ISSUES RAISED IN CITY ELECTION

To the Voters: Economy is the watchword in Nation, State and County. Reasons multiply that municipal affairs should be carefully safeguarded along these lines, and that the same retrenchment practiced in your own personal affairs, should be adhered to in the City of Marshfield. As you are aware, the saloon is to

be banished from Oregon after June 1st, 1916, in accordance with the desire of the voters. It is highly essential that Councilmen be elected on December 1st, 1914, to serve the City of Marshfield that are in sympathy with the wishes of the people as expressed at the polls on November 3rd, 1914.

It is no idle rumor, but a fact, that the saloon interests of Marshfield are organized and are making a herculean effort to elect certain nominees, so that in the administration of future affairs things will be run to their liking, and the law of the people discredited, thereby making it appear that the abolition of the saloon was a mistake.

It is the purpose of this letter to inform you of the absolute necessity of your support of Geo. A. Baines, Geo. E. Cook and H. W. Painter, to circumvent the saloon interests from encompassing their desires.

It is not and never has been the desire of these candidates to close the saloon instantly. They favor the allowance of fourteen months for these men to close out their business as was understood in the late election.

Let us add that these aforesaid gentlemen rank among Marshfield's most progressive citizens and have achieved high success in the conduct of their private business affairs.

We therefore beg your careful consideration of their candidacy. CITIZENS' COMMITTEE. (Adv.)

DEALER PLEASED BY NEW DODGE CAR

Record Breaking in All Parts of Country is Demand for the New Automobile

"The demand for the new Dodge automobile has been even greater than the manufacturers anticipated," remarked George Goumrou today in discussing the outlook for the season's business. "I have been advised already that the entire output of the factory has been sold before the dealers have been able to even get a car for demonstrating. The reason for this has been the wonderful value of the car and the confidence of the people in any output of the Dodge Bros. That this confidence is well placed I have ample proof for on my trip to Detroit last summer I visited the Dodge Bros. factory.

"I had heard of Dodge Brothers as the largest makers of motor cars in the country but I had no idea of the size of their works until I went through them.

"Out in one building that they call the forge shop are 40 big steam hammers. When they're all pounding away at once, you couldn't hope to hear the guide even through a megaphone. Those hammers have falling weights as high as 6000 pounds, and the foundations alone weigh as much as 100,000 pounds. They were moving some of them around while I was there, and I saw the kind of foundations they must have—concrete beds about 20 feet deep.

"In another department I saw nearly 150 automatic gear cutting machines. These machines are almost human. They take a plain blank of steel, and turn it into a finished gear. The guide told me that they turned out 500,000 gears last year.

"The whole proposition is on the same scale and that's why they are able to put out such a car at a price that has created a sensation all over the country.

"In their last letter to me Dodge Brothers state that they are not certain that they will be able to give me even the small allotment that I have been able to have assigned to Coos County and I would advise any one who is thinking of a Dodge car for next season that they see me immediately or they will not be able to secure one. The demonstrating car will not reach here until some time in January but I have the complete specifications and photographs that may be seen by anyone interested.

Eight Cylinder Cadillac. "I have received word from the factory that a shipment of the new eight cylinder Cadillac has been made to the Pacific Coast and the demonstrating car will probably reach Coos Bay in a few weeks now."

Advertising Cannot Make a Success of a Poorly Managed Business

ADVERTISING SHORTENS THE WAY—

Many businesses which have succeeded through advertising had within them the capacity to succeed without advertising. But advertising shortens the way and brings the business advertised to its goal more rapidly than the business which has not been advertised.

GOOD WILL MAY BE GAINED—

A little advertising appropriate to a short-cut for any merchant. It is favorable publicity. It gains the good will of the purchasing public which cannot be figured in dollars and cents. It is obviously a good business stimulant.

OPPORTUNITY IS OFFERED YOU—

The Coos Bay Times offer Marshfield merchants the desired short-cut. This paper's advertising department will assist any business or merchant in preparing an advertising campaign—prepare the copy—utilize the advertising space discriminately.

HALF KNOWLEDGE CAUSES MANY FAILURES

Mr. Merchant, if you have been contemplating an advertising campaign, it is distinctly to your advantage to secure the co-operation of trained advertising men. Advertising is the most fascinating of business. It is intangible and indefinite. There have been many successes and many failures. Most of the failures have been the result of half knowledge. They are guarded against this when you secure the co-operation of our advertising department.

PROMOTE GOODS FOR QUICKER SALES—

People acquire a favorable prejudice for what they read about, hear about, know about; and if these things about which they are told measure up to their expectations they become lodged with other prejudices. There is no quicker or more certain method of promoting sales of anything than by advertising along correct lines.

LEARN HOW TO ACCOMPLISH THIS—

Phone 133 and ask for an advertising representative to call upon you and take up the matter of advertising with you. If you are not thoroughly convinced that we can show you a most profitable advertising campaign for a smaller appropriation than you have even contemplated upon spending—then you are losers.

EYEGLASS PROGRESS

It is our policy to keep abreast of the times. New and advanced eyeglass features are continually added to our stock. Whether you need or are now wearing glasses, you will surely be interested in the eyeglass progress displayed in our store. Our glasses are fitted by an experienced state licensed optician.
