U.S. SUBMARINE IS LOCATED

Sunken Vessel is Found Just Outside the Honolulu Harbor Entrance

FEAR CREW'S FATE

Will be Little Short of Miraculous if Any of the Men Are Still Alive.

ANXIOUSLY AWAIT WORD

Secretary of Navy Daniels Hoping Against Hope that Favorable News May Be Received from Rear Admiral Moore of Accident

RAISING PROCEEDS SLOWLY

(By Associated Press to Coos Bay Times.)

HONOLULU, Mar. 27.—The raising of the United States submarine, F-4, lost in deep water outside of Honolulu harbor since early Thursday, was held up temporarily while the cables attached to the submerged craft were tested. An electrical buzzer device is being used to determine the efficiency of the fastening on the submarine. The work is proceeding slowly.

HONOLULU, Mar. 27.—

The sunken submarine, F-4, which was located late yesterday outside the harbor entrance, should be raised late today, if all goes well, according to a statement of Captain of the Yard Duffy, who says he believes there is a fighting chance to save the lives of the men imprisoned.

WASHINGTON, D. C., Mar. 27.—

Every word that passes without favorable word from Honolulu lowers hope that any of the men in the sunken submarine, F-4, will be alive. While there always is a possibility of life, naval authorities agree that it will be little short of miraculous if any should survive. Secretary Daniels and officials in Washington are anxiously awaiting some word from Rear Admiral Moore upon which they might base hope, but as the day went on, none came.

HONOLULU, Mar. 27.—

The dredger California, dispatched from the Pearl Harbor Naval Station in response to a radiogram, reached the scene at midnight. The army department hospital is in readiness to receive the men of the F-4 should they be alive when the submarine is raised.
