MONEY IN STOCK CATTLE

Out on Elk River, about four are run extensively, and there is no drudgery to be found as milking senson never comes, Mr. McKenzie runs from 75 to 100 head of stock The following cases have been on the place, often buying young your neighbor's property as well filed in the Circuit Court during cattle and keeping them over a season and then selling them as fattened beef, Last year Mr. McKenzie raised 65 calves from 36 head of cows, It is his policy to raise two calves to the cow, buying cheap calves from the dairies for the purpose. There were several heifers in his herd last season which he let raise but one calf aplece. These calves were given a good oportunity, and as Mr. McKenzie has what is probably the best grade of road durhams in this end of the country, J. S. Von Husen vs W. P. Murphy, they develope into splendid animals. This is shown by the fact that these calves last December were worth on the market \$22 per head, which in about eight months, with very additional stock that is carried on a place like this and you will have some idea of what a small Curry County stock farm will do when Fred V. Oman and Lempt A. properly handled, Mr. McKenzle with his durhams, like H. C. Hampton with his Herefords at Eckley, is demonstrating that good breeding and care are the two essentials necessary to make stock raising Earl W. Simmons and Ruth Anella pay its biggest returns .- Port Orford Tribune,
