Engine Lays Own Track.—A large 45 horsepower Hope Caterpillar plow arrived on the Nann Smith this morning from the factory at Stockton, California and consigned to Geo. W. Kruse for use on the Isthmus Inlet ranch. This is said to be the first machine of its type in this section. An endless belt extending around the front and back wheels on each side makes a track to hold the machine up on a soft surface. It is capable of plowing 20 acres a day. J. W. Mitchell came up as a representative of the country.

Lawyers Spelled Down.—The fact that three professional men of Marshfield were spelled down at a country school spelling match match on Saturday evening is a story being told by their friends. A. B. Loud, J. T. Brand and Ben Fisher went to Ten Mile on the boat Saturday afternoon for the purpose of looking over a new tract of land just bought on Landrith arm of the lake. They visited the spelling match at Lakeside and all three men were chosen and took their places in line with the pupils and residents of the countryside. It is said that J. T. Brand wanted to spell raisin with an "e" and A. B. Loud left the capital off the word Sunday after having stood up next to the last. Ben Fisher thought that autumn should have a couple of m's just for good measure.

Paul, her son, who was driving, went on down the road about to try and find some habitation where they could put up for the night, but failing in this he came back and in the morning turned back home being thoroughly tired and discouraged.
