Has Recovered.—Cell Ireland was able to be down town today after being confined to his room for a week with la grippe. He will leave tomorrow for Bandon, where he will spend Sunday with relatives.

Return Later.—J. W. Bennett and wife, who were expected to return this week from an extended northern and southern trip will not arrive until next week. J. H. Flanagan, who was planning to leave on a trip to California points, will not depart now until after Mr. Bennett arrives.

Taxes Due.—County Treasurer Dimmick says that he will proceed with the tax collections under the 1913 law until the county court orders him to make any change that may be arranged by the present legislature. The 1913 law provided that the first half of the taxes becomes due before April 1 and the second half September 1.

Everybody Welcome.—The Chamber of Commerce committees in charge of the reception at the Millcoma Club this evening, which is given in honor of the more recent arrivals on the Bay, want it understood that everyone is welcome. Old residents and new arrivals are urged to turn out and get acquainted.

Come for Crazy Men.—Traveling Guards G. K. Harrington and A. H. Harder, of the Salem insane asylum, arrived overland this morning and left at once for Coquille, where they will get two men held in the county jail for insanity. They expect to return with them this evening and leave out tomorrow morning on the return journey.

Play Basketball.—Though they are at the bottom of the list in the county basketball league the players of the North Bend high school have gone over into the valley for two games and feeling confident of success after several weeks of strenuous practice. They are to meet the fives from Coquille and Bandon, both of which have defeated them previously this season.

Laird Brings Prisoner.—W. C. Laird, deputy sheriff, returned this morning by way of Mapleton from Roseburg, where he went for Charles Chambers, the young man who forged a check at Bridge several days ago. The accused has two names to his credit, that of Roy Shields being his other cognomen. He is a short, heavy set young fellow, with a receding chin and heavy jaw.

the company on Coos Bay, this to be in charge of O. F. Kilham, assistant sales manager of the concern. The company deals in nursery stock, seeds, flowers, garden implements and fertilizers, being one of the largest concerns in the state. Orenco is a small model town built some time ago by this firm.

Hoists Wood Blocks.—R. E. Andrews, formerly in the engineering business here and later city engineer of North Bend, writes from San Leandro, Calif., where he has located, that he is having the C. A. Smith company make a shipment of wood blocks for paving to Toledo Ohio. Mr. Andrews is backing a jitney bus system at Oakland putting on two cars.

Father Has Second Stroke.—Dr. H. M. Shaw yesterday received a letter from his wife who for the past two months has been at the bedside of her father at Windsor, Nova Scotia, saying that he has suffered a second stroke of apoplexy and stated the belief that the end is not far off. The old man is 81 years of age and for many months has been ailing. Dr. Shaw, with the two children, expects to remain in the East for some time yet.

Public Reception Tonight.—Notice is again drawn to the public reception in the rooms of the Millcoma Club this evening to be given by the Women's Auxiliary of the Chamber of Commerce and the entertainment committee as a welcome for newcomers to Coos Bay. A musical treat will be the first appearance of Fenton's 30-piece orchestra. There will be a short program, the reception is to be informal and everyone is extended a cordial invitation to attend.

Another Jitney.—J. H. Corrigan has inaugurated another jitney auto bus service making two in Marshfield. The Corrigan service will run to Eastport and First Addition by way of Fourth and Fifth streets, starting at 7 o'clock in the morning and continuing hourly until 8 o'clock p. m. and again after the noon hour, leaving the Blanco and Chandler Hotels right after 12 o'clock and returning before 1 o'clock.

Would Make Churns Here.—Copies of plans for a patent dairy churn, now manufactured in six sizes by an Eastern concern, the North Star Iron Works, of Owatonna, Minn., have been received here with word from the company that they would like to have them manufactured on Coos Bay for local distribution. The churns are made of fir and at the present time the

lumber is shipped east to be made up and later the finished article sent back to the coast.

Sportsmen Will Meet.—A meeting of the Coos Bay Fish & Game Protective Association has been called for 8 o'clock this evening in the Chandler Hotel. E. S. Catron, inspector of the U. S. Biological Survey in Oregon, will address the members on the status of the migratory game laws of the United States, explaining to them the main points of this law. The present status of the game bill in Salem seems to be that there will be no change in the funds of the Commission but that new Commissioners will probably be chosen.

Hopes for Jetty.—Capt. Macgenn said today that he had a long conference with Major McKinstry in Portland. He said that they talked over the jetty situation and he is hopeful of developments. He pointed out the danger of more of the old jetty sinking. He suggested that a committee of U. S. Engineers inspect the entrance. The dredge Michie will leave Eureka about March 1 for Portland, where she will have additional power installed. Jas. Polhemus, son of Capt. Polhemus, will probably be sent with her to Coos Bay later in the spring to look after the local work. Capt. Macgenn presented Major McKinstry with views of the harbor entrance.

Had Another Counterfeiter.—Just before Secret Service Operative W. A. Glover left Portland for Coos Bay he arrested a Chris Mistia in Portland on the charge of counterfeiting. The latter, a young Hungarian, has just been tried before Judge R. S. Bean and sentenced to 30 days in the county jail. The light sentence is accounted for because Mistia was merely in the experimental stage and had turned out no coins that were at all passable. When the name of William Glover appeared among the list of dead at Bunker Hill, Mr. Glover, whose name is also William, telegraphed immediately to his headquarters in Portland and also to his wife stating that he was still alive.

Gets Fine Bird.—R. A. Corthell received a fine barred Plymouth Rock rooster by express yesterday to be added to his Bay Park poultry yard. The bird comes from a prize winning strain and Mr. Corthell

thinks he may be able to put his Bay Park flock in the prize winning class if well bred fowls will do it.
