

MYRTLE ARMS TO BE FORMALLY OPENED TO THE PUBLIC SOON

F. E. Conway Announces Public Reception Next Thursday for Formal Opening

Mr. F. E. Conway announces the Myrtle Arms will be open for inspection from two until four o'clock in the afternoon and from eight to ten o'clock at night, Thursday, November 5th. All interested in visiting these beautiful apartments are cordially invited to do so at this time. The majority of the guests will keep open house for their friends and the management will throw open the unoccupied apartments and roof garden at this time. Mr. Conway gave out the following details.

There will be music in the Entertainment Hall and refreshments will be served on the roof garden. A post card picture of the building will be given each visitor.

The following Patronesses will act: Mrs. Geisendorfer, Mrs. J. C. Hammel, Bandon; Mrs. A. J. Sherwood, Coquille; Mrs. Stemler, Myrtle Point; Mrs. Fred Hollister, Mrs. C. M. Byler, North Bend; Mrs. F. E. Allen, Mrs. Wm. Horsfall, Mrs. J. W. Bennett, Mrs. A. R. O'Brien, Mrs. Houseworth, Mrs. M. C. Maloney, Mrs. J. S. Coke, Mrs. H. Songstaken, Mrs. J. H. Flanagan and Mrs. H. Lockhart, of Marshfield. Fifty prominent business and professional men will act as a Reception committee and will take pleasure in showing the public through the building, explaining its construction, etc.

The people in Marshfield and surrounding country do not realize that towns of this size rarely ever can boast having as large, modern and expensive an apartment house as the Myrtle Arms. The investment represents approximately \$20,000.00 and a year's hard work by the owner. The building contains only the best of material and workmanship throughout.

It is improvements like these that mark the mile stones on our way to become a city and should have the good will of every loyal citizen.

The building is of Spanish Mission design, seldom seen outside of Southern California, containing 22 apartments, including the Janitors and has an equal number of fine bath rooms. (The largest plumbing job ever installed on Coos Bay.)

There is installed in the building a hot water heating system and a central hot water system for domestic use, with a five hundred gallon storage tank, giving an abundance of hot water from every fixture, at all hours, free to tenants, the heating being done with an oil burning system. There is a fifteen thousand gallon storage tank for crude oil located in front of the building, from this the oil is electrically pumped and then forced into the furnace by air, giving an intense heat. About one thousand gallons of oil per month is consumed.

The English basement contains gas and electric meter rooms, laundry and dry rooms, trunk room, garbage room, janitor quarters, electric bath room with shower bath and dressing room etc.

The entrance is beautiful with concrete steps, tile landing, marble wainscoting, large myrtle wood door and castings, with plate glass, brass nest letter boxes and a telephone to each apartment, roof garden, etc.

The lobby has rare and beautiful specimens of myrtle panels. The North Bend Manufacturing Co., has taken great pride in getting out these and the rest of the myrtle used. The second floor apartments are finished in myrtle and mahogany with a beautiful hand rubbed finish. The name Myrtle Arms (Facile Princeps) was suggested from the fact that this beautiful wood is native to this section.

The beds are the very latest patent oscillating and disappearing each with its private dressing room.

The kitchens are perfect dreams of compactness, including a \$46.00 gas range, white enamel ventilating hoods, cooling closets, flour bins, bread boards, drawer and cupboard room galore, ironing board and kitchen table disappearing in the wall, laundry tray under drain board, etc.

The furnishings are the very best and the entire building is richly furnished, complete to the last piece of silver and linen.

There is a beautiful roof garden with seats, cluster lights and cozy corners, also a modern entertainment hall with a hardwood dancing floor, piano, etc., where the ladies of the

house entertain. The apartments are vacuum cleaned and windows washed once each month by the Janitor, making house keeping a real pleasure instead of a drudgery. Rentals range from \$25 to \$85 per month. The patronesses and Reception Committee together with their husbands and wives, will attend at the Myrtle Arms, Monday evening from eight to eleven o'clock to acquaint themselves with the building.

VOTERS ATTENTION — M. H. HERSEY received the ENDORSEMENT at the PROHIBITION Convention and Out-to-Win League. (Paid Adv.)

WHY NOT TELL THE TRUTH?

Editor Times:

Inasmuch as I have been attacked and my record in office assailed by Mr. Elbert Dyer, who would like the people to retire me and elect him to the office of County Commissioner, I am putting the following plain questions to Mr. Dyer.

