Will Take Vacation.—Dorsey Kretzer who has been ill for some time is planning to take a vacation from his duties as cashier of the First National Bank and will spend it at his old home in Dayton, Ohio, where the cash registers come from. Mr. Kretzer has been improving recently but feels a rest will assist in his rapid recuperation.

Too Much Fire Water.—Too much fire water caused Jack and Levi Nichols to get within the toils of the law last evening. Both of them appeared quite jubilant over the affair and seemed to care very little when they "pungled" over a five pipe piece this morning to Judge Butler.

Earl Litter Buried.—The burial of Earl Litter, aged seven years who was drowned in the bay 10 days ago was held this morning from the Wilson Undertaking Parlors, the Rev. Bassford having charge of the services. The little fellow was discovered yesterday near the foot of Market street.

Fireboys Make Quick Time.—In their practice drill of last evening the members of the Volunteer Fire Department answered the call for Fifth and Ingersoll streets. In a trifle less than four minutes the truck had left the hall, covered the distance and had the hose coupled to the hydrant.

Operated on in South.—Mrs. V. C. Gorst underwent a successful operation in Sacramento a few days ago, according to word received from there. Mr. and Mrs. Gorst left for a visit in the South about two weeks ago, going there especially for the health of Mrs. Gorst. They expect to remain away for several weeks yet.

Move to New Location.—A two-year lease on the Bank of Oregon building has been taken by F. E. Hague, of the North Bend Hardware Company, and the building is now being put in readiness for the moving. A. E. Morten, of the Morten's stationery company in North Bend, will probably move into the old location of the hardware company.

Oratorical Contest April 17.—April 17 has been selected as the date for the oratorical contest of the county, which will be held in North Bend. At that time speakers from the five schools of the county will participate. Orations will be limited to 1200 words in length. Merlin Chappelle and Anna Truman will represent the North Bend High School.

Hold Practice Shoot.—A practice shoot of the Marshfield Gun Club will be held Sunday morning at 9:30 at the Race track. This shoot is for the purpose of picking a team to shoot for the Dupont sterling silver spoon trophy. No cup is being offered here this year by the Dupont people because the application was received too late, after the allotted number had been given out.

L. L. Thomas Has Appendicitis.—L. C. Thomas the well known musician was seized with a violent attack of appendicitis last evening and was taken immediately to Mercy Hospital where he was operated on at ten o'clock this morning. He sustained the shock of operation well and late this afternoon was reported resting easily. His many friends will write in wishes for his prompt recovery.

Off On Ocean Trip.—By special invitation of Admiral Holden Mrs. Florence N. Preston and Miss Edith R. Preston accompanied him on the last cruise of the good ship Gasgo down the bay. The Admiral's hospitality lacked nothing to be desired in warmth but the steam heating plant of the Gasgo was not operating and the ladies on their return remarked that if the North Pole was any colder they didn't blame Dr. Cook for "hurrying back."

Looks at Randolph.—B. A. Seaborg yesterday was in Prosper; where it is said he went to take a look at the gasoline schooner Randolph laying in there at the mills. Mr. Seaborg is interested in the new salmon cannery near Gold Beach and it is intimated that he may purchase this boat. The Randolph is of 31 tons burden, 60 feet in length with a seven foot depth of water. She was built on Coos Bay in 1910 and several weeks ago was reported sold, but the deal fell through.

Part in Class Play.—Madge Barry daughter of Mr. and Mrs. T. H. Barry had a part in the Sophomore play "At the Pearly Gates" at the University of Oregon several days ago. It is the custom each year for each of the four classes to put on a short class play during an assembly hour. The skit is written generally by one of the members of the class and the entire cast is chosen from the class. The "actors" were dressed in flowing

robes and were gathered about the gates of heaven as the play opened and one by one prominent members of the student body and the faculty applied for admission. St. Peter intercepted them, questioned them closely and sent them below to various agonies and punishments.

To Take Alimony.—An application before Judge Coke this morning by Stoll and Hodise for an order authorizing the perpetuation of testimony in the case of Charles Sueddon versus Ellen Sueddon was allowed. Hoy and Miller, for the defense, objected on the ground that the witness was not competent to testify, alleging him to be of unsound mind. The court held that the question of whether or not the witness is of unsound mind is one for the trial judge to decide and is not involved in the matter of applying for an order to take testimony. This will be done April 5 before A. B. Lord. In his suit Charles Sueddon claims that the wife holds real property in trust for his benefit and asks that she be required to convey it to him. Judge Coke also holds that he is disqualified to hear the case. He probably will be called as a witness.

A SIGN OF GOOD BUSINESS

But a Red Sign of Good Spelling at Louis Gorr's New Shop.

Louis Gorr, who recently joined the Central Avenue booster with a new plumbing shop on Central Avenue, has been having trouble of his own with a new sign this week. Louis wanted it to read: "Jobbing a Specialty," but when the painter finished this work it read "Jobbing a Speciality" and it required a little of the patience of Job-ning to stand the joshing Louis got. Will Chandler came along and suggested before Louis was as busy as a bee was no reason for leaving one "B" out of jobbing and he thought someone was joshing him. He also remarked that anyone with half an eye could see there were too many "a" in "speciality." Another one said if Louis wasn't a better plumber than a speller he had better make a specialty of something else—studying the spelling book for instance. Louis got pretty mad, but he said he thought it was a good sign when so many noticed his sign and he could knock the eye out of anyone who said he wasn't the best plumber on Coos Bay quicker than the sign painter could knock the "l" out of "speciality." G'ee, Louise.
