Representative W. C. Hawley
 Republican Direct Primary Nominee
FOR CONGRESS

He has made good, securing more than \$5,000,000 of federal funds for improving waterways, etc. in the First District. His average annual appropriation for Coos Bay is more than two times the average size of appropriations secured by his predecessors, since the waterway re-estimated federal aid.

The House has taken favorable action on ten of Mr. Hawley's bills that are not pension bills, and other silly statements of opposition are refuted in State pamphlet showing his work.

He was the first to oppose "secret" reports on homesteads and is working for revision of public land laws in interest of entrymen, and the elimination of all agricultural land from the reserves.

He has not missed 10 days in the past 600 that Congress has been in session. He is a Faithful, Honest and Able Public Servant.

**Vote to Save
 Industrial Oregon**

VOTE "NO" NO. 329 AND "NO" 331

The very life of the future manufacturing and industrial progress of Oregon hinges upon the defeat of the so-called "Water Front" bills, to be voted on Tuesday, November 3rd.

So cunningly and adroitly are these bills worded there is grave danger that many people will be deceived.

If these measures become laws the result will be that the State will take title to the tidelands and submerged lands and will be prohibited from selling any of these lands. They can only be leased for docks. No more ship-yards, saw-mills, canneries or other plants requiring access to deep water—nothing but docks, docks, docks.

Every citizen of Oregon—wage earner, farmer, business man or woman, wants to prosper. These measures if enacted, will throttle progress at the gate. Investors will shun Oregon. This means no work for the wage-earner, nothing to pay the store-keeper with and therefore nothing to pass on to the farmer or producer. Let no one think these bills do not concern him.

Before you go into the booth to vote, read 329 and 331 carefully. Talk to your neighbors about them.

Oregon is rich in natural resources, but poor in development. What the state needs above everything else is outside money to come in and develop its resources. That means GOOD WAGES, PLENTY OF WORK, GOOD PRICES and GOOD TIMES.

This is not a political question; it concerns only the prosperity of Oregon and of you.

Give Progress and Good Times a helping hand by voting "No" 329 and "No" 331.
