## NORTH BEND HAS MANY PROJECTS

Annual Meeting of Chamber of Commerce—New Directors -New Water Supply

At the semi-annual meeting of the North Bend Chamber of Commerce last evening a board of directors was selected and plans outlined for a very active year. Many of the plans were summarized in the annual report of Sec. J. A. Smith, who proposed among other things that steps be taken to secure the following:

and road opened to Ten Mile region.

Municipal water system. Carrying out of Roseburg-Coos

Bay railroad project.

H. Greves and B. B. Weldy.

By an amendment to the constitution, adopted last night, the terms of of six months.

outlining some of the essential things in the history of North Bend. that the ensuing year should bring. summarized as the most important work of the body the past year the following:

Launched Simpson hotel project: Launched daily paper project.

Assisted in extension of harbor lines and dock work as approved by U. S. Engineers.

Secured changes in Empire, North Rend and Marshfield mail services. Assisted Coos and Curry exhibit at San Francisco Exposition.

He said that while general conditions had been adverse, still the organization had a very successful year on the whole. He pointed out that a large number of inquiries had been received and answered.

For Separate Judges.

resolution was introduced by N. C. McLeod urging that in the revision of the Oregon Judicial system plan is to have the circuit judges take over the juvenile, probate and other judicial work now handled by the county judges and would practically eliminate the latter. With cars at a big bargain this change, Mr. McLeod pointed out.

time if you let us clean

and regulate your watch.

RED CROSS

Jewelry Department.

urged that they be separated. The resolution was adopted and will be sent to the legislature.

A letter from Representative Barrow stating that he was willing and anxious to be of all possible service to the body was read.

A resolution of the Roseburg Chamber of Commerce against high taxes was read.

Municipal Waterworks.

There was quite a discussion of a municipal water system for North Bend and it was decided that a committee to take charge of it should be named at the next meeting. In the discussion it was advocated

that North Bend should secure its Ferry across Bay to Glasgow Point supply from the Sand Hill Lakes. It was pointed out that a lake there, Public market place on water inside the federal reserve, had an elevation of twenty feet, which would carry the water by gravity the the Southern Pacific Bridge across the pulp mill, Bay. There a pumping system could Memberhip increased from 100 to be installed. By utilizing the bridge work to support the pipe line and a proper utilization of the by-product, There was a good turnout and the simply submerging it underneath the meeting was a decidedly enthusias- draw, it was pointed out that a fine tic one. The following directors municipal water plant could be put in at a cost of between \$100,000 and Henry Bergman, F. W. Wood, M. \$150,000. It was declared that there E. Everett, Peter Loggie, E. F. Rus- was sufficient water in the lakes to tell, George Hazer, F. J. Fackler, J. supply a town of 50,000 to 70,000 population.

Fourth of July.
