MARSHFIELD SHOWS WELL IN BASKETBALL LEAGUE

Lack of Practice Now Being Remedied—Bandon Loses to Coquille Saturday Evening.

Basket ball fans at the local high school are elated today because Bandon high school went down to defeat in Coquille Saturday evening after having come there in battle array to take a third victory to their long spear on which were already pinned the scalps of two teams. The score was 13 to 3 in favor of the county seat quintet.

This now leaves Myrtle Point with 100 per cent. She has played but one game, with Coquille, out of which she came victorious. Bandon has won two and lost one; Coquille has won two and lost one; Marshfield has lost one and won one, while North Bend has lost the one game she has played in the league.

The local boys went down to defeat at Coquille by the close score of 21 to 24, this game being played without previous practice and before the new gym had been opened for use. The game was on the schedule, and rather than throw it out Coach Niles thought it best to play. After the showing made against North Bend on Friday evening, it is believed the local five are on the high road to recovery.

So far the Marshfield Independents have not lost a game, adding another notch to their stick Friday night when they ran away from North Bend with the long end of the score.

The Coquille Independents wop from the Bandon Independents in the county seat Saturday evening by a score of 31 to 13.

Precipitation same period last year 37.82

Wind: Southeast; partly cloudy.

Put in New Pillings.—Chas. Noble has a crew busy today with the pile driver putting in new piling in the rear of the Sacchi Milk Depot. Many of the old timbers there have rotted away.

Books Experted.—According to a report to the state officials, the cost of expediting the books in the Coos county clerk's office by W. H. Wann was \$578, which was considerably less than most of the counties spent.

Wagner May be Powers.—That the station of Wagner on the Smith-Powers logging road may be changed to Powers, named after A. H. Powers, is the opinion of residents in that section. It is said that the name will be changed this spring.

Meeting Postponed.—Because of the meeting Wednesday evening of the Fellowship Club at the Chamber of Commerce the bi-monthly meeting of the Civic Club has been postponed until the following Wednesday, according to an announcement of J. T. Brand.

It Was a Close Night.—Hale Haly and Matt Matson, men of alliterations, went forth Saturday night exuberant. They were out some time, in fact, the officers found them laid out. They awoke for a Sunday morning snooze in the city's guest chambers, being taxed the customary "five" at the conclusion. The bill read "drunk."

Passed Worthless Check.—Getting money under false pretenses is the charge against Britt Henderson, who has been arrested by Sheriff Alfred Johnson, Jr., in Roseburg. It is believed the man will be brought to North Bend for examination, the complaint stating that Henderson on November 23 cashed a worthless \$2 check, a man named Knight giving him the money.

Return Here.—Mr. and Mrs. A. M. Sumner arrived on the Redondo from California and were met by their son, Milo Sumner, with an auto. Mr. Sumner is a veteran of the Civil War. He found that the climate was warmer, but it was not home Coos county for him. After visiting with his sons and wives he will go to Bandon, where he resides.

North Bend Chamber to Meet.—The annual meeting of the North Bend Chamber of Commerce, which was postponed from January 13 because of a Council meeting, will be held Wednesday evening, according to Secretary Smith. At this time the reports of the committees for 1914 will be read and officers for the coming year elected.

Bandon May Get Truck.—Mark Savage of Portland has returned from Bandon, where he went in an effort to sell the city an auto fire truck of the La France type. He declares the people will vote on the issue at an election to be held in April. Mr. Savage expects to return to Portland overland tomorrow, making several stops in the Willamette Valley.

Episcopal Guild Meeting.—The business meeting of the Episcopal church guild will take place promptly at 2:30 tomorrow afternoon at Guild Hall. A program of social uplift to which all ladies of the vicinity are invited will be inaugurated at an open meeting which will begin at 3 o'clock. Mrs. McEldowney and Mrs. Ebbecka will be in charge of the subject for the day.

Finish School Boat.—Wm. Bjorqvist, who has been building a 55-foot school boat at the Arthur Matson boat shop on Catching Inlet, expects to have his craft finished this week and soon it will be ready to pick up the school children bound for the school at the forks of the river. He was awarded the contract about the first of the year and immediately began the new boat.

Will Go East.—Earl Powell, who has just sold the Twin City Steam

Laundry to George Clinkenbeard, announces that he will return to his old home at David City, Neb., as soon as he arranges his affairs on the Bay. He has been offered a business opportunity that he cannot pass up, much as he desires to remain on the Bay. He will turn over the laundry to Mr. Clinkenbeard about February 1 and will assist him and will then arrange his other affairs preliminary to moving east in about three months.

