ADVISES ECONOMY IN CITY AFFAIRS

Councilman Copple Has Something to Say About Candidates for City Council

Editor Times: It is to be hoped that the voters of Marshfield will not overlook the importance of the city election next Tuesday.

By all means the men who are pledged to strict economy and law enforcement should be elected. Bad management and extravagance a few years ago is costing Marshfield more than \$4000 each year and will continue to do so for a number of years to come.

I have had some part in persuading H. W. Painter, Geo. A. Baines and Geo. E. Cook to become candidates for councilmen. I have many reasons to believe these men if elected will work to make it possible to reduce the people's taxes and that they will stand firm for strict law enforcement.

Very truly yours, R. A. COPPLE.

BUSINESS GROWS BETTER RAPIDLY

President Carlton of Western Union Declares Prosperity is Everywhere Evident

PORTLAND, Or., Nov. 27.—Newcomb Carlton, president of the Western Union Telegraph Company, arrived in Portland bringing with him two carloads of company officials. He also brought predictions of prosperity.

A lot of our recent commercial prophecies smack, as you might say, of the tinkling cymbal. They have a vague, hollow sound that comes from glittering generalities unsupported by definite figures.

Mr. Carlton's optimism is not as these. He has the papers with the inexorable facts. The reports of the Western Union show it—and if there is any section of the map that the wires haven't discovered, it's too small for a microscope.

"There's nothing wrong with the Western Union," he continued, "and there's not so much wrong with the business of the country, no matter what the calamity wolves may be howling. There is no better barometer than the reports of our company. They reach to every city and town of the United States and a comparison with the figures of the year before is pretty sure to tell you which way the business breeze is blowing.

"Everything is working to get us out of the commercial slump. The opening of the reserve banks, the bumper crops, the cotton relief funds, war prices for food crops, war orders for the factories—all these things at work in a country that is as sound as ours can have only one effect.

"It's interesting to watch the revival through our reports."

LUMBER MARKET BETTER

Baker, Oregon, Mills Receive Many Advance Orders.

BAKER, Or., Nov. 27.—Orders from Bombay, India, have been received by the Oregon Lumber Company for soft woods in shipments of from 50,000 to 100,000 feet each. These orders, together with a decided impetus to the market by orders from the East for soft woods, have given a decidedly encouraging tone to the lumber industry in this section.

ALIENS CANNOT VOTE AT ELECTION

S. B. Cathcart has received the following self-explanatory letter from Attorney General Crawford in regard to permitting aliens, who have taken out only their first naturalization papers voting at the coming election:

"November 24, 1914. Mr. S. B. Cathcart, Marshfield, Or. Dear Sir: Replying to your letter of November 21st, I beg to state that where the city charter requires that the general election laws of the state shall apply to the city elections, it would be incumbent upon all the judges, under the recent constitutional amendment, to see that all voters are citizens of the United States.

"An alien who has taken out his first papers would of course not be entitled to vote until he has completed his papers and become a citizen of the United States."

PEACE TALK IS HELD PREMATURE

Cologne Newspaper Says That it is Frivolous Now—English Talk Bluff

BERLIN, Nov. 27.—The Cologne Gazette, commenting today on the newspaper despatches dealing with the renewed peace talk, writes: "It is premature to talk about peace and strikes us as frivolous. The talk in England about peace is a bluff."

SOUTH AMERICA'S VIEW.

BUENOS AYRES, Nov. 27.—The Prensa, in an editorial published today, declares the attitude of France and Great Britain a nice subject of the preservation of the neutrality of Colombia and Ecuador does not contemplate any attempt on the sovereignty of those countries. The Prensa advises all the countries of South America to observe the strictest neutrality.
