### EASTERN CONCERN AFTER IRON MINES

**Representative Declares Duluth Company Will Buy Rogue River Claims**

Seventeen iron claims on Rogue River, now owned by individuals, are expected to pass into the hands of a Duluth steel corporation some time in February, according to Andrew Greer, a representative of the company, who has just left for the East, where he declares he will secure machinery for the development of the claims.

For months, he states, the steel company has been carrying on negotiations with the owners of these lands, who are expecting to pool their interests and sell in a lump sum to the corporation.

Those who are interested in iron deposits on the Rogue River are, many of them, residents of Marshfield and other Coos County points. When the claims were taken up, the owners of them did their assessment and now they believe the time

has come when they may dispose of the deposits at a profit.

Mr. Greer states that the iron deposits of the Rogue are exceptional and that two representatives of the Eastern concern have already made themselves satisfied that they will pay for the working and that the company is willing to undertake the project.

### TWO NEW TEACHERS

**Will Assist With Seventh and Eighth Grades in North Bend Schools**

Beginning with the second semester, the seventh and eighth grades of the North Bend schools will be in charge of three instructors, who will conduct the work of these two grades under the departmental plan. Superintendent Raab says it is a step he has been trying to take for some time.

Miss Edna Dow, of Seattle, Washington, a graduate of the Washington Normal, experienced teacher, and Miss Julia Huss, of Monmouth, graduate of the Monmouth Normal, and student of O. A. C., are the new teachers hired for the remaining term to assist Mrs. Edith Irish in handling the work of these two grades.

### SAYS COOS COUNTY HAS GOLD DEPOSIT

**J. R. Smith, Who Was Promoting South Inlet Project, Now Claims New Strike.**

J. R. Smith, who with C. D. Lash and others last summer was claiming a great gold strike on South Inlet and tried to get local parties to put money into it, has turned up with a gold discovery. Concerning it, The Bandon Recorder says:—J. R. Smith and son, Owen W. Smith arrived in Bandon last night from the head of Lobster Creek in the extreme southern end of Coos County, telling of one of the biggest gold strikes ever found in this or any other country, and their story was not hot air either for they had the goods with them to back up their claims.

The Smiths went into that section of the country by trail, along the latter part of November and came out this week with nearly \$3,000 in gold. They had one nugget valued at over \$90 and many others of smaller values besides a big buckskin sack of smaller gold.

Their mine is at the head of Lobster Creek about a mile and a half from the Curry County line

and said to be the highest point in that section of the country, having an elevation of about 4,000 feet. The snow at one time in December, Mr. Smith says, was nine feet deep.

### IMPROVEMENTS IN THE GUNNERY

**Some Extensive Alterations and a New Department Has Been Added**

A number of extensive alterations and improvements are being made in "The Gunnery" this week, preparatory to caring for their large new stock of Ford parts and motorcycles, bicycle and automobile supplies. They will carry one of the largest and most complete lines of supplies in Southwestern Oregon.

A new repair department for motorcycles, bicycles, guns, locks and typewriters has been added and will be in charge of C. H. Smith, an experienced mechanic and repair man whose work will speak for itself. Drop in and see the many changes that have been made in "The Gunnery."

### J. W. BENNETT ON OREGON GAME LAW

**Article in Portland Paper Tells of Game Law Views.**

The Portland Journal says:—J. W. Bennett of Coos Bay, president of a couple of banks, a trust company or so and one of the foremost citizens of his district, is in Portland today, en route to Salem, where he will attend the joint meeting tomorrow evening of house and senate committees in relation to fish and game measures. He is representing the Coos Bay fish and game commission, of which Dr. Dix is president, and also the Coos Bay Rod and Gun club, of which Mr. Bennett is the executive head, with all the remaining offices filled by his son and son-in-law.

"And this explains why I am charging all the expenses of my journey to the Coos Bay commission," said the Judge, who relishes a good joke.

He said that whenever the population of any locality increased sufficiently, game preserves and feeding grounds were essential.

As an illustration he pointed to Coos Bay. There prior to the enforcement of the present law he said, ducks that made the marshes near

by their feeding grounds were slaughtered night and day. Since the law has gone into effect the almost denuded hunting grounds have been showing a game increase, particularly for the reason that some feeding preserves where the game is safe have been created.

### SOCIALIST TO JAIL

**Roseburg Sympathizer of I. W. W. Sentenced to Serve 7½ Days**

ROSEBURG Ore., Jan. 29.—After being found guilty of refusing to aid a city official in making an arrest, George Church, the local champion of Socialism and proprietor of the Socialist cigar store, decided in the city recorder's court to go to jail.

Church, however, appeared reluctant to go to jail, but finally decided to begin serving his sentence at once. He was led to the courthouse and committed to a cell in the county jail by Marshal Williams, where he is scheduled to remain for seven and a half days.

The cases of the city against Robert Rosch and James W. Morgan, I. W. W. speakers, who participated in the affair of Saturday night, were continued indefinitely. The men declared they would leave town,

### BOX FACTORY

**Robert Dollar Co. and Bandon Bid it in for Mortgage**

The Bandon Recorder tells of a box factory belonging to the Guille River Manufacturing Co. and located near the Lagoon mill was sold yesterday at public sale, E. E. Oakes being the appointed some time ago. The plant were accounted for to the Robert Dollar company about \$7,000 and the First Bank of Bandon held a mortgage on it for \$1,000. A creditor bid in his own name what will be the outcome, as to starting up the later on is not known at present but it is possible that some amount will be made and which is a good one and doing a large amount of work be started into operation in far distant future.

and it was thought better to the expense the city would the event they were brought.
