Game on Friday.—The schedule of the high school calls for a game with the Coquille quintet here next Friday evening. The Independents will rest this week, but are trying to get a game arranged with the Coquille Independents to take place here a week from this Friday night. The high school game will be called promptly at eight o'clock.

Daughter Born.—George Rotnor, of the Woolen Mills Store, is in receipt of a birth announcement card from Mr. and Mrs. J. L. Bowman, of Portland, telling of the arrival of a daughter at their home, February 2. The little stranger has been named Ellen Jean. Many Coos Bay friends will extend congratulations.

Lots Change Hands.—Emil Nelson bought from Tom Crawford two 25-foot lots on Broadway south of Hill avenue yesterday afternoon for \$1640. It is said that the terms were cash. The depth of the lots is 140 feet. Mr. Nelson states that he does not expect to erect any building on the property at present. The transaction occurred through the office of J. W. Watt.

Cousin in Front.—Mrs. G. L. Roy Hall, wife of Rev. LeRoy Hall, has just received a letter from her cousin in England that one of her cousins has gone to the front in answer to Lord Kitchener's call. The letter came from the west coast of England where no trouble has been experienced from the air raids and the people feel quite secure from molestation.

Kirby is Manager.—At a meeting of the Coos County Farmers' Union Warehouse Committee in Coquille yesterday, W. H. Kirby was elected general manager in place of O. A. Mintoyne, who resigned. Schubert Writes.—F. C. Schubert, for years steward on the steamship Alliance when she operated into Coos Bay, is now in Rotterdam. Mr. Schubert is well known on the bay and has property here. He was generally known as "Foxe" Schubert.

been released on \$150 cash bail. The young man is charged with stealing chickens from the Curtis residence, suspicion resting on him because it was alleged that the peculiar shoes he was wearing when apprehended, corresponded to the marks left outside the chicken coop. Judge Shuster was lenient for he is uncertain as to whether or not he can hold to the burglary charge.

Engineering Work.—Harry G. Butler and family, who returned here last week from California, are residing in the Tower apartments. Mr. Butler will open an engineering office here and follow his profession, the report that he was to be identified with a grocery at North Bend being erroneous.

He paid out something less than 50 per cent under the assignment and the bankruptcy proceedings are to relieve him of further liability. C. I. Reigard is his attorney. He has no assets and the amount of his liabilities are not known. They are practically all to wholesale jewelry firms.

Funeral Today.—The funeral of Mrs. Harry Winkler today was largely attended by the many friends of the deceased and her families. McDevitt assisted by Father Kenyon, of Bandon, and Father Wallace. The pall-bearers were largely of her former classmates and were Ernest Stack, John Stack, Oscar Kronholm, Joe Bennett, John Ferguson and Ernest Harrington. Mrs. Chas. Stauff sang Mrs. Winkler's favorite song, "The Rosary." She was accompanied by Mrs. Horsfall.

Government Requires Free Site to Move Blanco Station to Smith Mill.

Arno Moreen has received a letter from Lieut. McConnell of the U. S. Navy, recently here looking for a site for a wireless station, asking written confirmation of a number of matters. Among them are the cost of electricity, of phone and water service and cost of transportation. He also specifies in his letter that the government requires an absolute title to a site. The site he desired is near the Smith mill, his plan being to utilize one of the tall smokestacks for one of the masts, erecting one mast and making provision for another if it should be necessary. The company can meet all the requirements except to cede the site, which is about 350x450, free. The cost of this will be ascertained and the matter referred to the Marshfield Chamber of Commerce. The plan was to move the Cape Blanco station here as the cost of taking supplies to Cape Blanco is prohibitive. The government requires that wireless stations be at least seven miles inland. They handle a commercial business besides the government business, although they do not solicit the latter.

