Sandberg's Job.—P. A. Sandburg, formerly engineer in Marshfield and later at Bandon, is interested in a \$23,000 contract at Tillamook.

Pian Cafeteria.—Clint Hanawalt, who started the Right Cafe and until recently ran the Blanco Cafe for Fourier Brothers, is reported to be figuring on starting a real cafeteria in Marshfield.

Sells Cattle.—As a result of a few ads in The Times, F. A. Sacchi has sold all the blooded cattle that he had at his disposal. He ordered the that he could have disposed of many more if he could secure them.

Seek Prowler.—Another burglar alarm was turned in Thursday night from the Merchant home at Fourth and Elrod. Officers Traver and Richardson who responded in a hurry were unable to find any trace of any burglar and think that a dog caused the scare.

Got Lit Up.—John Wick got trimmed last evening before he appeared on the front street. Shortly afterward he got "lit up" and finally became so bad off that he lit in jail where he spent the night and this morning Wick got trimmed again, only this time Police Judge Butler did the deed and the accused lost a \$5 assessment for being drunk.

Hikers Ride.—Geo. Prinsley and Slim Nicholson, two Marshfield hushanglers, started out today via Florence and Eugene to walk to Chicago. They have a light camping outfit and cooking outfit in their packs and will make it by easy jaunts. Their intention to walk the entire distance didn't last long as Jerry Kinney reported that he gave them a free ride

Finds Bad Weather.—A. S. Hammond who was here from North Bend yesterday said that he had just received a letter from Fred Hollister saying that he and his party had encountered miserable weather in California. Instead of a pleasant auto jaunt, they could scarcely use the car and had to ship it to San Diego instead of motoring from the Golden Gate.

Plant Holland Grass.—Roy Rozelle, who is assisting Claud R. Wright in the Bandon Jetty Improvement, came over yesterday to arrange to have Al Nichols of Empire take charge of the planting of Holland grass along the north spit. This is paid for jointly by the government and Port of Coos Bay and has proved the best preventative of shifting sands causing trouble.

Back From Eureka.—Bob Macgenn, son of Capt. Macgenn, has returned from Eureka where he has been employed on the Dredge Michie. The Michie has about completed her work at Humbolt Bay and will be taken to Portland early in March to be overhauled and improved to resume work on the Coos Bay Bar about May 1. She has been doing much work in the interior harbor of Humbolt Bay.

Committee Selected.—A committee of 12 was selected today to have charge of the ticket selling for the Fellowship Banquet of Tuesday evening, the savory morsels for which are to be cooked by J. C. Kendall and Tom James. The committee is composed of W. A. Reid, Milo Sumner, Dave Nelson, J. W. Motley, J. T. Brand, Dr. George W. Leslie, Chester Wolcott, J. Lee Brown, at the Brown Drug firm, Lionel Gordon, at Gordon Shoe store, John Ferguson, F. C. Birch, Preuss Drug Co., and Frank D. Cohan at the Owl.

Commissioners Return.—The county commissioners G. A. Armstrong and W. T. Dement together with Judge Watson came back late yesterday afternoon from their tour of inspection at South Inlet where they went yesterday morning to inspect the bridge across the inlet and the reported changing of the stream. They state that between \$1,500 and \$2,000 worth of work must be done on the bridge and in diverting the stream back again into its regular channel. This will be done immediately. The commissioners returned to their homes today.

Much Better Today.—James Christenson who on Thursday suffered a severe stroke of apoplexy which left him partially paralyzed is better today, according to the friends of the old man who have been caring for him in his Ferndale house. Christenson resides on the second floor of his home, the lower story being rented to Mr. and Mrs. Charles Kronholm. The old man was heard to fall sometime during the night and it was not until about 15 hours later that he was found in his helpless condition.
