

February 12th, Lincoln's Birthday

Copyright Hart Schaffner & Marx

All men, in every land, without reference to ancient political convictions, honor the memory and celebrate the birthday of Abraham Lincoln. There is no reason why we may not, even in a clothing store advertisement, pay our tribute to his greatness.

Lincoln was a great servant of the people; he did what he could, according to his convictions, to help his fellow men. There may not be many men now who could do what he did; and there may never again be such a crisis as that in which he served the world. But there are daily opportunities for showing, even in small affairs, the spirit of service.

Hart Schaffner & Marx

We believe, are trying to make clothes for men and young men in that spirit; and we are trying to sell them in the same spirit.

We keep your clothes pressed free of charge.

MUST HAVE IMPORTS

With German Market Closed Attention Turns to Pacific Coast Ports
War with Germany has completely curtailed the former trade of importing and exporting existing between Australia and the Fatherland says a letter just received here from Nels Nielsen, trade commissioner to this country from Australia. In need of markets and imports the far island continent must turn to the ports of the Pacific, he states, and Coos Bay is asked to look over the figures he presents and an effort will be made to in some way stimulate trade.

"For the past three years," he writes, "the government of New South Wales has had a trade office established in San Francisco. The object of this office is to promote, in every way possible, trade between the two continents."
Figures are given to show that imports to the Pacific coast from Australia have increased four times in the last four years, exports being in about the same ratio.
He points out that at present more goods are imported from the United States than any other country. Eighty five dollars a year per capita is spent in Australia for goods overseas.

When the steamer Admiral Sampson was lost in August, 15 others were drowned and, with a fireman who was trapped when the steamer Santa Catalina burned, and the drowning of Captain Stream, of the schooner Edward R.
