BAY PARK IS TO HAVE NEW CHURCH

Bay Park and Bunker Hill Residents Unite in Project—Some Donations.

The people of Bay Park and Bunker Hill are making plans for the erection of a church building. At the last Methodist conference a missionary was appointed for the district, including these two communities and also Eastside, so that the church will probably be under the supervision of that denomination. A subscription list has been circulated and an amount secured which will permit of the speedy erection of a building especially as many have contributed labor. R. A. Corthell giving the roof to the edifice as his contribution. The C. A. Smith company has given liberal reductions on the lumber and plans are under way for the securing of a free building site.

SENATORS LEAVE ON BREAKWATER

Pleasant Trip Yesterday to Coquille and Bandon—Back Last Evening

Not a hitch marred the trip of Senator Chamberlain and Senator Lane over to Coquille yesterday and down the river to Bandon, where a short business meeting was held with the Port of Coquille Commission. The legislators returned to Marshfield on the evening train and at one o'clock left on the Breakwater for Portland.

At Coquille the Senators were met by many of the prominent citizens of that city and the entire Port of Bandon Commission who also accompanied the party to Bandon. A. J. Sherwood and L. H. Hazard both went down from Coquille.

Arriving at Bandon the party was just in time to see the Speedwell leaving out over the bar for Coos Bay. The boat from up the river went farther down the bay than the Senators might see for themselves the situation on the bar there. A few minutes later they inspected the life-saving station and landing in Bandon were met by a large crowd at the dock, who gave the party a rousing and enthusiastic greeting and the Mayor and prominent citizens welcomed the Senators to the city.

Less than two hours were spent in Bandon. At the business meeting, with the Port, the Senators went over the plans for the improvement of the Bandon harbor and the cost estimates. They told the Commissioners that this work has not yet been recommended by the Government engineers. The Port of Bandon has offered to match dollar for dollar with the government to the extent of \$250,000 for this work.

In Coquille Senator Harry E. Lane met many old boyhood friends, and one of them told him that "Mother" Leneve, an especial old friend of the Senator's was anxious to see him. "Tell her I'll be right up," he said and left the party to visit the old woman who was too feeble to come to see him. Captain Magenn and Hugh McLain accompanied the Senators from here on their trip yesterday.

Mrs. Collum of Bay Park, who has been quite ill, is reported improved. Mrs. Fred Grenolds of Bunker Hill, who has been quite sick, is reported improving. Mrs. Thomas Maginnis, who has been ill at Mercy Hospital, has returned home much improved. Mrs. John McClary of Marshfield, who underwent an operation in Bandon, will return home in a few days.

TALLANT SALMON CANNERY CLOSES FOR THE SEASON

Oriental Crew Leaves on Breakwater—Return Machinery to Portland

Salmon fishing on Coos Bay is practically done for the remainder of the year. On Friday the season closed until December 10, when it reopens until early in March. The Tallant Cannery will not reopen until next year and today on the Breakwater Manager John Lamure shipped most of the can sealing machinery back to Portland to the American Can Company. Fifteen of the Chinese and Japanese employees left for Astoria.

That there will be little else in the salmon line this year besides steelheads, is the statement of Mr. Lemure and these he is unwilling to can. On the Breakwater today went the last of the season's tinned shipment, between 500 and 600 cans. There have been put out by the Tallant Cannery since it opened on August 10, practically 11,000 cases of fish. On October 14 they had a run of 3000 salmon. This was the height of the season and the best run recorded here for several years.

ALONG THE WATERFRONT

Before noon today the Adeline left the Smith mill dock with a full cargo of lumber for San Francisco and a short time afterward she crossed out over the bar. Though she was expected in last evening, the Yellowstone, of the Arrow Line, failed to arrive in from San Francisco until this morning. She will leave this evening for Portland. Tomorrow morning at 11 o'clock the Nann Smith is scheduled to leave for San Francisco.

Although there were an unusual number of forest fires on the National forests of Oregon and Washington this year, the loss of merchantable timber has been relatively small.

Nine Days' Testimony Has Been Taken—Decision May Be Made Soon.

Testimony taking in the suit of Hilstrom and others versus the city and the Port of Coos Bay, supposed to have been finished today, is postponed until Monday, when it probably will be completed. That Judge Coke will hand down a decision is the general belief of the lawyers.

Yesterday afternoon R. H. Coxe, witness for the Port, testified the plans of the drain box were inadequate and this morning Superintendent Miller of the Puget Sound Bridge & Dredging Company, on the stand declared that he, too, thought the plans had not been properly made and that the fill could not have been made in any other manner than the one used and that if the drain pipe had been placed alongside the drain box it would have broken sooner than it did.

The three sides in this case, through their attorneys, will now prepare and submit briefs to Judge Coke with their contention of facts and what the law shows for these facts.
