith.

Heating Plants

The Pioneer Hardware Co. of this city state that they are putting in more heating plants, both in business buildings and residences, than ever before. This shows plainly that people here are fully abreast of the times and appreciate a clean, even and economical method of heating the whole house at a time or as much or little, as desired at any time. The heating stove, with its dirt and ashes, requiring constant watching, constantly varying in temperature and only effective in the room where it is placed, always was a nuisance.

A good heating plant put in right costs much less than one would think, and is much cheaper to run than stoves. They will cheerfully give you an estimate of the cost without charge, and they guarantee all their work.

STRANDED IN ROSEBURG

The following from the Roseburg Review will be of interest here as the "1915 Girls" held forth in Marshfield and other Coos county towns last week:

"George Slocum, a member of the '1915 Girls' theatrical company, was arrested by Officer Ketch on a charge of using profane and abusive language. The prosecuting witnesses are Babe Meryle and Dolly Adams, also members of the show troupe.

"The trouble is alleged to have occurred at the close of last evening's performance, and from the story told by the girls, Slocum called them a number of vile and indecent names. What originated the trouble could not be learned.

"Upon being arraigned in the Recorder's court Slocum said he had a wife and two children, and was without funds. Taking the humane view of the case, Recorder Wimberly allowed Slocum to go on his own recognizance. He will appear in the Recorder's court for trial at 10 o'clock tomorrow morning.

"It is understood that the girls making the complaint severed their connection with the theatrical company and will leave Roseburg some time tomorrow."