Makes Constables Happy.—A letter has been received by Constable Cox from Senator Pelree at the state capital informing him that a bill designed to allow any citizen over 21 years of age to serve papers in court cases has been killed in the committee room. Had this bill passed it is believed that the returns from the constables' office would have been anything but alluring and there probably would have been a dearth of constables. Under the present system this officer is allowed a certain fee for this work.

Goes Back to Old Home.—V. F. Segar, a civil engineer on the Smith-Powers logging road, left this morning via the Mapleton route for his old home at Tracy, Minnesota, where he goes for a visit. Mr. Segar has been in the west four years, having spent two years on the Roseburg proposed line and the remainder of the time with the logging road. He expects to go South by way of Los Angeles and will spend several days visiting the Grand Canyon of the Colorado and then continue his way via New Orleans.

Sulphuric Acid Burns.—Clay Church, handling a gallon bottle of sulphuric acid this afternoon in the Owl Drug Store, had the thing suddenly break in his hands, the liquid spattering about his legs and feet. His clothes were immediately torn off and ammonia applied as a neutralizer, but in spite of this the young man was severely burned about the feet. His clothes and shoes were completely destroyed. He believes the carboy must have been cracked, for it burst in his hands as he took it down from a shelf.

Discount Canadian Money.—Portland banks are now discounting Canadian money one per cent. The Eugene banks are discounting everything above dimes twenty per cent. Currency and checks on Canadian banks are discounted one-half of one per cent. The Coos Bay banks are not yet discounting the Canadian money but may do so. For the past four years, Canadian money has been generally accepted at face value. The local banks have refused to take Canadian nickels as they are about the same size as American dimes.

No Council Meeting.—There will be no meeting of the City Council this evening, that body having adjourned last Monday night for a period of two weeks. The meeting of last week was held primarily for the purpose of electing a City Engineer whose duties will commence next week. It is believed that a week from tonight the fire and water committee will have a report to make to the Council regarding a price for the Coos Bay Water Company, this to be used as a basis for further consideration of municipal ownership of the plant.

Break Even on Two Cases.—Before Justice Stanley in Coquille on Friday and Saturday were presented the cases of W. R. Foote versus Peter Thurston and Silverine Foote vs. Peter Thurston, both cases growing out of the purchase, not long ago, of the Foote ranch by Thurston. At the time he took possession, Mr. and Mrs. Foote claim Thurston refused to relinquish to them certain personal property, claiming that it belonged to the ranch. Mr. Foote won his case but Mrs. Foote lost on the second suit, the suits for them being conducted by Graves & McInturf.

More Operations Discovered.—Little by little the back tracks of Fred Nelson, the man of many aliases, are being brought to light. His bad check operations are now known to have included Glenada in the list, having passed worthless paper there for \$15 and \$35 amounts. His procedure was the same as at the stores in Florence, Gardiner and Marshfield, that of purchasing a bill of goods, tendering a check in payment and receiving a cash balance. Nelson was turned down by the Gardiner Mill Company, but cashed his paper at the store of Reed, Janelle & Company. He was registered at the Gardiner Hotel under the name of R. W. Davis.

Not McArron.—Owing to Robert Lee Miller, a brakeman on the Smith-Powers road, who was arrested for failure to support his children in Sonoma county, Calif., being first listed as engineer on 101, Engineer Ed McArron is being made the butt of much playguing. McArron is a confirmed bachelor who has been in the employ of the Smith-Powers company for about twenty years and is one of the best logging road engineers in the country. He has been on the 101 since the engine was brought here and it is the pride of his efforts and consequently hurt his feelings to have it erroneously announced that any offender should be identified with his position. None

of his many friends paid any attention to it, but a few others took advantage of the error to try and have fun at his expense.

Inspects Work.—P. M. Hall-Lewis is here from Coquille to inspect the work on the new bridge to the East-side ferry landing, which is nearly completed by Anderson & Klockers. He will also go to South Inlet, where it is believed a new wharboom will have to be built on account of the changing channel endangering the drawbridge.

Injuries Not Serious.—Proctor Flanagan, the eldest son of Mr. and Mrs. J. H. Flanagan, who was injured by Harry Noble's auto Saturday, was not seriously hurt. He is getting along nicely at the home of his parents, much of the gratification of their many friends. His playmates thought that he car ran over him, but Mr. Noble says it did not, as he stopped it too quickly. The boy was roller skating on the pavement. It is likely that the accident will result in an effort being made to provide a playground for the children of Marshfield, so that they will not be endangered by traffic on the street.
