Sails Tomorrow.—Capt. Michelson of the steamer Hardy planned to finish loading and sail today for San Francisco.

Play Eastside.—The Marshfield Independent Basketball Team and Eastside will play at Eastside Friday night. A dance will be enjoyed after the game.

New Tailor Shop.—J. B. Berg who arrived here recently from California, has opened a tailor shop at 172 North Broadway. He is an experienced tailor and comes highly recommended.

Goes South.—J. C. Savage, who recently sold out his interests in the Coquille Sentinel and Herald to Editor Young, and wife and baby, left yesterday on the Nann Smith for Florida where they expect to locate.

Owned Lumber.—E. G. Perham stated that the pile of lumber in West Marshfield, into which the Holmes auto ran, did not belong to Perham & Gidley, as was first reported. He understands that it belongs to Larson & Johnson.

Vote on Supervisor.—On Saturday at Allegany voting for road supervisors in districts six and thirty will take place. This is done for the purpose of securing two names to be submitted, with petitions, to the County Court in an effort to have these men appointed.

Nearly 82.—Anderson Wright, the well known Coos Bay pioneer, came down today from his home at Sumner to visit friends and look after business. Mr. Wright will be eighty-two years old March 18. He has been enjoying good health and is as hale and hearty as many men many years younger.

Motorcycle Delivery.—John Haglund and Andrew Hillstrom have arranged to start a motorcycle delivery service in Marshfield, delivering all kinds of packages from any place to any place in town. They have leased offices from Jay Doyle near the Unique Pantatorium on Central avenue and will be ready for business in a day or two.

He Whooped 'Er Up.—George McDonald woke up this morning to find himself inside looking out. He was pinched. Slowly he realized this and shortly after getting up he was hauled before Police Judge Butler on the charge of being intoxicated. As he had a pocketbook plenty able to

Case is Postponed.—That a ruling of the Supreme Court prohibits the holding of a partnership case, under certain circumstances, before a referee, is the decision of the attorneys in the Emil Helma-Hakvist controversy regarding the partnership in the Marshfield Baking Company. It therefore must be held over for trial in the equity court. This will necessitate a delay until Judge Coke has completed his circuit term.

Congressman-elect to Portland.—At 3 o'clock this afternoon Congressman-elect C. N. McArthur left on the George W. Elder for Portland after having thoroughly enjoyed himself on his trip to Coos Bay and Bandon. He was given an enthusiastic welcome on Monday evening. Many of his old and new friends were at the dock to bid him farewell as the boat pulled out. Mr. McArthur declares now that he has learned the way here, he will be anxious to come again.

Close Deal.—F. E. Hague was at North Bend yesterday closing the negotiations whereby the Pioneer Hardware Company of Marshfield absorbs the North Bend Hardware company. The business will be continued under the name of the Pioneer Hardware Company, with the main offices in Marshfield. P. N. Reberg will be retained as manager of the North Bend store.

Inspectors Not Her.—With the A. M. Simpson repaired and in port here it was expected that Inspectors Fuller and Edwards would arrive this morning on the Breakwater to conduct a hearing to settle the blame for the accident of months ago when the Michie and the Simpson collided in the lower bay. About a month ago the inspectors actually started for here but at Astoria Mr. Edwards was taken from the boat and the trip indefinitely postponed.

Rev. Father Wallace Arrives.—Rev. Father Michael Wallace of Galway, Ireland, has arrived in Marshfield and will assist Father McDevitt in North Bend, Gardiner, Florence, Myrtle Point and Coquille. This is the first visit of Rev. Father Wallace to America and despite the fact that he came here in a very stormy trip on the Breakwater and entered directly into the rainy season of the last few days, he is very much pleased with this country.

Dummy of Booklet.—A dummy of a small booklet in the shape of a log came to the Chamber of Commerce this morning from the Union Lithographic company of San Francisco and will be submitted to the advertising committee for their sanction. An effort is being made to get small and inexpensive booklets for distribution. The dummy is in the shape of a small log, with a realistic bark finish on the outside and the contents are supposed to be a series of Coos Bay pictures in folder shape.