1st. What roads have you ever built, to earn the belief of "the people of Bandon," that you have any "ability to serve them?"

2nd. What have you ever done to make the people of Bandon, or any other place believe that you can "make a better showing with the people's money than has been made?"

3rd. In the light of the fact that there has not been spent on the roads of this County, any million dollars in the last five years, are you not guilty of deliberate falsehood in making such a statement?

4th. Why do you further state that there has been spent "during 1913 the immense sum of \$264,895.25 for road work," when you know, or ought to know if you are fit to even run for public office that this sum is greatly in excess of the total funds available for 1913, even including "special road taxes" over which the County Board has practically no jurisdiction?

5th. Who of the people of Bandon are "dissatisfied with the present incumbent, and have united in demanding that you make the race," save a handful of disgruntled and disappointed calamity howlers, who either have been turned down in some attempt to graft the County, or

have been deprived of some "easy pickings?"

6th. How do you sustain your statement that "the people have unanimously urged you to become a candidate," when the record shows that at the primaries I received, right in Bandon, a majority of votes over the strongest man my enemies could run against me?

7th. You state that you "own three ranches" but you neglected to state that you seek election to the County Board for the sole purpose of using your position to get improvements to roads which will benefit these ranches. Why do you not tell the whole truth while you are about it?

8th. What "movements that were intended for the best interests of the County" have you been "identified with" during your fifty years boasted residence in Coos County.

9th. You brag about your "ability" and your "property," but have you ever demonstrated any of this vaunted ability in the requirement of any property that you did not inherit from your relatives.

10th. Why did the people of Bandon, four years ago, select me, a newcomer who had only been in the county only six months, as a candidate for this office, (without even consulting me whether I would have it or not,) and overlook such an old resident as you, if you possess the people's confidence and the great abilities of which you boast.

11th. If you are such a paragon of perfection for this office, why have you not come out like a man, and made a clean, open and above-board campaign, for election, instead of waiting till the last minute so to speak, and resorting to the cowardly "shoot and run" methods which you have adopted?

12th. Can you cite a single instance of any project with which you have been identified, that has proved a success?

13th. If as you state in your published advertisement, you really cannot afford to spare the time required to fulfill the duties incumbent upon a commissioner, how do you reconcile this statement with the closing paragraph of your "paid adv.," wherein you state that you will "attend to same to the exclusion of your private affairs?"

AND FINALLY, HOW CAN YOU HOPE TO GAIN VOTES BY INSULTING THE INTELLIGENCE OF THE VOTERS BY USING DECEPTIONS IN YOUR PUBLISHED STATEMENTS WHICH ARE SO EASILY BROUGHT TO LIGHT? WHY NOT BE HONEST?

GEORGE J. ARMSTRONG

Now is the Time to Select Your Heater

from the Largest Line Ever Shown in Coos County

We have heaters for any service required and at prices that will fit any pocket book.

BUILDINGS AND GROUNDS, EASTERN OREGON STATE NORMAL SCHOOL

BE JUST TO EASTERN OREGON

Although embracing about two-thirds of the state's area, Eastern Oregon now has no state school of any character. Restore to it the Eastern Oregon State Normal School by voting

316 X YES

Cast your ballots for the cause of education, for the betterment of the public school system, for the better training of Oregon's young men and women who wish to become teachers. It will add but a feather's weight to the burden of your taxes.

ONE FORTIETH OF A MILL

or two and one-half cents annually on every thousand dollars assessed valuation, as provided in the millage tax bill referred to the people by the Legislative Assembly, will restore to the state's use the Eastern Oregon Normal's plant at Weston, consisting of one main building, two dormitories, a president's cottage, and 10 acres of ground.

Eastern Oregon needs this school. Oregon needs it, and also needs the Southern Oregon Normal at Ashland. Three normal schools are none too many for this great commonwealth.

Reflect that if you pay taxes on \$2000, the permanent and adequate maintenance of the Eastern Oregon Normal will cost you but five cents each year.

SAVES REPAIR BILLS

GAS ROOM HEATERS are inexpensive to buy—cheap to operate. They save their cost over and over again in the colds, sore throats and other ailments they prevent.

For Fall and Spring heating they are ideal. Useful during the coldest months for auxiliary purposes—to help out the regular stoves or furnaces—to warm rooms quickly in the morning.
