**HEAD STUFFED FROM CATARRH OR A COLD**  
Says Cream Applied in Nostrils Opens Air Passages Right Up.  
Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear, and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream to your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly. It's just fine. Don't stay stuffed-up with a cold or nasty catarrh.

a serious menace to the forests there when dry weather comes on, according to word received from Will Steel, superintendent, in a letter to the local Chamber of Commerce in which he asks its co-operation in seeking a \$20,000 appropriation from Congress to clear out the debris. The matter will be submitted at the meeting of the Chamber tomorrow evening.

**Will Not Opened.**—The will of Captain W. S. Wheeler has not yet been opened and according to Judge Hall will not be until after it is definitely decided who is the County Judge. The rumor is that the greater bulk of the property which is thought to be worth under \$10,000, has been left to the children of the deceased.

**Starts Divorce Proceedings.**—Mrs. Frank Lapp, through her attorney, has started divorce proceedings against her husband whom she yesterday charged with attempts to kill her. In her divorce complaint she alleges cruel and inhuman treatment. Frank Lapp, the young husband, could not be found yesterday when Constable Cox went to serve the warrant for his arrest.

**Makes Large Map.**—A Coos County map on canvas and about two by four feet in dimension is being made in Coquille by J. L. Smith, county agriculturist, and on this will be shown the butter and cheese factories of the county together with their individual production in 1914 and also the various cow testing associations and the herd records. With this complete Mr. Smith expects to put one copy in the Marshfield Chamber of Commerce, where he has a desk, and retain a second copy for his Coquille office. The average price paid for butter fat during 1914 will also be an interesting item on the map.

**Police Capture Cows.**—Officer Richardson and his deputy, Dick Behr, were called in a hurry this morning out to the home of "Pat" Hennessey, on South Fifth street, where several stray cows were found grazing peaceably on the family lawn. The animals were captured and driven down to the city pound where they are being held in custody. This is the second time in the last few weeks that such a thing has occurred, the last time when five head were taken at night after they had caused considerable damage. Of the animals taken one is a large red cow, another a black and white three-year-old heifer and the third a two-year-old red and white steer.