DEPUTY SHERIFF TAKES UP MINING

R. J. Long, Who Formerly Lived Here, to Bring Machine From Los Angeles

From the office of deputy sheriff at Los Angeles to the role of a black sand miner is the change being made by R. J. Long, who arrived yesterday from the south and left this morning for Curry county, where he has mining interests. He expects to return to Los Angeles in a few days, coming north on the Speedwell February 23 with a new gold machine in which he is interested. Mr. Long is a nephew of Colonel Rosa of Bandon. He has leased considerable Curry county property for mining operations.

Mr. Long says that he has found a machine that will save practically every particle of gold going through it. The machine is a new one and is not placed on the market for sale. The company in which he is interested will try their hand on some claims they have near Jumping Off Joe in Curry county.

Fifty cubic yards of dirt during an eight hour day, he states, can be handled with the new contrivance. Water bubbles up through the sluices from underneath and the sand, by means of an agitator that can be regulated, is kept in constant motion as the water pours through. A concrete base covered with copper is used.

While here Mr. Long presented Sheriff Johnson with a new type of handcuffs which are guaranteed to detain even such people as "One Eye" O'Brien, who have wrists and hands of about the same size. He told the sheriff he could hold an eel with them.

The committee formed from the various women's clubs and the city churches for the question of providing religious instruction and a place for the boys of Marshfield to spend their Sunday afternoons at their last meeting decided to request the ministers of every church in Marshfield to preach on this question the first Sunday after Easter and to offer any solution they might have to the question at that time. The committee has been called to meet the week after the representatives of the various churches and clubs at the last meeting were.

The committee has in project the organizing of a boy's Sunday School class for moral and ethical training. A meeting for men interested in this work is called for Sunday at 2 p. m. in the lecture room of the library.

An effort is being made to organize a Sunday school class for all the older boys of Marshfield to be conducted by business men of the city. All men who are interested and have ideas to offer in this connection are invited to meet at the lecture room in the library building at 3 p. m. Sunday.

AMPHIBIAN LEAVES WATER AND SCOOTs UP STREET

V. C. Gorst's Machine of Land and Water Comes for Visit of Marshfield.

Needling only whigs to bring her into competition with the animals of the land and water and the birds of the heavens, V. C. Gorst's amphibian came to Marshfield a visit this morning.

At an early hour old Sol poked his head above the eastern horizon and down near the new Southern Pacific bridge he saw the machine scooting up and down the water as if taking a morning bath, but actually scheduled on the picture man could record a glimpse of the strange animal that travels better than 65 miles an hour on land and 15 on the water.

Even as Neptune, at times, arises from the depths, so the machine tired of the water and whizzed its way onto the land and came buzzing all the way to Marshfield. People left the stores, autos stopped and horses shied to the curbing to let the strange monster pass.

High above the wheels and framework the airplane is mounted while in the rear the big wheel fans the machine along on its course, leaving a suction behind that draws up a cloud of dust and sends it eddying. After scooting about the streets the machine headed again for its haunts in North Bend and quiet was resumed once more.

MATTHEWS' GOLD MINE

Well Known Marshfield Man to Have Assay Made of South Inlet Ore.

L. T. Matthews returned today from his South Inlet ranch. He was accompanied by J. R. Smith, who recently announced the discovery of a valuable gold deposit on Lolsler and Boulder Creeks in the southern part of Coos county. They brought in about 200 pounds of ore from the Matthews place which will be assayed at San Francisco. Mr. Smith taking it there this week.

Mr. Matthews says the state geologist whom Prof. A. G. Raab of North Bend brought here last year announced that there was ten or twelve acres of the Matthews place that would produce upwards of \$30,000 to the acre. In addition to this Mr. Matthews, who is an old mining expert of the Granta Pass and eastern Oregon section, says he has opened a fine ledge of black sand which runs heavily in gold.

Mr. Matthews says that the report that Smith fell down on his property last summer is not true. He says that Charles Lash and Addison Cook have been knocking it and that they have simply been resting on their oars until they could get cleared of Cook and Lash.
