

### AMATEUR ATTEMPT TO HOLD UP STAGE

#### G. Sandern, Drunk, Stops Machine From North Bend, In Daylight

Gus Sandern was tried on the charge of being drunk in the police court this morning and paid a fine of \$5 out of an \$80 roll that he carried.

On the open road near the Stave Mill and in broad daylight, an amateur and altogether unprofessional attempt was made yesterday afternoon to hold up a machine of the Gorst & King line bound for Marshfield. With a hand in his pistol pocket, the would-be bad man, G. Sandern, muchly drunk, jumped on the footboard of the machine and commanded the driver to turn about again for North Bend. It was while carrying out this order that Jack Flanagan stepped out of the car and grabbed the man, who was found to be unarmed. After reaching this city Mr. Flanagan returned to the scene with C. A. Jensen and brought Sandern back to the city jail. On examination more than \$80 was found in his pocket, which seems to discourage the idea that the holdup was with robbery the prime motive.

The machine had left North Bend about 5 o'clock and near the Stave Mill was stopped by Sandern who jumped into the middle of the road waving his hands.

With the machine stopped the man thrust his hand into a rear pocket as though to draw a gun and commanded the driver to turn about for North Bend. A woman, Mrs. Ragdale, was in the front seat, and Jack Flanagan and Charles Stauff in the rear.

As the driver began turning the machine Sandern stepped off into the road, still keeping his hand in his pistol pocket. Jack Flanagan entering into conversation with the man, quietly stepped from the car and with a quick jump grabbed the man's arm. No gun was found and he was started down the road.

At the police station Gordon Smith pinned a police star on C. A. Jensen and he, with Jack Flanagan, went back and picked up Sandern, who had proceeded on his way to North Bend. The police declared the man was drunk and sought only to get a ride to North Bend.

### QUESTION FOR THE DAY.

Will a lodge man really do more for his fellow members than for other people? Advise a man to submit to a dangerous and unnecessary surgical operation and he will probably do it. But advise him to exercise in the open air and look to his diet, and he won't do it. I never knew but one girl who was not good looking at 17. Some women just naturally know how to use dry goods, and if imagine they do not work any harder than those who think and think, and try on, and then don't look very well. How often the people applaud when you do not approve!

### BARTON CASE TO BE TRIED LATER

#### Hearing at Roseburg Will Probably Be Deferred Until Spring—Accident Cause

It is likely that the retrial of J. S. Barton, of Coquille, on the charge of assaulting Miss Madge Yoakam, which was set for November 16, before Judge Hamilton at Roseburg, on a change of venue, will probably not be tried until the February term of court.

C. F. McKnight, attorney for Mr. Barton, has asked the postponement of the trial until then because Miss Edna McDonald, or rather Mrs. Wall, who was the star witness for Barton, will not be able to attend the trial. It was stipulated that a transcript of her testimony at a former trial can be introduced, because if Miss Yoakam is put on the stand again, she may give new testimony which they will desire to offset with that of Mrs. Wall. Mrs. Wall suffered the loss of her foot by being run over by a logging train in Coquille a few weeks ago and last Sunday became a bride. However, it will be some time before she can move around.

### THE WOP.

When the line is surveyed through the scenery For tunnel and culvert and cut— When the contractor has his machinery "The big job" is ready—all but—"All but" means the shovel and pick of it— The hunkies who work till they drop. And so, in the dust and the thick of it, Look for the Wop! The big bosses bear all the fret of it They are the fellows who plan; But the backbreaking strain and the sweat of it Fall to the laboring man— Dago and Russ and Hungarian— All of the immigrant crop. Where is the job we could carry on— Save for the Wop! Subject for scorn and bedeviling; Victim of fraud and chicanery— Still, with his spade, he is leveling Routes over mountain and plain, Progress? His soul is the breath of it; Lacking his hand, it would stop. Facing the danger and death of it Here is the Wop! He knows the hardest and worst of it; He knows the hard-driven toil, Toe ache and the heat and the thirst of it— Never the dream—or the spoil. Caves and explosions make mud of him— Who cares a damn! Let him flop! Progress is stained with the blood of him— Only a Wop! —Berton Braley.

### LATE RETURNS FROM ELECTIONS

#### DRY COMMITTEE SAYS THAT EVERY COUNTY IN THE STATE VOTED FOR DRY

PORTLAND, Or., Nov. 5.—The canvass of the returns by the Committee of One Hundred indicates that the Oregon Dry Amendment has passed by a majority of over 30,000, every county in the state apparently voting dry. Complete returns from 307 precincts in Multnomah county give a dry majority of 624. As the remaining precincts are all those showing a dry majority on the incomplete returns, Multnomah county is probably safe in the column by between 700 and 800 votes. This was the statement of Orton E. Goodwin, campaign manager for the drys.

Sheriff Word also has a lead of 17 over his opponent, T. M. Hurlburt.

### THE WATERFRONT AVIATORS IN BILL IS BEATEN SERIOUS FALL

Measure Governing Tidelands, Etc., Defeated in Oregon by About 20,000

J. W. Bennett received a telegram from Portland this morning announcing that the waterfront measure, affecting tideland ownership, had been defeated by about 20,000 majority in the state. Portland alone gave about 8000 against the measure. These figures are estimates based on partial returns, but the returns were definite enough to warrant this claim. Locally a decided majority will be given against the measure and local owners of tidelands and waterfront property were very much relieved.

### THE FIRST STEAM WAR VESSEL

One hundred years ago October 29, the world's first steam war vessel, the Demologos, afterward rechristened the Fulton in honor of its constructor, was launched from a privately owned shipyard on the New York bank of the East River. Its construction had been inspired from the War of 1812. Not much longer than the modern excursion boat, measuring in length 167 feet, and built of wood, the vessel slipped her mooring on June 1, 1815, and proceeded into New York Bay under her own steam upon her maiden voyage. On the Fourth of July she again ventured to sea for a speed trial, sailing 53 miles in eight and one-half hours. This pioneer vessel of modern navies never received her baptism of fire, peace having been declared before the Demologos was ready for battle, but she proved an instrument of destruction when her boilers exploded while she lay in the Brooklyn Navy Yard on June 4, 1825, destroying the vessel and killing 26 persons.

### THE HIGHEST TYPE OF LIFE

TO DO MY daily work with sunshine on my face and honey on my tongue. To be strong in the presence of temptation; alert in the presence of opportunity; open-eared to the call of conscience for service of sacrifice; open-minded to views of truth which differ from mine. To make duty a joy and joy a duty. To work and not worry; to be energetic and not fussy. To be true to myself and false to no man; diligent to make a living and earnest to make a life. To cherish friendships and guard confidences; to be loyal to principle at the cost of popularity. To make no promises I cannot keep, and to keep no foolish promises. To be faithful to every honest obligation. To be sweet-tempered under criticism, charitable in my judgments, discriminating in my adjectives. To honor no one simply because he is rich; to despise no one simply because he is poor. To be respectful, not cringing, to the great; sympathetic with the sorrowing; gentle to the weak; helpful to the fallen; courteous to all. To be simple in my tastes; quiet in my dress; pure in my speech; temperate in my pastimes. To companion with great books; cherish inspiring thoughts, and to keep my body on friendly terms with water and fresh air. To fear nothing but sin; hate nothing but a clean life; covet nothing but character. And at last to leave the world a little better for my stay; to face death without a tremor, with faith in Christ who tunneled the grave that I might walk into the larger and perfect life.—Selected.

Dr. Dix says that "about the only man that a man gets everything he wants inventors produce a better, more reliable and discontent return."
