"A FLEET IN BEING."

THE English and French fleets are appropertly keeping the German fleets "bottled up." Yet the insurance rate on tritish ships bound to British and neutral European ports is still about 1 1/2 per cent. On American ships bound for the same ports It is only three-quarters of 1 per cent.

Because there are a few German cruisers in the West Indies or thereabout, British ships bound to South American ports last week had to pay an insurance rate of 3 to 4 per cent. The rate for American ships bound

EIGHT HOURS FOR THE LOGGER.

It is not difficult for the farmer to figure out the disastrous effects upon him of the adoption of the universal eight-hour law. To the woman who employs household help it is also a simple problem. Those requiring nursing can see a trebled expense in that particular. But as to some workmen the menace is more indirect and less readily observed.

In the state of Washington, where a similar law is before the voters, Alex Polson, a big logging operator, has calculated the possible results to workmen in the woods. Above is all that Mr. Hawley will have to say to this community regardng the statements of his opposition. The egotism, bombast and small attempt to belittle his opponent's work in Congress by paid advertisement should in itself be answer enough to the people of this district to show the callbre of the man who is seeking their suffrage; Coos county should KNOW that Mr. Hawley has secured every appropriation for its harbors and rivers that that was recommended by the Board of Army Engineers, and appeared before them many times to get favorable action. No other Congressman in the United States has done more, no matter what state or district they represented or to what political party they may belong.
