Dr. Horsfall Would Like to See Col. Rosa Says it Would Tap Marshfield and North Bend Unite to Secure Park

That the cities of Marshfield and sonable sum now.

Dr. Horsfall says it is one of the principal species of trees native to this section are found in the small area, There are giant Douglas Firs, Cedar, Spruce, Hemlock and others, about the only kind missing being the Yew, which is ers line as a link in it. found on the higher elevations. In addition to the great trees, which millions of feet of timber that the could in the park be preserved for road would tap, it would also open up future generations, the tract is thick the great Squaw Basin coal deposits. with rhododendrons whose marvelous He says that this is the best coal beauty in the early spring is one field on the coast. He declares there of the wonders of the Oregon tim- is more coal and better coal there

another attraction for park pur- the coal and coked it, something that vert it into a fine park. The opening of the new North Bend-Empire road will make more accessfble and Dr. Horsfall thinks that before Coos Bay has had a very great growth the city of the future would be greatly enhanced by the

He may take steps to see what can be done to acquire the tract as a public park.

PLACE ED QUINN ON BLACKLIST NOV

Officers Richardson and Carter Decide to Hasten His New Year's Resolution

Ed Quinn, logger and jack of all again last night. As usual, he was tons, penniless. Officer Richardson, after conferring with Chief Carter, decided to eliminate the nulsance and issued an order to all the saloons forbidding them to sell Quinn liquor. Last night Quinn caused grief at the Portland Rooming House before he was taken to the station.

Recorder Butler today exercised clemency in the case of Henry Mc-Donald, who was arrested last night by Officers Carter and Richardson the plate glass. Both were badly in- fer. toxicated.

McDonald got a friend to put up \$10 ball and today Recorder Butler ordered the \$10 refunded to him and also deferred the collection of a \$5

Boys Bother Firemen.

Gordon Smith reported today that a number of kids in West and South Marshfield had broken into the fire houses in those sections and rendered the equipment temporarily useless. In one they dumped out the chemical and in another choked the hose nozzle with a stick. In another the nozzle was taken away. The lads will be punished if found.

No More Air Guns.

Chief Carter is also putting the air guns out of commission, a number having entered complaint about them. The other day Mrs. Walter Richardson, wife of Officer Richardson, was struck by a shot from the gun of hands of boys now,

Coal Product Less,

Owing to the poor market for coal and also to the greater part of the year being devoted to development work on the Smith-Powers mine and the Beaver Hill mine, the coal output 4 of Coos county for 1914 will be considerably less than it has been in years gone by. However, with the 5 Smith-Powers mine fully opened up and the new Beaver Hill shaft sunk, 6 next year should be a record breaker. In addition to this the completion of the railroad from Eugene will open up an outside market which will g increase the output materially.

According to figures gathered by the Marshfield Chamber of Commerce 9 the total output of the Coos county coal mines in 1914 will be about 55,- 10 Dr. J. H. Jessen, Physician. 000 tons. All the regular operators 11 L. T. Tester, Real Estate Broker. except Peart Brothers have reported trades, who has been a regular board- and exclusive of their output the toer at the Marshfield city jail, was in tal for the county is about 52,000

The output of the various mines

in tons is given as follows:	
Beaver Hill	14,000
Smith-Powers	12,000
Libby	12,000
Magee, Riverton	4,676
Avena, Coquille	6,250

GRANTS PASS LINE TO ISSUE BONDS ON MYRTLE ARMS

F. E. CONWAY INCORPORATES COMPANY AND WILL SELL SE-CURITIES IN MYRTLE ARMS-LIST OF TENANTS AND PLANS FOR BOND ISSUE.

The Myrtle Arms was incorporated under the laws of Oregon by Bennett, Swanton and Bennett Law Office, this month. The Myrtle Arms Company was organized to own and operate the Myrtle Arms Apartment Building. The Company are issuing 7 per cent First Mortgage Gold Bonds for half the value of the property with interest payable semiannually. The Bonds are secured by a trust deed held by the Bennett Trust Company., in trust for the protection of the bond holders,

The funds so derived are used to clear the final indebtedness of the construction of this magnificent building which has been a big boost for Coos Bay. Providing fine modern home comforts for the many better class investors and others stopping here, to look the country over, as well as for many local people.

The building has been a huge success, right from the start, paying wel! upon the investment. The following is a list of the tenants occupying the Apartments.

Theo. Bradley,

RAILROAD GRADE NEARLY FINISHED

Rapid Progress Made on Construction Between Bay and Ten Mile Section

That the grading of the Willamette Pacific between Coos Bay and Ten Mile Lakes has been practically completed, is the report brought back by a Marshfield man, who has just made the trip over the road. He says that the rapidity with which the work has been done is almost a revelation.

He traveled on the right of way for a considerable distance and this partly revealed the secret. From Representing Haas Bros., Whole- Dynamite, the point on the Bay where the grading started, to Ten Mile, the grading was all in the sand. The only stretch of solid earth was near the Ten Milo lakes. Manager of the Convertible Chair The whole formation showed that the country had been built up by the Pacific, the sand thrown up by Chief Salesman of the Converti- the waves and the ocean being gradually forced westward in by-

gone years. There is a little grading this side of the lakes to be finished and some northward along the lakes toward the big tunnel. One tunnel this side of Ten Mile has been bored through.

The Cheerful Warmth of a Gas Room Heater chases chill and gloom

There is nothing so cheerless and gloomy as a cold room.

Most every house has its cold room or cold corner which is avoided as a pest.

The gas room heater will make such a place inviting and cozy-put a tone of cheer in the entire household.

Gas room heaters are light-easily moved from room to room.

You can have the heat just where you need it. Gas room heaters are inexpensive to buy-and cost little to operate.

See the complete display of gas room heaters at the Oregon Power Company office. Everything from a tiny bathroom heater up.

Use iron pipe connections—not rubber tubing.