Cuts Out Boat.—On the Wah-ta-Waso this morning were many heavy cedar crooks bound for the Porter mill where they will be sawed into boat frames. William Bjorqvist, of Catching Inlet, has the contract to carry school children to the new school house at the forks of Coos River, and is now building a boat for this purpose. Arthur Matson of the Wah-ta-Waso, is busy erecting his boat-building shop that blew down last Winter and with this complete in a few days the remainder of the boat will be built there. It will be 55 feet in length and with a 11-foot beam.

Sister Goes to War.—B. R. Keller today received a letter announcing that his sister, Miss M. W. Keller, who has been night superintendent of St. Luke's hospital in New York for four years, has gone to France to aid in caring for the wounded soldiers. She was one of fifteen nurses selected by Mrs. Harry Payne Whitney, formerly Miss Gertrude Vanderbilt, to go with a staff of doctors to the front. Mrs. Whitney is paying all expenses of the hospital. Miss Keller has been at St. Luke's hospital for four years. She is four years older than B. R. Keller and while realizing the danger of her task, as the hospital is to be established as near the firing line as possible, she decided to go and aid in caring for the sick and wounded.

Enjoys College Work.—That he thoroughly enjoys the work in the Eoston School of Technology, is the word received here from "Jerry" Martin, who was well known on Coos Bay last Spring and Summer. He left here early in September on his way East where he is taking an advanced course in engineering, having first graduated from the University of Oregon in June. He declares the school is located in the heart of the city, surrounded on every side by old revolutionary land

marks. There have been severe storms on the Atlantic, off Cape Cod this season, says Mr. Martin, and several ship-wrecked crews have been brought into that port after having been picked up by life savers off the coast. Most of the wrecks were of fishing boats.

DRAIN BOX FAILS FILL WASHES OUT

Heavy Rain Backs 15-foot Head of Water Against Eighth Street Fill

When a drain box put under a fill on Eighth street in the rear of R. A. Cople's residence failed to work, Jupiter Pluv, turning loose his forces, backed water 15 feet high into the gulch behind and the resulting pressure undermined the newly laid dirt and between 400 and 500 yards Tuesday night washed into the pond below. Perham and Gidley, the contractors opening the street, today had a crew of men at work on a new drain box.

Only by the merest chance was the donkey engine and the steam shovel saved from the wash-out. On several nights they had been left standing on the track over the fill. Tuesday night they had been run back toward the Cople residence and when the flood came escaped destruction.

ADD END PARAGRAPH DRAIN BOX seemed to slowly sink the latter, and it was this, declares E. G. Perham, that caused the drain box to go out of kilter and thus allow the water to back up in the gulch the other side of the grading. Had this not happened it is probable there would have been no accident.

It is thought that about one-fourth of the fill was washed out. For two weeks a crew has been at work on this project, scraping the dirt from out of the new road and filling it into the gulch. This had not yet been allowed to settle and was still under the course of construction when the water backed up from the failure of the drain box to work. With a head of 15 feet of water and more coming with every hour of the steady rain the fill found a greater pressure on it than it could stand.

For weeks the project of putting a road through on Eighth street has been under way. Part of the time two crews have been at work and practically every hour of the 24 has been noisy with the persistent steam shovel and the puffing donkey engines.

THURSDAY, DECEMBER 10.
 EXTRA BIG FEATURE! EXTRA!
 "ST. ELMO," by an all-star cast. This production of St. Elmo cost \$100,000. Everything that money could provide and skill and artistry contribute was invested in the production of St. Elmo. The direction was painstaking. This is the greatest; everybody will agree who sees it. Six wonderful reels picturing Augusta Evans' world famous American novel; 194 gorgeous scenes. The most elaborate, most extravagant, most painstaking contribution to the silent drama, depicting the manners, costumes and customs of days before the Civil War when the chivalry of Southern gentlemen was proverbial—when men settled their grievances upon the field of honor and none could recklessly assail the name of a lady.

By all means see "St. Elmo." Lower Floor, 15c; First Balcony, 15c; Second Balcony, 10c.
